NARASARAOPETA ENGINEERING COLLEGE: NARASARAOPET  
(AUTONOMOUS)

DEPARTMENT OF CIVIL ENGINEERING

BONAFIDE CERTIFICATE

*This is to certify that the project work entitled*  
**PARTIAL REPLACEMENT OF COARSE AGGREGATE BY WASTE  
CERAMIC TILES IN CONCRETE**

Submitted by

Ms. J. INDIRA	19471A0123
Mr. K. KARUNA KUMAR	19471A0132
Mr. A. SRIDEVI VARA PRASAD	19471A0106
Mr. MD. TANVEER	19471A0137
Mr. P. PRAVEEN	19471A0140

In the partial fulfilment of requirements for the award of the degree of Bachelor of technology in "Civil Engineering" of the NARASARAOPETA ENGINEERING COLLEGE (Autonomous), NARASARAOPET, during the year 2022-2023.

  
Project Guide 24/3/23

Mr. K. ANIL KUMAR., M.Tech., (Ph.D)  
ASSISTANT PROFESSOR

  
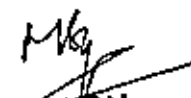

Head of the Department

Dr. P. NAGA SOWJANYA, M.Tech., Ph.D.  
HEAD OF THE DEPARTMENT  
ASSOCIATE PROFESSOR  
NARASARAOPETA ENGINEERING COLLEGE  
NARASARAOPET - 522 601.

NARASARAOPETA ENGINEERING COLLEGE  
(AUTONOMOUS)

DEPARTMENT OF CIVIL ENGINEERING  
BONA FIDE CERTIFICATE

This is to certify that the project work entitled  
**ADDITION OF BASALT FIBER IN CONCRETE WITH  
PARTIAL REPLACEMENT OF FINE AGGREGATE BY  
FOUNDRY SAND**

Submitted By

N. AKHIL KRISHNA	19471A0139
K. MASTHAN RAO	19471A0127
P. VENKATA NAGA NARASIMHARAO	19471A0145
P. HIMA KIRAN MAHESH BABU	19471A0146
A. BHARATHI KUMAR	19471A0102

In partial fulfillment of requirement for the award of the degree of Bachelor of technology in Civil Engineering of the NARASARAOPETA ENGINEERING COLLEGE, NARASARAOPET, during the year 2022-2023.

  
Project Guide

M.M. SIVA NAGA MANI, M.Tech.  
ASSISTANT PROFESSOR

  
Head of the department

## GouseGoud Chukka

### Salesforce Developer Virtual Internship

During the 8 Weeks period of Virtual Internship (August-October 2022), GouseGoud Chukka has completed the following Salesforce Trailhead modules

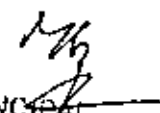

Trailhead modules completed:

- Introduction to Salesforce
- Getting Started with Salesforce
- Introduction to Salesforce CRM
- Introduction to Salesforce Marketing
- Introduction to Salesforce Service
- Introduction to Salesforce Commerce
- Introduction to Salesforce Analytics
- Introduction to Salesforce Integration

At the end of the internship, the student has successfully completed the following modules

**Andhra Pradesh State Skill Development Corporation (APSSDC)  
Indo-Euro Synchronization (IES)**

## *CERTIFICATE OF APPRECIATION*

This certificate is awarded to  
Mr./Ms. Kuricheti Maniteja  
of Narasaraopeta Engineering College  
for successfully completing the  
International Internship

In Advance certification on Emerging Technologies  
During August 29<sup>th</sup> - October 21<sup>st</sup> 2022

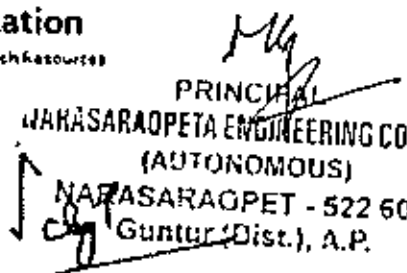

Learning Modules include Mechatronics and Robot Operating System (ROS) Programming by  
FH Aachen University, Germany, and Programmable Logic Controller (PLC) Modules from  
FESTO India.

Infyz

17<sup>th</sup> October 2022

**To Whom It May Concern**

This is to certify that Mrs. POPURI NIKHILA Bearing Hall Ticket number 20471A0444 is a student of NARASARAOPETA ENGINEERING COLLEGE Studying ELECTRONICS AND COMMUNICATION ENGINEERING has successfully completed her Full Stack Web Development internship for the period of two months starting from 4<sup>th</sup> August 2022, till 10<sup>th</sup> October 2022 at Infyz Solutions Private Limited, Hyderabad.

During the period of her internship program with us, she had been exposed to different processes and was found delightful, hardworking, and inquisitive.

We take this opportunity to thank her and wish her all the best in her future endeavors.

## VUYYURU LEELA KRISHNA

has successfully completed a 6-week online training on Machine Learning. The training consisted of Introduction to Machine Learning, Data, Introduction to Python, Data Exploration and Pre-processing, Linear Regression, Introduction to Dimensionality Reduction, Logistic Regression, Decision Tree, Ensemble Models, and Clustering (Unsupervised Learning) modules.

VUYYURU scored 95% marks in the final assessment and is a top performer in the training.

We wish VUYYURU all the best for future endeavours.

26.09.2022

To

The Superintendent Engineer,

Dam Maintenance Circle,

Srisaillam Dam East,

Kurnool District.

Dear Sir,

Sub: - Request to visit Srisaillam Dam- Reg

Narasaraopet Engineering College, Narasaraopet established in the year 1998. The college offers 10 UG courses (CIVIL, EEE, ME, ECE, CSE (AI, IT, CSM, CSC, CSD), PG courses M.Tech (DECS, DSCE, P&ID, -CSE, Thermal Engineering, Machine Design, Structural Engineering), MBA and MCA courses.

As a part of Academic study program, students are required to visit industries/Projects in order to get the practical knowledge.

3<sup>rd</sup> year Civil Engineering students of our college would like to visit Srisaillam Dam , consisting of 70 students and three faculty members would like to visit the plant on 30<sup>th</sup> September 2022. May we request you to kindly permit us to make it convenient to visit the Reservoir on the above mentioned requested date.

We request you to confirm and authorize the date of visit. We will abide by your rules and regulations.

Thanking you,

Yours faithfully,

Dr.M.Sreenivasa Kumar

Subject: Industrial Visit for II B.Tech II Sem EEE Students(Laterals) regarding.

Respected Sir,

We are planning to conduct Industrial Visit for our II B.Tech II Semester (Laterals) (71) EEE Students during 31-01-2023. It is useful to them to visit an industry Mittapalli Spinners Ltd., Kotappakonda Road, ChinaTurakapalem, Narasaraopet. So kindly permit us to take further action.

