Report On India's Fisrt Leadership Talk Series by Shri Anand Mahindra, Chairman Mahindra Group (Webinar organised by MHRD's Innovation Cell on 8th January, 2019).

- Institution Innovation Council of College Narasaraopeta, provided opportunity to the students to attend the Webinar for India's first Leadership talk series by SHRI ANAND MAHINDRA, CHAIRMAN MAHINDRA GROUP on 8th Jan, 2019.
- Altogether 892 students and 76 faculty members attended the Webinar.
- Webinar session was arranged in college auditorium, conference hall and six lecture halls with audio visual accessories.
- The students have expressed their high appreciation for the talk delivered by Shri Anand Mahindra.
- The talk certainly makes a positive impact in their mind. The talk focussed on answering the question posted by students across the nation related to their career aspects. His opinion about the required quality to become a great leader is highly appreciable.

- According to his view the pathways of success are self-awareness, brevity and positive acceptance of failure and humiliation to bounce back.

- His unique interpretation on the three letters of HBS is amazing. Students expect many more such kind of Talk from him in future.

- Talk focussed on answering the question posted by students across the nation related to their career aspects.
- His opinion about the required quality to become a great leader is highly appreciable.

Program report

Program Name: "My story – innovator's life & Cross road motivational Speak to be share by innovators"

Date/Duration: 08-09-2019 / 10:30 am to 03:00 pm

Key Speaker: R. P. Sasidhar, GM, Mithapalli Spinners.

Number of participants: 110

Programme Objectives: The aim of the workshop is how to take Entrepreneur and innovation as a carrier. The pros and cons of becoming an entrepreneur.

Programme outcome:

R. P. Sasidhar, a young and innovative entrepreneur delivered an interactive and motivating talk in which he shared his own experiences and examples. He emphasized that for becoming successful in life one need not to be extraordinarily intelligent but one must have sincerity, dedication, and accountability. He narrated very interestingly his own life's journey how he did never run after the jobs, and wanted to create an innovative business of his own. He highlighted that one must have managerial skills, coupled with a calculated risk-taking capacity for getting success. He discussed about the various opportunities in the field of entrepreneurship, and elaborated the current 'innovative' business scenario of the country.

Programme Outcomes: -

The participants were motivated in starting up their own business unit rather than a job seeker. They were also motivated to do innovative projects and gained importance of patent and Intellectual Property Right (IPR).

Program Report

Name of the program: Product Development Phases – Story Telling

Date: 21/12/2019/3pm

No. of Participants: 100

Program Objectives : Inspire to Innovate Story Telling on Innovation ideas and emphasized phase development and the changes in a particular product so that it copes up with the existing market.

Topics Covered: The IIC and departments of the college collaborated to organise a Story Telling Workshop. Our faculty mentors enlightened the students on the creative aspect of a prototype and how it helps in making a successful product. The talk also emphasised phase development and the changes in a particular product so that it comes up with the existing market.

Program Outcome :

Storytelling workshop encourage students to share their experiences of using products as a story, rather than asking them directly to articulate their needs. Analysing the stories which emerge leads to previously unknown customer needs.

Program Report

Name of the program: Engage Students for Internship Innovation & Start-Up Centre/Start-Ups/ Incubation Unit Etc.

Program Coordinator: B. Raghavaiah, Associate professor, Dept. Of ECE

No. of Participants: 50

Program Objectives : The objective here was to provide, hands on experience to engineering students on live projects that startups are doing currently. It was focused more on ow students try and solve problems at hand and contribute to overall development of the startup in itself. Few of these engagements are also continuing to next semester. And if all goes well, here will be an offer from Startup for the candidate to join them on rolls.

Program Outcome : Students gain the skills and knowledge about the practical exposer. Students learn much more problem handling capabilities as compared to their peers who do internships in MNCs. With startups, their contribution is getting recognized in overall development of the product/service of startup. And are responsible for major development of Startups /Incubation units.

Program report

Program Name: Leadership Talk.

Date/Duration: 5th Feb 2020 / 9:30 am to 1.30 pm

Name of the Resource person: Mr. Mahesh Babu, MD & CEO, Mahendra Electric Mobility Limited

Number of participants: 70

Program objective: The main objective of the talk is to motivate and inspire students in innovation.

Topics covered: The following topics were discussed in this workshop.

- Leading innovation. ...
- Virtual leadership. ...
- Project planning and delegating. ...
- Building trust and respect. ...
- Coaching to improve employee performance.

