

NARASARAOPETA ENGINEERING COLLEGE

(AUTONOMOUS)

1.3.1 Institution integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability, Constitution of India into the Curriculum Response:

A Professional with value education and ethics has the ability to judge between right and wrong, makes better decisions and also decision making process easier. Values are the optimistic teachings that are presented to make professionals walk through the right path of life. The curriculum is designed, developed and enriched with an aim to integrate ardent issues having national and global emphasis for future generations' sustainability. The courses relevant to Gender, Environment and Sustainability, Human values and Professional Ethics will augment the knowledge and skills acquired during the engineering education and in turn enable the engineering graduates to practice their profession /discharge their duties with societal responsibility.

Gender Sensitization: The course Gender Sensitization is offered as a basic requirement for personal and professional development. The objective of the course is to understand the needs of a particular gender and also the opposite, to emphasize gender-equality and their contributions to society and to overcome any sort of differentiation or harassment. Gender sensitization makes men and women familiar with each other's Lives and with accountability in an organisation as well as at home to produce positive results in society. It also helps in generating respect for an individual irrespective of gender.

Environmental and sustainability: The courses pertaining to Environment and sustainability are included in the curriculum with an ardent intention to make the students understand human life and the natural system. It focuses on studying and understanding problems of the environment and consequences due to Man-made effects on the environment and finding the solutions to preserve the environment by untying the pollution from air, water and land.

Human Values and Professional Ethics: The engineering graduates should possess resilient Human Values and practice strong Professional Ethics for a better society. Values provide an essential feature of self-conception which function as individual supervisory concepts. Human values are the qualities that direct individuals to take the human aspect into consideration as one communicates with another human being. In practising their career, professional engineers and consultant engineering companies control the quality of life of all persons in society and the quality of all sectors of the economy. A mandatory course, "Human Values and Professional Ethics" is offered, to craft the students into altruistic and conscientious professionals. Under the National Service Scheme (NSS), tree plantation, blood donation camps, rehabilitation services during natural calamities are organized. AIDS, On Women Safety, Swachh Bharat and Save Trees.

Constitution of India: The engineering graduates should possess resilient constitution of India is included in the curriculum with an ardent intention to make the students understand the constitution represents is the values that India celebrates every day. The values of liberty, equality, fraternity and secularism are some of the values that are celebrated all over the world and the Indian Union stands as a testimony for these values.