## ACKNOWLEDGEMENT

We convey our special thanks to our faculty **Mr.P.D.VS.K.KISHORE** who explained the function of equipment at **200 kWp ROOF TOP SOLAR POWER PLANT** Narasaraopeta Engineering college, Narasaraopet. We convey our special thanks to our Industrial visit coordinator **Dr. Sk. Md. Shareef** who cooperated us to make this visit successful.

We articulate our profound gratitude to **Dr. P. Lakshmanan**, Head of the Department of **Electrical and Electronics Engineering** for his indispensable encouragement to visit the industry.

We convey our special thanks to our honorable principal **Dr. M. Sreenivasa Kumar** for his immense motivation.

We sincerely thanks to our college management for providing **200 kWp ROOF TOP SOLAR POWER PLANT** at Narasaraopeta Engineering college, Narasaraopeta.

## CONTENTS:

1. Purpose to visit
2. General Information about 200kWp solar power plant
3. Observations
4. Conclusion

### 1. PURPOSE TO VISIT:

Our main purpose to visit is to know about the industrial environment and to get the practical knowledge of solar power generation. Students will get an idea of solar plant i.e. like solar modules, solar panels, inverters, batteries, bus bars, grid connection etc

### 2. GENERAL INFORMATION ABOUT 200 kWp ROOF TOP SOLAR POWER PLANT

It is located at Narasaraopeta Engineering college, Narasaraopeta, Andhra Pradesh, India. We visited solar power plant on 20-10-2022. We are guided by Mr.P.D.V.S.K.KISHORE. Under his guidance we observed the following points. Solar modules, Solar panels, Inverters, Maximum power point tracking, Circuit Breakers etc.

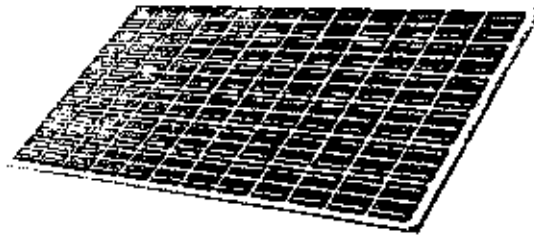

### 3. OBSERVATIONS:

#### 1. SOLAR MODULES

Solar PV modules are made by connecting together photovoltaic (PV) cells or solar cells. They are manufactured from semiconductor materials like crystalline silicon. Solar modules convert the light energy captured from the sun into electric energy. The electric energy so produced is used for lighting residential and commercial establishments. A single PV cell is usually manufactured in 12.5 cm and 15 cm square sizes and generates only 1 or 2 watts of power. Solar PV modules are used for boosting the power output of PV cells by connecting them. When PV cells (present in the solar modules) absorb sunlight, the energy present in the photons of light is transferred to the semiconductor material. The electrons are made to flow through the semiconductor material as electric current. Generally, each solar PV

module is rated in the range of 50 W to 350 W. These modules may or may not be linked to the electrical grid to complete the solar PV system.

A solar module typically consists of an assembly of 6x10 solar cells. The solar cells' efficiency and wattage output can vary depending on the type and quality of solar cells used. A solar module can range in energy production from 100-365 Watts of DC electricity. The higher wattage output, the more energy production per solar module. A solar array of modules consisting of higher energy-producing solar modules will, therefore, produce more electricity in less space than an array of lower producing modules. However, the cost is higher for greater producing modules.

## 2. SOLAR PANELS:

Photovoltaic (PV) is the term related to the conversion of light into electricity using semiconducting materials that exhibit the photovoltaic effect. A typical use of this technology is solar panels which comprise of solar cells that generate solar power. They can be installed on south-facing roofs, walls or on the ground, and can be fixed or have a solar tracker that follows the sun across the sky. The installation of solar panels is highly beneficial for both private and commercial users as the solar energy turned into electricity can be sold to the energy supplier. The feed-in tariff can reduce energy bills and cost of solar panel installation. The advantage of this type of energy source is that it is clean energy, so generates no pollution and no greenhouse gas emissions. It is however dependent on direct sunlight so around 10% to 25% is lost when a tracking system is not used.

## 3. CIRCUIT BREAKERS:

It is an automatically operated electrical switch design to protect an electrical circuit from damage caused by overload of electricity. Electricity or short circuit. A circuit breaker

function to detect a fault condition and by interrupting continuity, to immediately discontinue electrical flow.

#### 4. INVERTERS:

Waaree's off-grid inverters, also known as stand-alone inverters, are the ones that don't need to be hooked up to a solar panel. Instead, they draw the required DC power from batteries charged using PV arrays or other resources like engine generators, hydro turbines, and wind turbines. Since these inverters are isolated from their utility grids, they don't require any anti-islanding protection. Further, they can't export excess solar electricity back into the grid. Off-grid inverters are used in remote areas or when people want to live completely independently of the grid.

#### 5. MAXIMUM POWER POINT TRACKING

MPPT is a technique used with variable power sources to maximize energy extraction as conditions vary. The technique is most commonly used with photovoltaic (PV) solar systems, but can also be used with wind turbines, optical power transmission and thermo photo voltaics. PV solar systems have varying relationships to inverter systems, external grids, battery banks, and other electrical loads.<sup>[5]</sup> The central problem addressed by MPPT is that the efficiency of power transfer from the solar cell depends on the amount of available sunlight, shading, solar panel temperature and the load's electrical characteristics. As these conditions vary, the load characteristic (impedance) that gives the highest power transfer changes. The system is optimized when the load characteristic changes to keep power transfer at highest efficiency. This optimal load characteristic is called the *maximum power point* (MPP). MPPT is the process of adjusting the load characteristic as the conditions change. Circuits can be designed to present optimal loads to the photovoltaic cells and then convert the voltage, current, or frequency to suit other devices or systems. Solar cells' non-linear relationship between