Program outcome: The outcome of this programme is creating awareness among students about various facets of leadership. . The process of achieving these outcomes begins while leaders are participating in a program and it develops and deepens over time. Thus the full impact of our programs cannot be known in the short-term. One of the challenges and opportunities we have as a Community is to develop projects, approaches, and tools that will enable us to capture change and transformation over time. One approach may be to specify stages of growth and development that become benchmarks for us to assess how individuals, organizations, and communities are nurturing and deepening their leadership capacity over time.

If we have a theory about how change and transformation happen then in our evaluations we can begin to document where individuals, organizations, and communities are along a continuum of leadership development and change.

Program report

Program Name: Business Model Canvas (BMC) and (or) Business Plan Competition to Invite Innovative Business Models from Students

Date/Duration: 19.05.2020 / 10.00 AM - 1.30 PM

Name of the Resource person: Dr. Satya Acharya
Number of participants: 70

Program objectives: The main objectives of the "Business Model Canvas (BMC) and (or) Business Plan Competition to Invite Innovative Business Models from Students" is to Motivate the Innovative Business Models from Students, Map Existing Business Models, Design New Business Models and Manage a Portfolio of Business Models.

Topics covered: The following topics were discussed in this workshop

- Existing Business Models
- Innovative Business Models
- Design New Business Models
- Manage a Portfolio of Business Models

Program outcome: Business models are important for both new and established businesses. They help new; developing companies attract investment, recruit talent, and motivate management and staff. Established businesses should regularly update their business plans or they'll fail to anticipate trends and challenges ahead. Business plans help investors evaluate companies that interest them.

Program report

Program Name: Use of Market Data and Application of Marketing Research tools and Methodology- Advance level

Date/Duration: 20-05-2020 / 03:00 pm to 04:15 pm

Name of the Resource person: Dr. Preet Deep Singh, AVP, Invest India

Number of participants: 70

Program Theme: IIC Online Session

Program Objective: To have an informative talk with Dr. Preet Deep Singh regarding the use of market data and application of marketing research tools.

Benefits in terms of learning/skill/knowledge obtained: The talk session regarding the use of market data and application of marketing research tools and methodology. The talk was to gain knowledge about the various ways in which marketing data can be used by startups and the going business hubs and also about the methodology regarding the same.

Overall report of the activity:

The IIC Online Session with Dr. Preet Deep Singh was held on 20th May 2020 from 3 pm in the afternoon was very informative and important for not only students but for the startups as well. As we know that Dr. Preet Sing Deep has very good knowledge regarding the marketing data and marketing research methodology.

As we know that marketing is the most important component for any business and is the continuous process throughout the life span of any business. Use of marketing data is not only done by researchers but the start-ups as well to understand their product and market segment for the same. Dr. Preet Deep Singh gave insight knowledge about the segments in which the market can be divided to target the right audience for the business product and to adopt the strategy regarding the same accordingly. The Drake's equation was also explained by DR. Preet regarding the applicability of the same in the positioning of the target for the startups. After targeting the audience for any business it is important to know about the price of the product and which should be done very carefully. Regarding the price Dr. Preet told us about the

different segments, utility, convenience, durability of the product. Only after analysing this data about the product the marketing strategy should be planned and the future course of the product. The very important aspect to remember all this while to understand the market is the percentage of the salary or income the customer is willing up to give away for the product. The one example of the various steps taken business firms or should be taken care of were discussed with the example of baby stroller and various strategy regarding it were discussed by Dr. Preet to give the better understanding regarding the segmentation and making it more understandable for the students.

The next important aspect discussed by Dr. Preet was regarding the population while taking care of the price and the market. To know the population it is very important to know, how to target the correct population ad from where all these can be gathered. To know the right population for the study and the research there are various data which can be used for same like census, income tax department, etc.

Dr. Preet also talked about the various analysis tools which are available to use such data and make some conclusions about it, which can further help us for the development of the product and how it make more profitable. Some of the tools talked about are SPSS, Python, Tableu, Google Analytics, Data Website, Site Profiler, Survey Monkey, Mail Chimp. All these are the tools which can be used to summarise the whole data and make analysis out of it.

In the end Dr. Preet also talked about the various sources and availability of these various tools and technology which can help to make best use of the data and help in the research and analysis of marketing data not only for students but for start-ups as well.

