STRATEGIC MANAGEMENT

Time: 3 hours

Max Marks: 60

Question Paper Consists of **Part-A** and **Part-B**.

Answering the question in **Part-A** is Compulsory & Four Questions should be answered from Part-B

All questions carry equal marks of 12.

PART-A (CASE STUDY)

1 X 12 = 12

Rupbani Beverage Limited entered the Indian wine industry in 1975 by acquiring the Mastana Wine Company of Shimla and two other smaller wine companies at Kalka for Rs. 50 lakh. Despite hostility expressed by other wine makers and predictions that Rupbani would very soon fail as other outsiders such as Parminder Wine Company had, the entry succeeded. Rupbani Limited performed the unheard of feat of establishing a volume of 30 lakh cases within two years and taking the market share away from premium brands such as the National Wine Company of Bombay, Pearl Drink Limited of Pune and Syndicate Cola Limited of Madras.

Rupbani advertised heavily and incurred Rs. 10 lakh in one year and standardised the taste of its wines with considerable success. It also invested Rs. 48 lakh in a large, new winery at Ahmedabad. A Rupbani Executive said, "By 1995, consumption of wine in India will be a liter per capita, compared with half a liter today." The industry reacted to Rupbani's presence by doubling and tripling advertising expenditure. ABC and Company began a costly campaign to market premium and varied wines while reducing marketing emphasis on its cheap wines such as Nahan Drinks and the Gola Beverage. ABC maintained its 25 percent market share but had to resort to some heavy price discounting to do so. In 1982 Pearl Drinks formed a special wine unit to combine efforts for all its brands. Mr. Sailesh Kumar former Vice President of the National Wine Company had directed a project to coordinate Pearl's world-wide wine business and develop a world wide strategy. The new unit was, in fact, a result of his work.

In 1983, wine consumption changed from growth at a rate of 5 per cent to no growth. The government also lifted the ban on imports of wine. This presented an even greater challenge because imported wines were cheaper as well as superior in quality. In 1984 Mr. Ranganathan took over as Managing Director of Rupbani. He reviewed the recent performance of the company and its competitive position. He noted that the company was losing its hold over the market and it was not getting the return as expected. He also found that the company's performance in the syrup business was excellent. He, therefore, thought of selling out the wine business to Pearl Drinks. He convened an executive meeting and apprised the executives of his proposal. He also informed them that Pearl Drinks had offered the company to recapture its investment in the wine business which was about Rs. one crore. Mr. Arun Mehta, General Manager, observed that Rupbani was in and out in the past six years and has joined different organisations in trying the wine business. The finance Manager, M. Subhash Ghai said, "The return on assets in the wine business is not the 30 to 35 per cent, which Rupbani is used to getting in the syrup business. Gaining share and trying to compete with ABC and Company left Rupbani with, eventually, the number two position in the wine industry with profits of Rs. 60 lakh on Rs. 220 lakh in sales. The stockholders wanted immediate return and hence, the company could not afford to make long-term investments necessary to popularise the brands. Had they stayed for five more years, they would have been a key leader in a large and profitable industry."

Pearl Drinks immediately went from the sixth position in the industry to a strong second place with an 11 per cent market share. The Chairman of Pearl Drinks stated: "We believe you can make money in this business in two ways -- remain a small boutique winery or become large and achieve economies of scale."

Mr. Harish, Marketing Manager of Rupbani said, "It is no use selling out our business to Pearl Drink and get back what we have invested. We can compete with our competitors successfully and improve our market share if we manufacture wines of varying qualities to suit the varied preferences and pockets of diverse sections of society. We should also offer price discounts to attract the consumers. There should be wide publicity of our brands throughout the country."

Questions:

- (a) Perform SWOT analysis of Rupbani.
- (b) In the light of opportunities and threats of Rupbani Beverage and its strengths and weaknesses, what strategy should it formulate to improve its performance and strengthen its competitive position?
- (c) Should Rupbani spend on advertising in line with its competitors? Discuss.
- (d) What other strategies would you suggest for Rupbani for increasing their share of the market?

PART-B

4X 12 = 48

- 2. (a) "Corporate planning is not synonymous with long range planning." Why? Discuss.
(b) Discuss the strengths and weaknesses of formal strategic planning.
- 3. (a) How do political, social and technological factors in the environment affect strategic planning? Explain with examples.
(b) What are the techniques for industry analysis?
- 4. (a) Briefly discuss the generic strategies that companies in an industry must pursue to be successful.
(b) When is a company's competitive advantage most likely to endure overtime?
- 5. (a) Explain the values that support successful strategic planning.
(b) What kind of conflicts arise in the process of strategy implementation? How they are resolved?
- 6. (a) 'Implementing a strategy successfully depends on selecting the right combination of organisational structure, control systems and culture.' Explain.
(b) Explain the relationship between strategy and structure.
- 7. (a) Write your views on strategic management in Indian software companies.
(b) Explain the business model and strategies suitable for high-tech company.