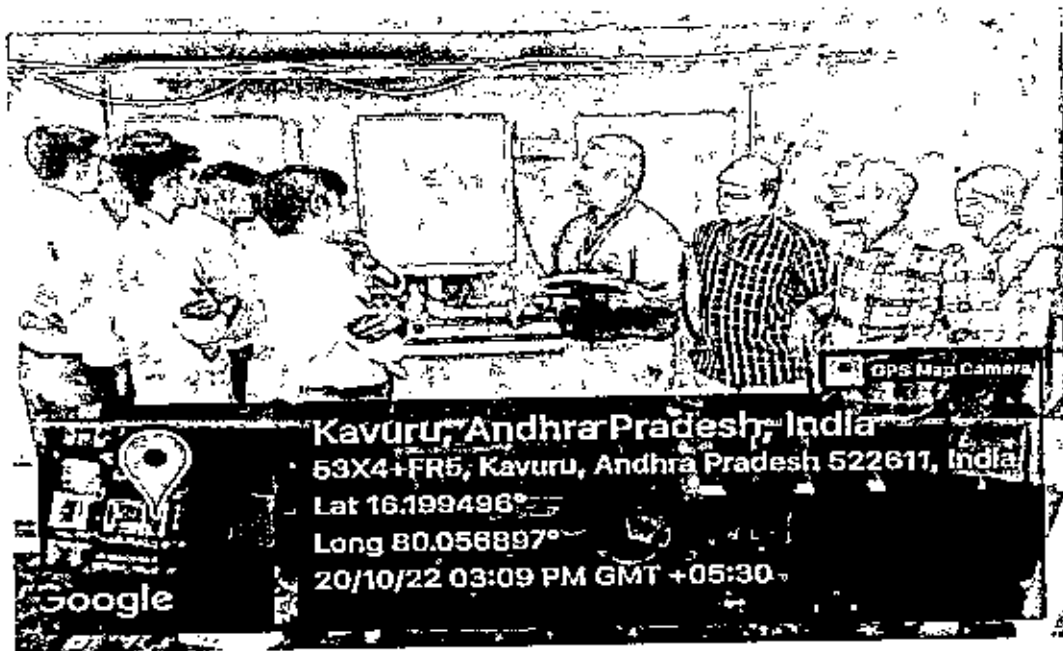

*M. V. S.*

Guntur (Dist.), A.P.

temperature and total resistance can be analyzed based on the Current-voltage (I-V) curve and the power-voltage (P-V) curves MPPT samples cell output and applies the proper resistance (load) to obtain maximum power. MPPT devices are typically integrated into an electric power converter system that provides voltage or current conversion, filtering, and regulation for driving various loads, including power grids, batteries, or motors. Solar inverters convert DC power to AC power and may incorporate MPPT.

#### 4. CONCLUSION :

After visiting this Solar Power Plant we came to know about Maximum power output 320W from each panel. Open circuit voltage is 45.30V maximum power voltage is 36.80V maximum power current is 8.70A and Angle of elevation is 16 degrees. The practical grid process of electrical energy and understood the function of various components in solar power plant their importance, arrangement and also the precautions taken for safety. This experience gave us a good exposure to the industry-tied branches of engineering. This visit was an exciting experience to us.

## ACKNOWLEDGEMENT

We convey our special thanks to our faculty **Mr.P.D.VS.K.KISHORE** who explained the function of equipment at **200 kWp ROOF TOP SOLAR POWER PLANT** Narasaraopeta Engineering college, Narasaraopet. We convey our special thanks to our Industrial visit coordinator **Dr. Sk. Md. Shareef** who cooperated us to make this visit successful.

We articulate our profound gratitude to **Dr. P. Lakshmanan**, Head of the Department of **Electrical and Electronics Engineering** for his indispensable encouragement to visit the industry.

We convey our special thanks to our honorable principal **Dr. M. Sreenivasa Kumar** for his immense motivation.

We sincerely thanks to our college management for providing **200 kWp ROOF TOP SOLAR POWER PLANT** at Narasaraopeta Engineering college, Narasaraopeta.

## CONTENTS:

1. Purpose to visit
2. General Information about 200kWp solar power plant
3. Observations
4. Conclusion

### 1. PURPOSE TO VISIT:

Our main purpose to visit is to know about the industrial environment and to get the practical knowledge of solar power generation. Students will get an idea of solar plant i.e. like solar modules, solar panels, inverters, batteries, bus bars, grid connection etc

### 2. GENERAL INFORMATION ABOUT 200 kWp ROOF TOP SOLAR POWER PLANT

It is located at Narasaraopeta Engineering college, Narasaraopeta, Andhra Pradesh, India. We visited solar power plant on 20-10-2022. We are guided by Mr.P.D.V.S.K.KISHORE. Under his guidance we observed the following points. Solar modules, Solar panels, Inverters, Maximum power point tracking, Circuit Breakers etc.

### 3. OBSERVATIONS:

#### 1. SOLAR MODULES

Solar PV modules are made by connecting together photovoltaic (PV) cells or solar cells. They are manufactured from semiconductor materials like crystalline silicon. Solar modules convert the light energy captured from the sun into electric energy. The electric energy so produced is used for lighting residential and commercial establishments. A single PV cell is usually manufactured in 12.5 cm and 15 cm square sizes and generates only 1 or 2 watts of power. Solar PV modules are used for boosting the power output of PV cells by connecting them. When PV cells (present in the solar modules) absorb sunlight, the energy present in the photons of light is transferred to the semiconductor material. The electrons are made to flow through the semiconductor material as electric current. Generally, each solar PV

PRINCIPAL

NARASARAOPETA ENGINEERING COLLEGE

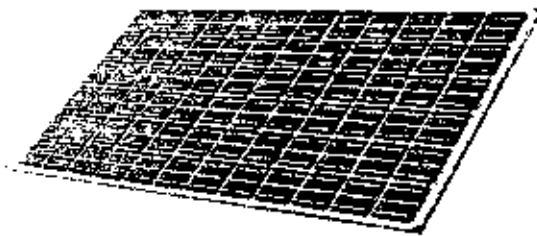

(AUTONOMOUS)

NARASARAOPET - 522 601

Guntur (Dist.), A.P.

module is rated in the range of 50 W to 350 W. These modules may or may not be linked to the electrical grid to complete the solar PV system.

A solar module typically consists of an assembly of 6x10 solar cells. The solar cells' efficiency and wattage output can vary depending on the type and quality of solar cells used. A solar module can range in energy production from 100-365 Watts of DC electricity. The higher wattage output, the more energy production per solar module. A solar array of modules consisting of higher energy-producing solar modules will, therefore, produce more electricity in less space than an array of lower producing modules. However, the cost is higher for greater producing modules.

## 2. SOLAR PANELS:

Photovoltaic (PV) is the term related to the conversion of light into electricity using semiconducting materials that exhibit the photovoltaic effect. A typical use of this technology is solar panels which comprise of solar cells that generate solar power. They can be installed on south-facing roofs, walls or on the ground, and can be fixed or have a solar tracker that follows the sun across the sky. The installation of solar panels is highly beneficial for both private and commercial users as the solar energy turned into electricity can be sold to the energy supplier. The feed-in tariff can reduce energy bills and cost of solar panel installation. The advantage of this type of energy source is that it is clean energy, so generates no pollution and no greenhouse gas emissions. It is however dependent on direct sunlight so around 10% to 25% is lost when a tracking system is not used.

## 3. CIRCUIT BREAKERS:

It is an automatically operated electrical switch design to protect an electrical circuit from damage caused by overload of electricity. Electricity or short circuit. A circuit breaker

function to detect a fault condition and by interrupting continuity, to immediately discontinue electrical flow.