Program report

Program Name: Interaction with Student Innovators and Entrepreneurs from Smart India Hackathon (SIH)

Date/Duration: 22-05-2020 / 03:00 pm to 04:00 pm

Name of the Resource person:

1. Pulkit Jain - Team Vidyut
2. Arpit Nandi - Team Quarks & Leptons
3. Lokesh Goswami - Team SLICK

Number of participants: 70

Program Objectives: -

• To understand idea and its accumulation

• To understand importance of team work

• Awareness about SIH

Outcomes/Benefits: -

• Learn about hackathon idea

• How to frame idea and fabricate into concept

• Students understand different innovative ideas and their journey to transform into business plan

• They also understand importance of team and team work

The live-session on YouTube took place on May 22, 2020 at 3:00 pm - 4:00 pm which was attended by IIC faculty and students. All the key speakers were the winners of Smart India Hackathon. They shared their experience, journey and achievements of SIH and motivated the attendees to actively participate in such hackathons and go to incubation centres.

Pulkit Jain, winner of SIH, had participated in the Hardware Edition. The team made "Retrofitting Kits" for existing vehicles to convert them into electric vehicles. Their present focus are auto rickshaws. Throughout the journey they learnt "If you are persistent enough, there is always a way out." He focuses more on "Get out of your comfort zone and keep

reinventing because the best way to do something is to do it yourself and the more you fail, more you learn."

Arpit Nandi, winner of SIH, had participated in Software Edition. The team developed IOT based Air Pollution Monitoring & Surveillance System. He mentioned key points to be kept in mind when working on a project like selecting right team members, breaking down problem statements into smaller pieces and working on one at a time, surveying the market to find the solution in the benefit of the larger community and much more. He emphasizes the use of open-source software's.

Lokesh Goswami, winner of SIH, had participated in Hardware Edition. The team developed SLICK - technology to make eco-friendly bricks made of plastic and industrial waste. He gave the way to convert your innovation to your business start-up in just 3 points. First, identify the idea. Second, find out the technical solution and third, identify your paying customer. He quoted "Great things in Business are never done by person, they are done by the team because Teamwork makes the Dream work."

The overall session was inspiring and provided us with great knowledge to follow our dreams. You must keep expanding your network, you will receive more knowledge and your innovation will be getting better and better.

Name of the Resource person: DR.RAMAN GUJRAL, Professor, EDII, Ahmedabad, Gujarat.

Number of participants: 70

The topic revolves around frugal innovations and social entrepreneurship. He started the session by telling us that whatever we do must be innovative to fulfill the unmet needs of human. He gave us the idea factors to innovation which are

- Need spotting
- Solution Spotting
- Market Research
- Trend following

After which he told us about product innovation, service innovation and the risks associated with Innovation. Later he gave us the analysis of the existing entrepreneurs. Then he took us to the core of today's topic the FRUGAL ENGINEERING and JUGAAD and gave us clear differentiation between the two.

At this time he invited Dr.Saji Varghese to talk about his innovations and how his innovations have been created into a product. Dr.Saji Varghese had created a new product which is a straw made from dried fallen coconut leaves. This straw remains as a degradable one and has a shelf life of 9 months. He wrapped up the session by telling that there are different types of social enterprises which work at the intersection of business, nonprofit, and government, social entrepreneurs/innovators blend models and create mission-driven ventures to effect positive social change.

Number of participants: 168

Strong and Enforced Intellectual Property Rights Protect Consumers and Families. Enforced IP rights ensure products are authentic, and of the high quality that consumers recognize and expect. IP rights foster the confidence and ease of mind that consumers demand and markets rely on

In this E-exercise, attempts have been made to understand the concept of Intellectual Property Rights in the Customs and Excise Department. It is expected that it will help the new entrants into the service. Though all efforts have been made to make this exercise error-free, but it is possible that some errors might have crept into the same.

It is very happy to inform that overall 168 students are getting secured more than 60% marks in an online Quiz.

Program Report

Program Name: National Education Policy with A Focus on Innovation and Entrepreneurship

Date/Duration: 13-11-2020 / 1:30 pm to 3:30 pm

Name of the Resource person:

1. Dr. M. Sreenivasa Kumar, Principal, Narasaraopeta Engineering College (Autonomous), Narasaraopeta. Ph: 9440757039, E-mail: principal@nrtec.in.