BUSINESS RESEARCH METHODOLOGY

Time: 3 hours

Max Marks: 60

Question Paper Consists of **Part-A** and **Part-B**.

Answering the question in **Part-A** is Compulsory & Four Questions should be answered from Part-B

All questions carry equal marks of 12.

PART-A (CASE STUDY)

1 X 12 = 12

1. A test was given to 5 students chosen at random from the M.Com, class of each of the three universities in Bihar. Their score were found on follows

Universit	Scores				
A	90	70	60	50	80
B	70	40	50	40	50
C	60	50	60	70	60

Perform analysis of variance (ANOVA) and show if there is any significant difference between the score of students in the three universities

(Given $f_{5\%}=3.44$)

PART-B

4X 12 = 48

2. (a) What are the steps in research process?
(b) Compare and contrast between types of Business Research.
3. (a) What is sampling? Distinguish between stratified sampling and cluster sampling.
(b) Under what circumstances stratified random sampling design is considered appropriate? How would you select such example? Explain by means of an example.
4. (a) What are the different measurement scales?
(b) What is a self- administered questionnaire? In what situations it is used? Explain with examples.
5. (a) Compare and contrast primary and secondary data with suitable examples.
(b) What are the several methods of collecting primary data?
6. (a) Briefly describe the important parametric tests used in hypothesis testing. How they are different from non-parametric tests.
(b) Narrate various advantages of using non-parametric tests. What are the limitations?
7. (a) What is the importance of tabulation in presenting and analysis of data? What are the aspects to be taken into account for good tabulation?
(b) What are the important principles of writing a report?

INVESTMENT AND PORTFOLIO MANAGEMENT

Time: 3 hours

Max Marks: 60

Question Paper Consists of Part-A and Part-B.

Answering the question in Part-A is Compulsory & Four Questions should be answered from Part-B

All questions carry equal marks of 12.

PART-A (CASE STUDY)

1 X 12 = 12

1. The following information available

	<u>Stock – A</u>	<u>Stock- B</u>
Expected return	16%	12%
Standard deviation	15%	8%
Coefficient of Correlation	0.60.	

- What is the covariance between stocks A and B?
- What is the expected return and risk of portfolio in which A and B have weights of 0.6 and 0.4 respectively?

PART-B

4X 12 = 48

- "Investment is well grounded and carefully speculation" – comment.
 - Write differences between 'Investment' and 'Speculation'.
- "Technical analysis differs from fundamental analysis in many respects" – Explain.
- What is meant by YTM (Yield – to – maturity)? How is it different from current yield and coupon – rate?
- Write brief note on:
 - Liquidation value method
 - Replacement cost
- Explain the differences between a **security characteristic line** and the **capital market line**.
- Explain the CAPM theory and its validity in the stock market.

RETAIL MARKETING

Time: 3 hours

Max Marks: 60

Question Paper Consists of **Part-A** and **Part-B**.

Answering the question in **Part-A** is Compulsory & Four Questions should be answered from Part-B

All questions carry equal marks of 12.

PART-A (CASE STUDY)

1 X 12 = 12

1. Pratap kapoor's wild dining format is unique and one of its kind in Mumbai. Advertised as a jungle theme restaurant, it is named as "sher Baugh." Wild dining is more of an amusement park then dining space with all the facilities, which can delight a family. It delivers its promises through robotic animals and a simulated thunderstorm, features that would delight children. It gives the feeling of living in the wild for the urbanites and gives them a break from the typical fancy restaurants.
Mr. Pratap was planning to convert his venture into a franchise format with opening of outlet in all the metro cities in India. However, he is not sure of the sale ability of this kind of retail format in the Indian context. This critic of his venture says that for adults who put the food over the experience of eating in an artificial jungle the wild dining restaurant is not all that fun. In addition, the cost incurred in setting up the format is a point of concern.

Q.a) what is wild dining offering and target market?

Q.b) many retailers have tried to make their store entertaining. What are the pros and cons of proving entertainment in the retail store or restaurant?

PART-B

4X 12 = 48

2. (a) What is Retailing? who is a retailer? Illustrate?
(b) Explain the functions performed by a retailer?
3. (a) Define retail market strategy? Discuss the opportunities for retailer to develop sustainable competitive advantage?
4. (a) Describe the types of location opportunities available to retailers?
5. (a) what are the objectives of a good store layout?
(b) Explain grid store layout with the help of an example?
6. (a) what is retail branding? How to develop brands and build customer loyalty?
7. (a) what is franchising explain its types?
(b) Explain the evolution of franchising in India?