#### 4. INVERTERS:

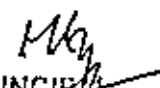

Waaree's off-grid inverters, also known as stand-alone inverters, are the ones that don't need to be hooked up to a solar panel. Instead, they draw the required DC power from batteries charged using PV arrays or other resources like engine generators, hydro turbines, and wind turbines. Since these inverters are isolated from their utility grids, they don't require any anti-islanding protection. Further, they can't export excess solar electricity back into the grid. Off-grid inverters are used in remote areas or when people want to live completely independently of the grid.

#### 5. MAXIMUM POWER POINT TRACKING

MPPT is a technique used with variable power sources to maximize energy extraction as conditions vary. The technique is most commonly used with photovoltaic (PV) solar systems, but can also be used with wind turbines, optical power transmission and thermo photo voltaics. PV solar systems have varying relationships to inverter systems, external grids, battery banks, and other electrical loads.<sup>[5]</sup> The central problem addressed by MPPT is that the efficiency of power transfer from the solar cell depends on the amount of available sunlight, shading, solar panel temperature and the load's electrical characteristics. As these conditions vary, the load characteristic (impedance) that gives the highest power transfer changes. The system is optimized when the load characteristic changes to keep power transfer at highest efficiency. This optimal load characteristic is called the *maximum power point* (MPP). MPPT is the process of adjusting the load characteristic as the conditions change. Circuits can be designed to present optimal loads to the photovoltaic cells and then convert the voltage, current, or frequency to suit other devices or systems. Solar cells' non-linear relationship between

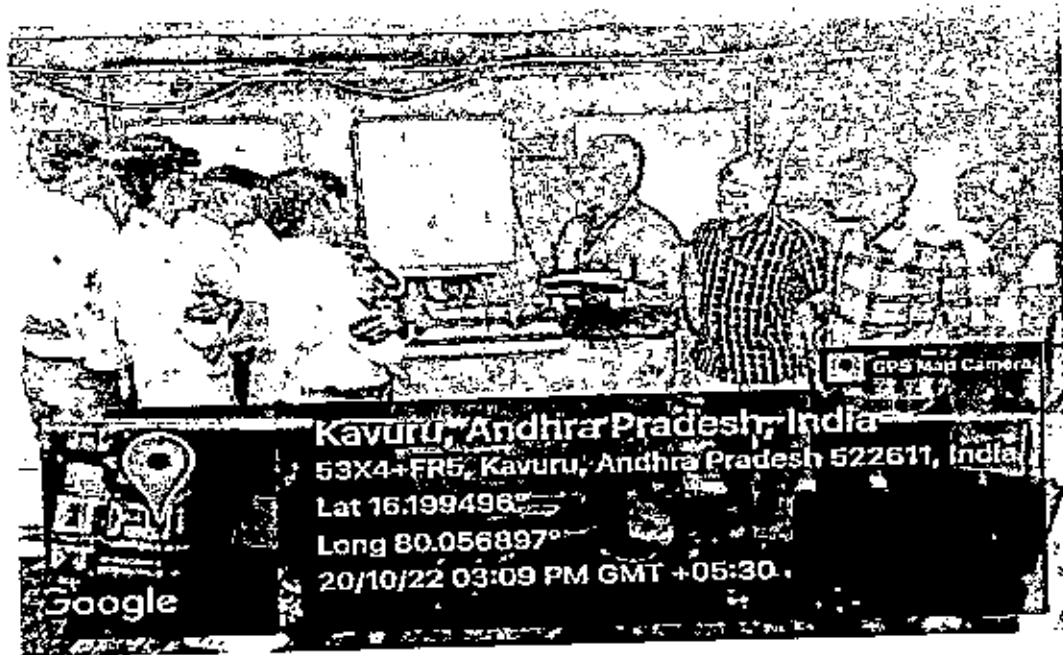

IQAC

NARASARAOPETA ENGINEERING COLLEGE  
(AUTONOMOUS)  
NARASARAOPETA - 522 601  
Guntur (Dist.), A.P.

temperature and total resistance can be analyzed based on the Current-voltage (I-V) curve and the power-voltage (P-V) curves MPPT samples cell output and applies the proper resistance (load) to obtain maximum power. MPPT devices are typically integrated into an electric power converter system that provides voltage or current conversion, filtering, and regulation for driving various loads, including power grids, batteries, or motors. Solar inverters convert DC power to AC power and may incorporate MPPT.

#### 4. CONCLUSION :

After visiting this Solar Power Plant we came to know about Maximum power output 320W from each panel. Open circuit voltage is 45.30V maximum power voltage is 36.80V maximum power current is 8.70A and Angle of elevation is 16 degrees. The practical grid process of electrical energy and understood the function of various components in solar power plant their importance, arrangement and also the precautions taken for safety. This experience gave us a good exposure to the industry-tied branches of engineering. This visit was an exciting experience to us.

## ACKNOWLEDGEMENT

We convey our special thanks to our faculty **Mr.P.D.VS.K.KISHORE** who explained the function of equipment at **200 kWp ROOF TOP SOLAR POWER PLANT** Narasaraopeta Engineering college, Narasaraopet. We convey our special thanks to our Industrial visit coordinator **Dr. Sk. Md. Shareef** who cooperated us to make this visit successful.

We articulate our profound gratitude to **Dr. P. Lakshmanan**, Head of the Department of **Electrical and Electronics Engineering** for his indispensable encouragement to visit the industry.

We convey our special thanks to our honorable principal **Dr. M. Sreenivasa Kumar** for his immense motivation.

We sincerely thanks to our college management for providing **200 kWp ROOF TOP SOLAR POWER PLANT** at Narasaraopeta Engineering college, Narasaraopeta.

## CONTENTS:

1. Purpose to visit
2. General Information about 200kWp solar power plant
3. Observations
4. Conclusion

### 1. PURPOSE TO VISIT:

Our main purpose to visit is to know about the industrial environment and to get the practical knowledge of solar power generation. Students will get an idea of solar plant i.e. like solar modules, solar panels, inverters, batteries, bus bars, grid connection etc

### 2. GENERAL INFORMATION ABOUT 200 kWp ROOF TOP SOLAR POWER PLANT

- It is located at Narasaraopeta Engineering college, Narasaraopet, Andhra Pradesh, India. We visited solar power plant on 20-10-2022. We are guided by Mr.P.D.V.S.K.KISHORE. Under his guidance we observed the following points. Solar modules, Solar panels, Inverters, Maximum power point tracking, Circuit Breakers etc.