Number of participants: 100

Program objective:

The general aim and objectives of education in India is to cater to the all-round development of the individual. Further, it should foster the development of the child's latent potentiality. Education must not only enrich and develop the individual but must help him to become a useful and productive member of society. The vision of the National Education Policy is: National Education Policy 2020 envisions an India-centric education system that contributes directly to transforming our nation sustainably into an equitable and vibrant knowledge society by providing high-quality education to all.

Topics covered: 1) India-centric education system

2) Transforming our nation sustainably

3) vibrant knowledge society by providing high-quality education to all

Program outcome:

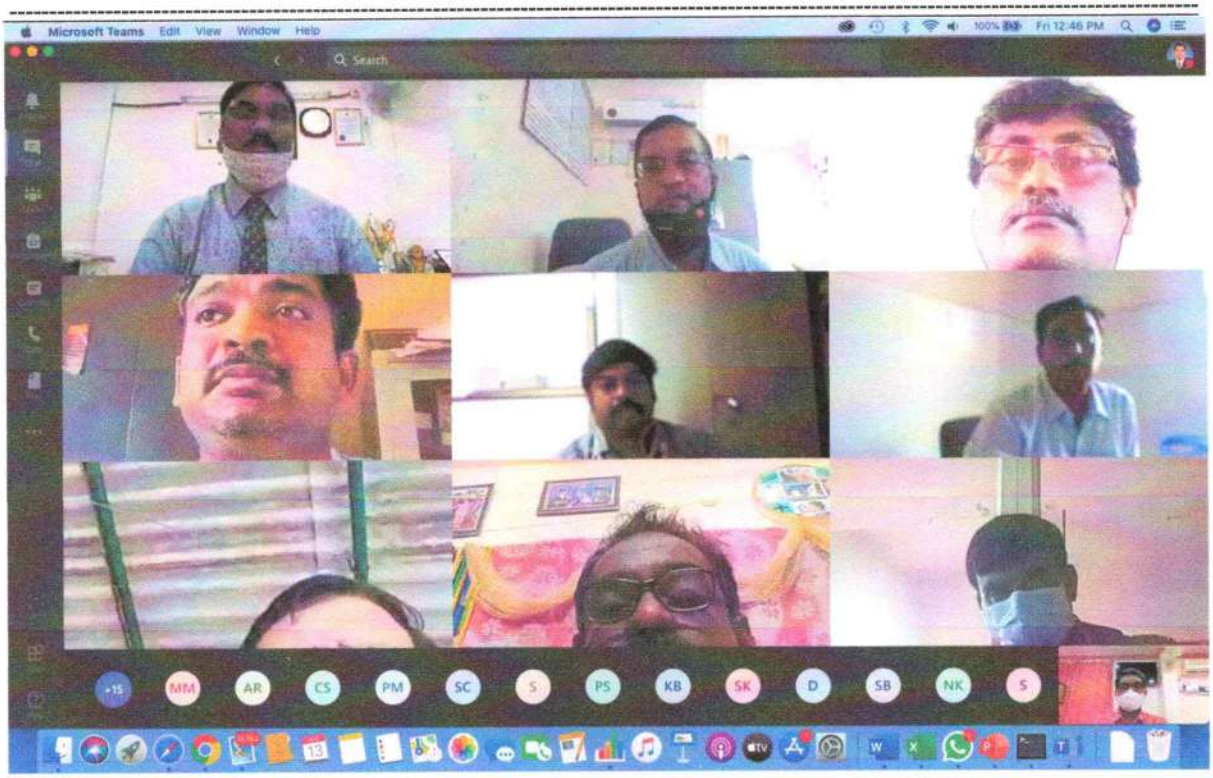

- Educational outcomes are the criteria used to select materials, outline content, develop instructional procedures, and prepare tests and examinations. Educational outcomes must be learner rather than educator based.

Program Report

Date: 10/01/2021

Program Name: Entrepreneurship and Innovation as Career Opportunity

Date/Duration:08-01-2021 / 11:30 am to 1:30 pm

Name of the Resource person:

1. Dr. S.V.N. Srinivasu,
   Innovation Ambassador,
   Professor of CSE,
   Narasaraopeta Engineering College,
   Ph: 9849866902
   E mail: drsvnsrinivasu@nrtec.email

Number of participants: Students 100 & Teaching staff 10

Program objective:
Career Entrepreneurship (CE) is the process of designing, launching and transitioning to the next steps in your career as if it is a business venture. ... In the current world of work career management is a necessary skill for all workers. There is a strong link between managing a career and skills for entrepreneurship.
Innovation: Innovation is creating something new; it always doesn't create a business opportunity. Entrepreneurship: Entrepreneurship identifies the opportunities in great innovations and creates opportunity, add values and keep the value improving over a period of time

