Abstract:

Websites like Netflix and HBO Go, provide lists of movies based on genres, this makes it easier for user to select the movie that interests them. Tagging of movies is a complex process and usually involves a manual process where the movies are assigned to one or more Genres based on the suggestions sent by the users and consumers. Our task is to automate this process by building a model that can predict the genre of a movie using just the plot details (available in text form) using Natural Language Processing (NLP).

A One Week Faculty Development Programme (FDP) on Amazon Web Services (AWS)

in association with
COMPUTER SOCIETY OF INDIA (CSI) & INDIAN SOCIETY FOR TECHNICAL EDUCATION (ISTE)

INVITATION

Date: 19/05/2023.

To
The Director / Principal,
Dear Sir/Madam,

It gives us an immense pleasure to inform you that the department of Computer Science and Engineering of our college is organizing a one week Faculty Development Programme on "Amazon Web Services (AWS)" during 19-23 June, 2023 in association with CSI and ISTE. The resource persons of this FDP are rich in experience in the field from the industry. It is purely an offline programme. Participants will experience the practical exposure also on the topics taught.

FDP on AWS provides an excellent opportunity for faculty and researchers to learn new ideas in the field of AWS and Cloud. The main objective of the FDP is to enhance the teaching and research capabilities of the faculty which in turn helps them in selecting the students members to participate in this FDP. We deem it honor of our faculty members would join us to good number to this program. We request you to kindly give wide publicity by circulating the brochure enclosed among the faculty members of your college and encourage them to take part in this program.

We are looking forward for your cooperation and active participation of your faculty members.

ALUMINI VOICE:

During my time in college, I developed a strong foundation in computer science and honed my technical skills, which have been instrumental in my success in the IT industry. I had the opportunity to collaborate with brilliant minds and professors who inspired me to think creatively and solve complex problems, experiences that have positively shaped my approach to work in the IT field. In college, I actively participated in various tech-related clubs and workshops, which allowed me to stay updated with the latest industry trends and technologies. College taught me the importance of continuous learning, and I carry that mindset with me as I constantly seek opportunities for professional growth in the IT field.

STUDENT VOICE:

Narasaraopeta Engineering College is one of the best college in this region. I feel it privileged to be a part of this institute. It is the best place for graduation. All the faculty here are highly educated and caring. Their knowledge helps us to achieve many things. There is a friendly environment and we can clarify our doubts at any time. Code mind platform is provide to improve the coding skills. ByteXL training is provided for enhancing the aptitude. High quality and digital education is provided. Practical learning is preferred rather than theoretical learning so that we can learn the topic easily. Training programs and workshops are conducted frequently to increase our knowledge. Various Hackthons, coding competitions are conducted which helps us to enhance our skill and build competitive spirit.