### 3. OBSERVATIONS:

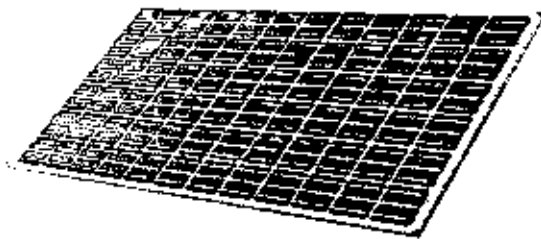

#### 1. SOLAR MODULES

Solar PV modules are made by connecting together photovoltaic (PV) cells or solar cells. They are manufactured from semiconductor materials like crystalline silicon. Solar modules convert the light energy captured from the sun into electric energy. The electric energy so produced is used for lighting residential and commercial establishments. A single PV cell is usually manufactured in 12.5 cm and 15 cm square sizes and generates only 1 or 2 watts of power. Solar PV modules are used for boosting the power output of PV cells by connecting them. When PV cells (present in the solar modules) absorb sunlight, the energy present in the photons of light is transferred to the semiconductor material. The electrons are made to flow through the semiconductor material as electric current. Generally, each solar PV

  
PRINCIPAL  
NARASARAOPETA ENGINEERING COLLEGE  
(AUTONOMOUS)  
NARASARAOPET - 522 601  
Guntur (Dist.), A.P.

module is rated in the range of 50 W to 350 W. These modules may or may not be linked to the electrical grid to complete the solar PV system.

A solar module typically consists of an assembly of 6x10 solar cells. The solar cells' efficiency and wattage output can vary depending on the type and quality of solar cells used. A solar module can range in energy production from 100-365 Watts of DC electricity. The higher wattage output, the more energy production per solar module. A solar array of modules consisting of higher energy-producing solar modules will, therefore, produce more electricity in less space than an array of lower producing modules. However, the cost is higher for greater producing modules.

## 2. SOLAR PANELS:

Photovoltaic (PV) is the term related to the conversion of light into electricity using semiconducting materials that exhibit the photovoltaic effect. A typical use of this technology is solar panels which comprise of solar cells that generate solar power. They can be installed on south-facing roofs, walls or on the ground, and can be fixed or have a solar tracker that follows the sun across the sky. The installation of solar panels is highly beneficial for both private and commercial users as the solar energy turned into electricity can be sold to the energy supplier. The feed-in tariff can reduce energy bills and cost of solar panel installation. The advantage of this type of energy source is that it is clean energy, so generates no pollution and no greenhouse gas emissions. It is however dependent on direct sunlight so around 10% to 25% is lost when a tracking system is not used.

## 3. CIRCUIT BREAKERS:

It is an automatically operated electrical switch design to protect an electrical circuit from damage caused by overload of electricity. Electricity or short circuit. A circuit breaker

function to detect a fault condition and by interrupting continuity, to immediately discontinue electrical flow.

#### 4. INVERTERS:

Waaree's off-grid inverters, also known as stand-alone inverters, are the ones that don't need to be hooked up to a solar panel. Instead, they draw the required DC power from batteries charged using PV arrays or other resources like engine generators, hydro turbines, and wind turbines. Since these inverters are isolated from their utility grids, they don't require any anti-islanding protection. Further, they can't export excess solar electricity back into the grid. Off-grid inverters are used in remote areas or when people want to live completely independently of the grid.

#### 5. MAXIMUM POWER POINT TRACKING

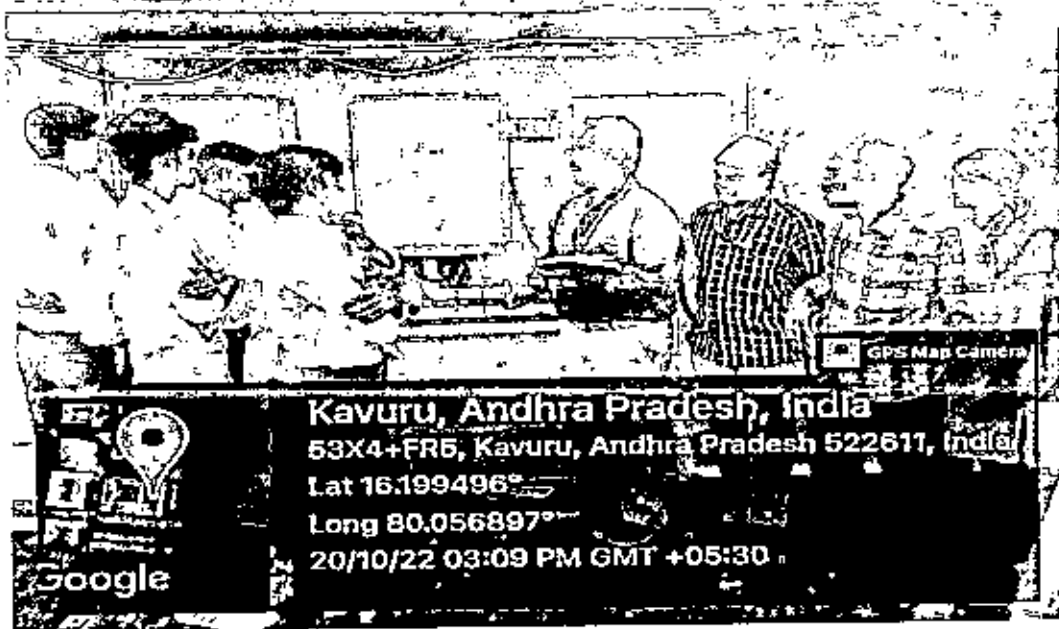

MPPT is a technique used with variable power sources to maximize energy extraction as conditions vary. The technique is most commonly used with photovoltaic (PV) solar systems, but can also be used with wind turbines, optical power transmission and thermo photo voltaics. PV solar systems have varying relationships to inverter systems, external grids, battery banks, and other electrical loads.<sup>[5]</sup> The central problem addressed by MPPT is that the efficiency of power transfer from the solar cell depends on the amount of available sunlight, shading, solar panel temperature and the load's electrical characteristics. As these conditions vary, the load characteristic (impedance) that gives the highest power transfer changes. The system is optimized when the load characteristic changes to keep power transfer at highest efficiency. This optimal load characteristic is called the *maximum power point* (MPP). MPPT is the process of adjusting the load characteristic as the conditions change. Circuits can be designed to present optimal loads to the photovoltaic cells and then convert the voltage, current, or frequency to suit other devices or systems. Solar cells' non-linear relationship between

Dear Sir,

Sub: Request to visit your Mittapalli Spinners Limited.

\*\*\*

Narasaraopeta Engineering College (Autonomous), Narasaraopet established in the year 1998. The college offers 10 UG courses (CIVIL, EEE, ME, ECE, CSE, CSE(AI), IT, CSE(AIML), CSE(CS), CSE(DS), PG Courses M.Tech (DECS, P&ID, CSE, TE, MD, SE), MBA and MCA courses.

As a part of Academics students are required to visit industries in order to get the practical knowledge and industrial exposure.

2<sup>nd</sup> year Electrical and Electronics Engineering students (Laterals) of 71 nos. along with Two Faculty members of our college would like to visit your esteemed industry Mittapalli Spinners Limited on 31<sup>st</sup> Jan.23. Hence we request you to permit the above visit and confirm the date of visit.