Topics covered:
- Finance, Law
- Leadership
- Marketing / Planning
- Operations, and Strategy

Program outcome:
By studying entrepreneurship and innovation, you can learn the underlying principles of starting a business, avoid common pitfalls, pitch ideas more effectively, validate your product, develop a solid business model, and set yourself up for success in a field where failure is common

Successful Start-up founder (Entrepreneurs in Campus)

Report

Interactive Webinar on "Successful Start-up founder (Entrepreneurs in Campus)" was organized on 07-07-2021 under the banner of IQAC & IIC of the Narasaraopeta Engineering College, Narasaraopeta.

The speaker (Entrepreneur) for this program was Mr. K.Chiranjeevi, Managing Partner, INDIAN METAL WORKS, Addanki, Praksam District, and A.P. and around 130 students of different departments of Narasaraopeta Engineering College, Narasaraopet have participated in the program. Faculty members were also present during the online lecture. The entire program was conducted online through Microsoft teams.

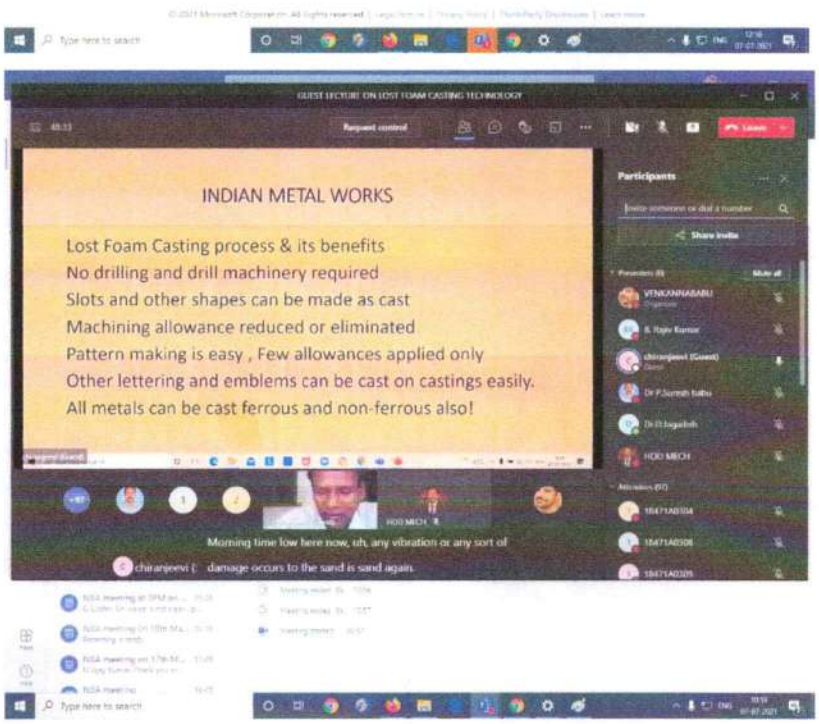

The session was very interactive on topics like role of entrepreneurship, experiences of the individuals with several start-ups. Later the topics covered how to execute the start-up and finishing the desired task when the goal is set.