MANAGEMENT OF INDUSTRIAL RELATIONS

Time: 3 hours

Max Marks: 60

Question Paper Consists of Part-A and Part-B.

Answering the question in Part-A is Compulsory & Four Questions should be answered from Part-B

All questions carry equal marks of 12.

PART-A (CASE STUDY)

1 X 12 = 12

1. 'Sivadav' is an engineering factory situated in Andhra Pradesh. It has about 700 workforces. There are two registered Unions namely 'X' and 'Y' operating in the factory. After due verification of membership through secret ballot by the concerned authorities, union 'X' was recognized by the management. Union 'X' is affiliated to a major national federation of Trade Unions and its president is an outsider. After one and a half years, just before the negotiations for wage revision were to start, the President of the union 'X' was expelled from the primary membership of the political party to which the national federation owes its allegiance. Consequently the president of 'X' was asked to relinquish his position by the national federation. When the president refused to do so, the National Federation advised the secretary of the union 'X' to start a separate union and register it. As a result, the union 'Z' came into existence.

Now the union 'Z' wants the management not to negotiate wage agreements with union 'X' as it lost its majority due to split. The president of the union 'X' demands that the management should negotiate the wage agreement with his union as it is the recognized Union.

- (a) What are the problems or principle issues in this case?
- (b) As the Industrial Relations Officer, how do you approach the problem?

PART-B

4X 12 = 48

2. Write a note on historical review of 'Industrial relations in India'. What are the trends you observed industrial relations in recent past?
3. What is the procedure for registration of a trade union under the trade union Act, 1926?
4. Narrate the meaning and core concept of 'collective bargaining'.
5. "Workers participation in management decisions will increase the organization's efficiency in long run" – Comment.
6. What is 'Social Security'? Write different social security schemes that are available in India.
7. Brief the following:
 1. Code of conduct.
 2. Provisions for settlement of industrial disputes.

Answering the question in **Part-A** is Compulsory & Four Questions should be answered from Part-B

All questions carry equal marks of 12.

PART-A (CASE STUDY)

1 X 12 = 12

1. The employees of SVN pharmaceuticals were a worried lot. With the news that the company was going to be merged with ABC pharma, all of them were worried about what would happen to their jobs, and the other benefits as a result of the merger. There were all kinds of rumors regarding layoffs and reduction in pay and benefits. ABC pharma was a leading firm with operations spread across Asia and Europe. SVN pharmaceuticals had a strong hold in marketing and distribution in India, and so it was considered to be a merger of equals. Amid all the confusion, the CEO of SVN pharmaceuticals addressed the employees about the reason for the decision, and advantages to the firm if the merger is completed. He felt as a result of the merger, the firm would be able to explore various areas of research and development. The employees have only one question in their minds, what would be the impact of this merger on their jobs and their pay packages. To their relief CEO made it clear that a benefits team would be formed that would be representatives of both the companies. He requested the employees to be patient as it would take some time to clearly decide and bring in an effective benefit plan. As per CEOs statement a benefit team was formed. The team was headed by the VP – HR of the merged company. He stated that since it was a merger of equals, they had to develop something that was the best for the new company, even if it were time – consuming. The team felt that the best way to go about it was to merge the best of both companies' benefit plans or create a new benefit program that would reflect the culture the new company was trying to nurture. The head also stated that their aim was not just to design a new benefit plan, but also to make sure that all the employees were knowledgeable and comfortable about the changes in the benefit program. Before concluding the meeting, the VP – HR made it clear to the team that people were of paramount importance to them and if the benefits program did not help in retaining them, then the merger would serve no purpose.

Questions:

- a) The benefits team has to devise a benefit program that would satisfy the employees of both the firms. Can you suggest some steps for the benefit team to function effectively?
- b) Why would creating a new benefit plan take more time? what should be the action plan for the HR team .

PART-B

4X 12 = 48

2. (a) Define compensation. What are the various aspects to be looked into while designing a compensation system for an organization?
(b) How theories of wages help in fixation of wages in an organisation?
3. (a) What are the advantages and disadvantages of compensation approaches such as skill – based pay and competency – based pay? How can you overcome the disadvantages?

- (b) How pay levels are fixed in the two approaches?
4. (a) Differentiate individual and group compensation pay structures.
(b) Design a compensation pay structure for executives.
5. (a) Discuss the various statutory and non – statutory welfare measures that are needed to be taken up by successful organizations.
(b) What benefit programmes do you suggest for small and medium scale organisations?
6. (a) Determine the institutional mechanism for wage determination. Examine their pros and cons.
(b) Discuss the internal and external equity for compensation systems in organisations.
7. (a) Brief the compensation structure that you observed in automobile manufacturing industries.
(b) What are the factors which influence the multinational and global organisations in designing compensation policies?