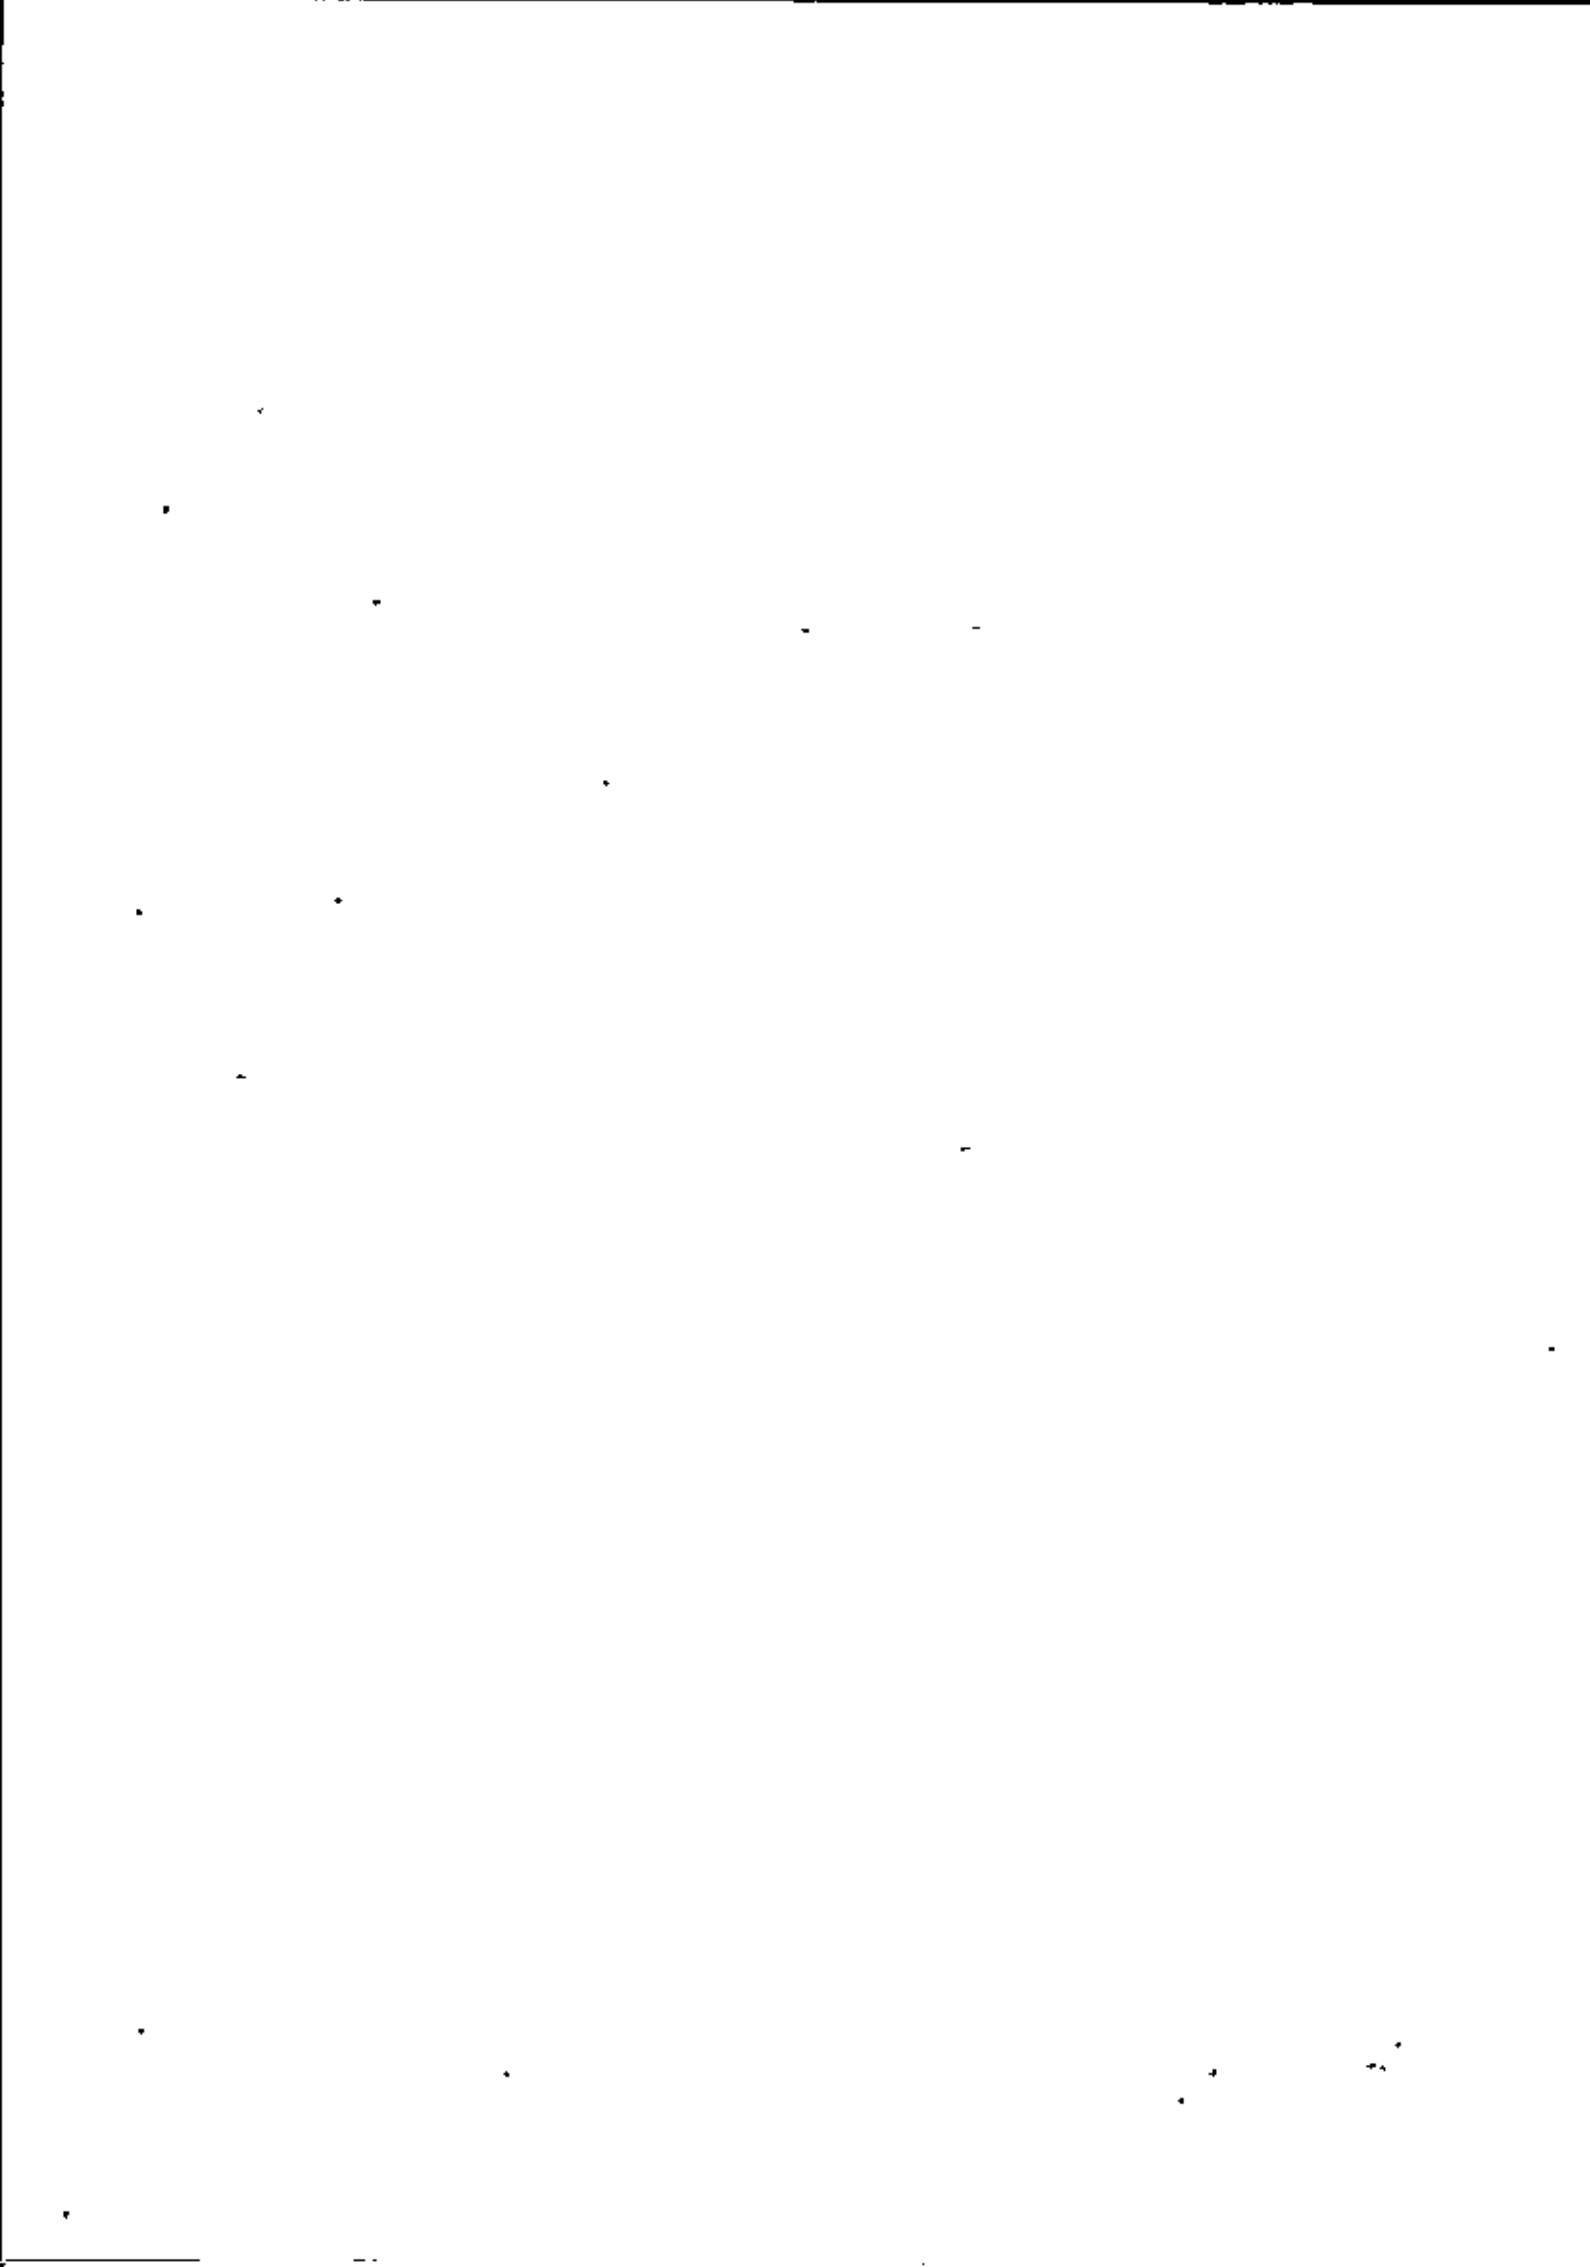

We request you to kindly grant permission. We will abide your rules and regulations.

Thanking you,

*M.S.K.*

- CONCLUSION

### ACKNOWLEDGEMENT:

We convey our special thanks to our faculty Mr.G.Nagaraju & Mr.Sk.Karimulla who accompanied with us and clarified our doubts and take care of us till the end of our visit.

We convey our special thanks to our Industrial visit coordinator Dr.Sk.Md.Shareef who cooperated us to make this visit successful.

We articulate our profound gratitude to Dr.P.Lakshmanan, Head of the Department of Electrical and Electronics Engineering for his indispensable encouragement to visit the industry.

We convey our special thanks to our honourable principal Dr.M.Sreenivasa Kumar for his immense motivation.

We sincerely thanks to our college management for providing bus facility to visit the Industry Power grid corporation.

## OBSERVATIONS:-

The present activities of the company involve process that go into producing the quality yarn. The best quality of raw cotton is processed in state-of-the-art machineries using the latest technical know-how to produce the finest quality yarn.

To produce quality yarn the following processes are done. They are:-

- |              |               |             |
|--------------|---------------|-------------|
| 1.Mixing     | 6.Comber      | 11.packing. |
| 2.Blow room  | 7.Fr.drawing  |             |
| 3.Carding    | 8.Simplex     |             |
| 4.Br.drawing | 9.spinning    |             |
| 5.Lap former | 10.Auto coner |             |

### 1.MIXER:-

To get an uniform end product consistently from highly variable characteristics of input fibres, mixing of different lots is done.