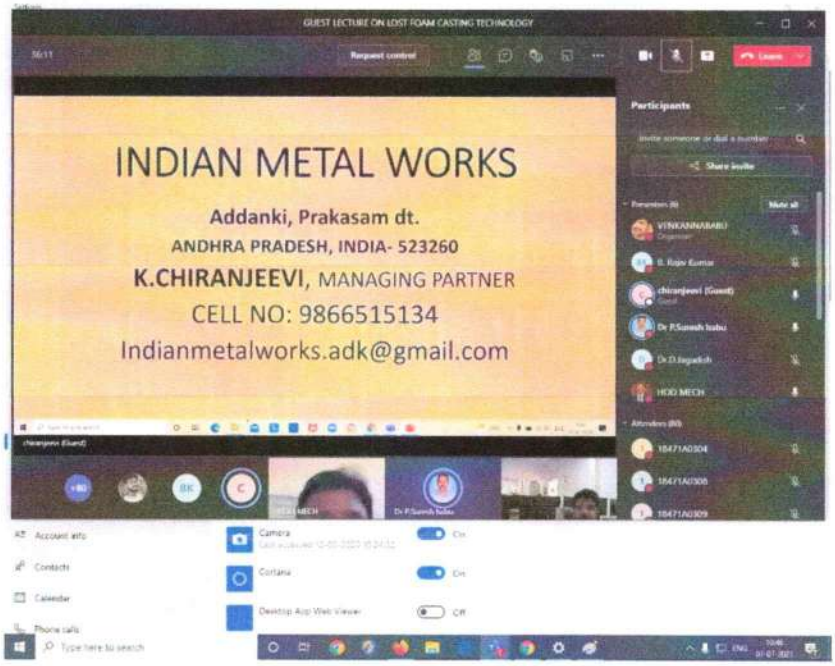

Lecture also covered how to manage the workforce with affective utilization of human resources and receiving effective mentorship. Some topics were also covered on Estimation of risk which is an important skill to become a successful entrepreneur. The experience of the resource person in managing the firm has been shared with students.

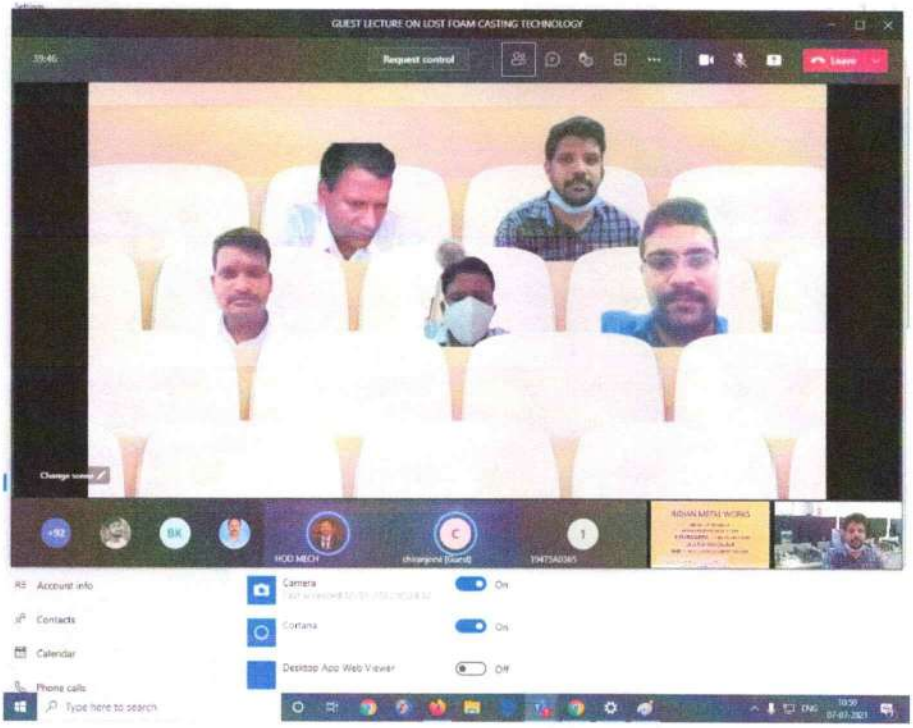

Overall the session was very attractive with glimpse on entrepreneur skills and start-up motivation to students along with some technical and managerial aspects of the metal industry organized by resource person.

"A start-up needs people who will take ownership & responsibility to get things done"

Program Report

Program Name: Robotics as an educational tool for emerging technology

Date/Duration: 19th Jul 2021 / 9.30 am to 11.00 pm

Name of the Resource person: Dr. Kalli Charan Rath, Associate Professor, GIET University, Gunupur, Odisha.

Number of participants: 167

Program objective: Educational robotics is an effective learning tool for project-based learning where STEM, coding, computer thinking and engineering skills are all integrated in one project. Robotics provides opportunities for students to explore how technology works in real life, all with one tool through the act of making.

Program outcome: The outcome of this program is to robotics is a unique educational tool for many reasons including its ability to inspire students and motivate them to be creative.

Program Report

Program Name: Role of 3D Printing in Future Manufacturing and its Research Scope

Date/Duration: 19th Aug 2021 / 11.00 am to 12.00 pm

Name of the Resource person: Dr. Gunji Bala Murali, Senior Assistant Professor, VIT University, Vellore.

Number of participants: 133

Program objective: The main objective of this program is to impart greater awareness about the Additive Manufacturing Process and Artificial Intelligence

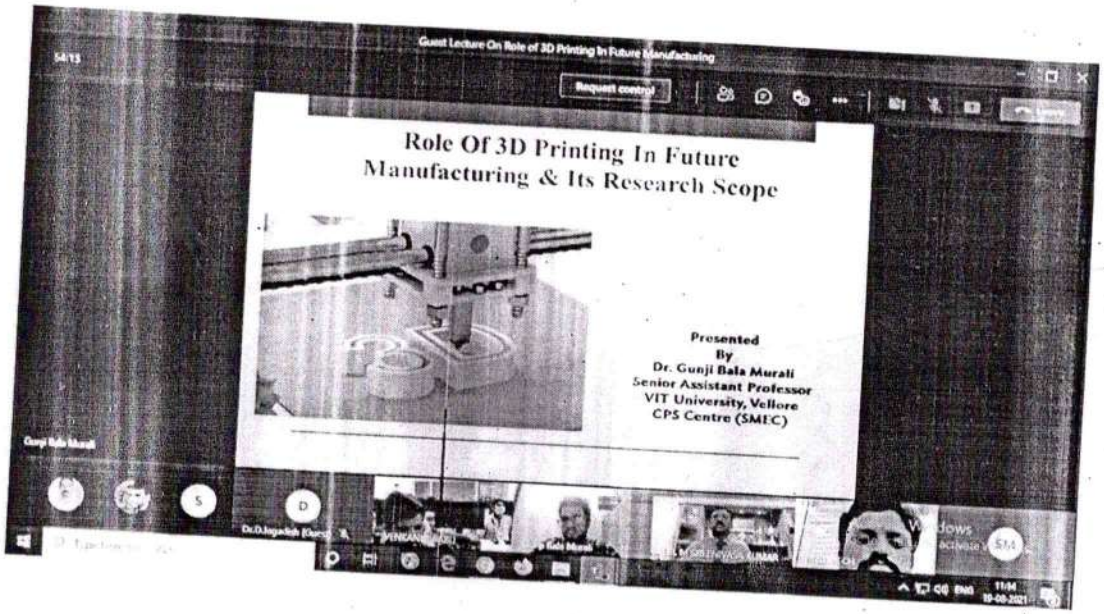

Topics covered:

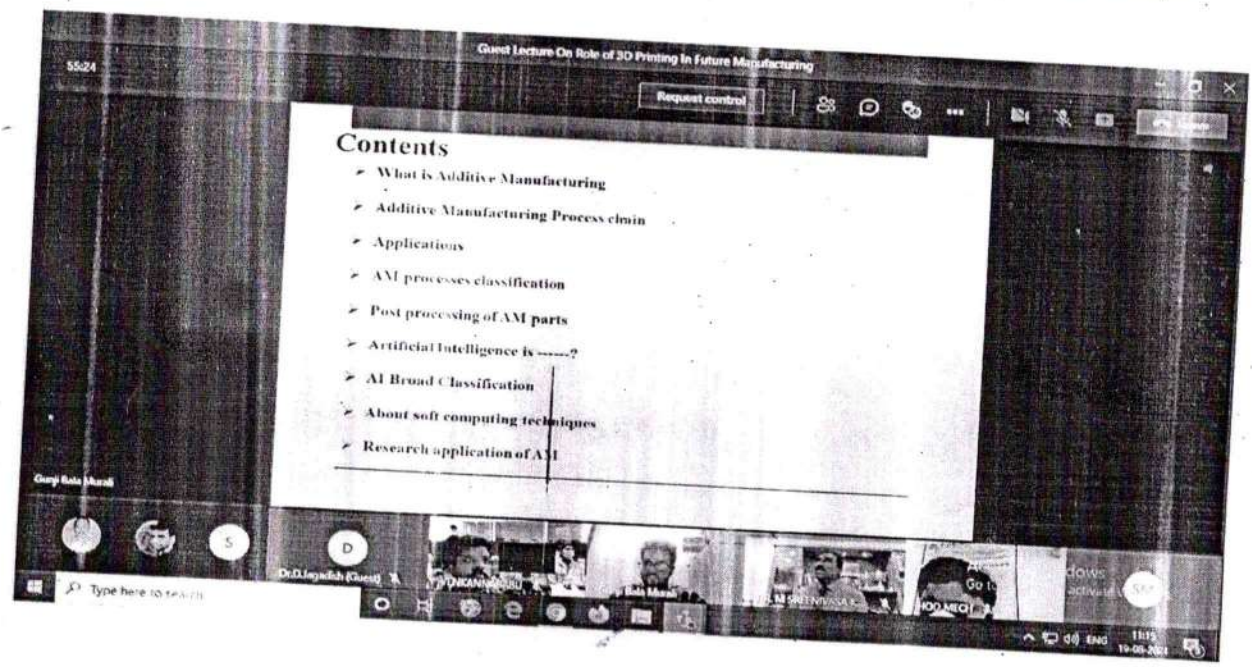

- Additive Manufacturing Process
- Additive Manufacturing Process chain
- Applications
- AM Processes classification
- Post processing of AM parts
- Artificial Intelligence

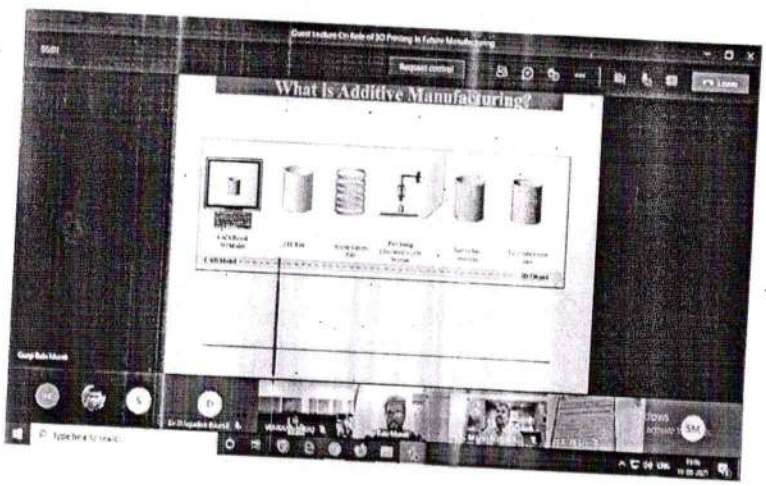

Program outcome: The outcome of this program is 3D printing, or additive manufacturing, has the potential to democratize the production of goods, from food to medical supplies, to great coral reefs. In the future, 3D printing machines could make their way into homes, businesses, disaster sites, and even outer space.

Online Webinar on How to plan for start- up, Legal & Ethical steps
On 25th August 2021
Resource Person: Dr M.Sreenivasa Kumar, Principal & IIC President, Narasaraopeta Engineering College
& Innovation Ambassador

The Objective of this webinar is to motivate the students and Faculty members to convert their innovation ides into the Start-Ups. A plan for to start a startup with legal and ethical way. In this programme 140+ students and faculty of other and our college are joined through online with Microsoft teams. We received the good feedback from the participants about this webinar. I hope all are gained knowledge in this plan for to convert innovation ideas into start-ups.

Program Report

Program Name: WEBINER ON: IPR &IT'S ROLE IN RESEARCH AND IN INNOVATION

Date/Duration: 24th Sep 2021 / 3.30 am to 5.00 pm

Name of the Resource person: Mr. Anna Eswara Kumar, Patent Analyst, IIT Hyderabad.

Number of participants: 86

Program objective: The main objective of this program is to learn about the application of patents and outcomes of the patents.

Topics covered:

- What is intellectual property and IP offices
- Types of intellectual Property Rights
- How to known inventions patentable or not (Patentability Criteria)
- Inventions which are not patentable
- Ips Involvement to protect total invention
- Prosecution time period for parents and fast track grant
- Mistakes done by researchers/Academicians
- Role of IP in innovative startups

Intellectual Property: Types

- Patents
- Designs
- Trademarks
- Copyrights
- Geographical Indications
- Trade secrets
- Layout of Integrated Circuits
- Plant Varieties/Plant patent

Program outcome: The program went on well with learning about the application of patents and outcomes of the patents. The key learning was how to apply for patent involving procedures at patent office and also online follow-up. And faculty has got better insight on how to convert ideas into patents. Mr. Eswar has given better insight into the conversion of academic research work into patents. He also clearly explained the types of the patents and the loyalty to be received based on the type of invention. He also explained about the laws of copyrighting and loyalty corresponding to copy right law. The discussion went on well with how to document for a patent and the expenditure need to be spent for patenting. He has given few examples of patenting providing insight into national laws and also international laws. He clearly explained about intellectual property rights. This program has motivated all the teaching staff as well as other participants from industry towards applying for patents.