### 2.BLOW ROOM:-

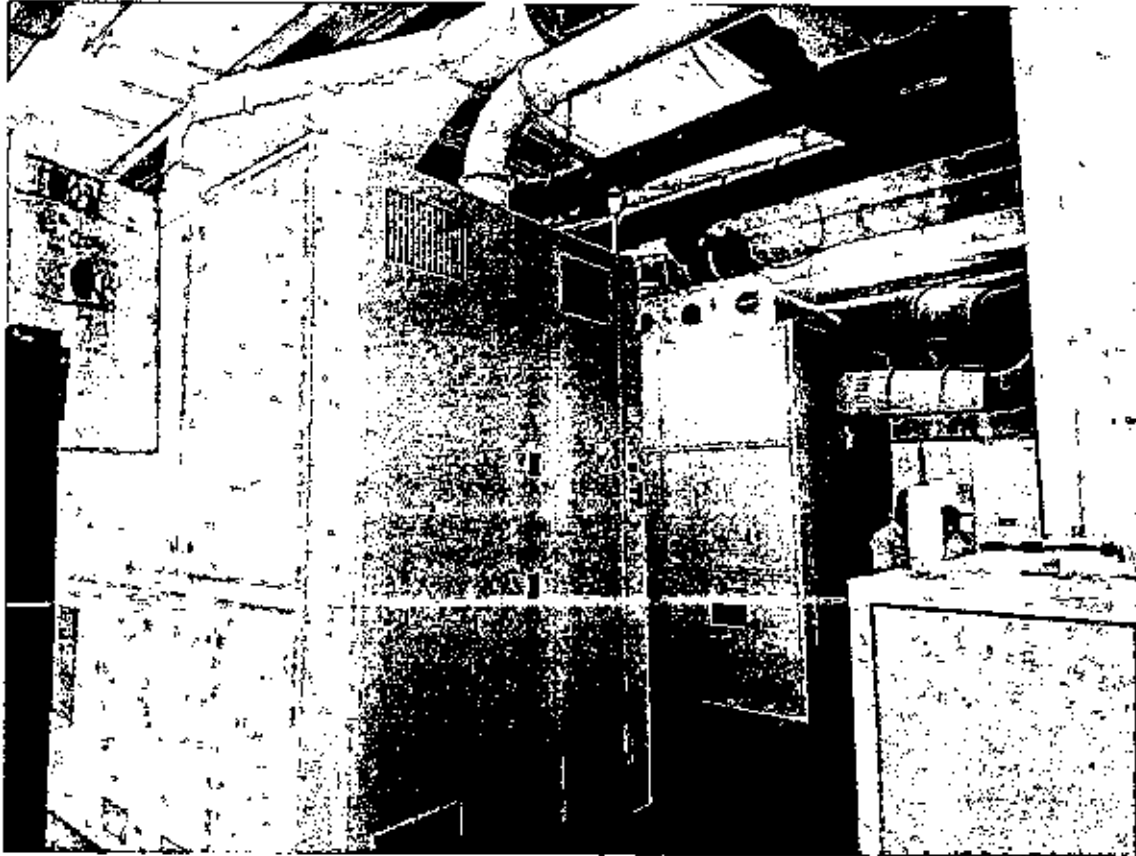

Blow room consists state of art machines that carry out Opening, Cleaning, thorough Mixing and decreasing the tuft size smaller and smaller, to feed material to Carding uniformly and continuously. Blow Room line is equipped with world class technology cotton contamination sorter like JOSSI.

PRINCIPAL  
NARASARAOPETA ENGINEERING COLLEGE  
(AUTONOMOUS)  
NARASARAOPETA - 522 601  
Guntur (Dist.), A.P.

### 3.CARDING:-

"Card is the heart of the spinning mill" and "Well carded is half spun" are two proverbs of the experts. The purpose of Carding is to open tufts to individual fibres, neps reduction, elimination of dust and orientation of fibres into sliver form. In Our Installation we are having a flexibility to run different processes.

### 4.DRAWING:-

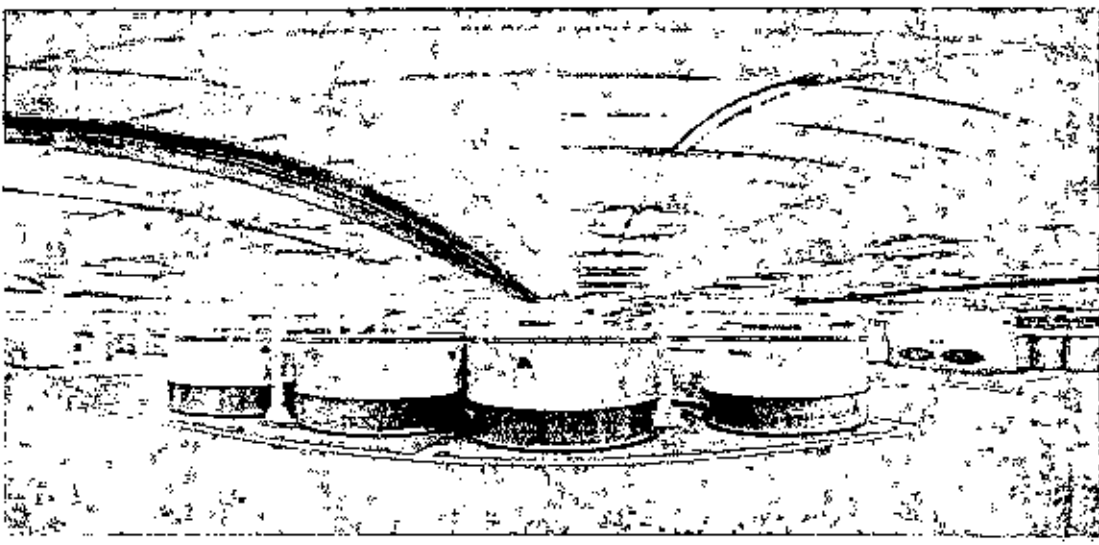

The object of draw frame is to double and draft the slivers and thereby make even sliver and parallelization of fibres i.e. hooks created at Carding are removed. Our Machines are equipped with 1000mm cans to avoid no.of joints which directly effects quality of final yarn.

### 5.LAP FORMER:-

The object of Lap Former is preparation of Lap from slivers with optimum parallelized fibres and feeding of trailing hooks from Carding as leading hooks at Comber to reduce long fibre loss in the noil.

6. COMBER:-

Combing is the process which is used to upgrade the raw material and to produce an improvement in yarn quality by elimination of short fibres, elimination of remaining impurities and elimination of neps

|                          | Date<br>Tue, 31 Jan 2023 |

7.Fr.DRAWING:-

The object of Fr. draw frame is to double and draft the slivers and thereby make even sliver, parallelization of fibres and auto leveling of linear density variations in feeding to get constant linear density of output sliver.

PRINCIPAL  
NARASARAOPETA ENGINEERING COLLEGE  
(AUTONOMOUS)  
NARASARAOPETA - 522 601  
Guntur (Dist.), A.P.

#### 8.SIMPLEX:-

The object of Simplex is to produce roving suitable to feed Ring frame by means of attenuation - drafting of sliver, twisting the drafted strand and winding the twisted roving on a bobbin. Our machinery is equipped with automatic tension controls to produce better quality of roving in order to get best quality of yarn.

9.SPINNING:-Functions of Ring frame are to draft the roving until the required fineness is achieved, to impart strength to the fiber, by inserting twist and to wind up the twisted strand (yarn) in a form suitable package;

Our Machinery is equipped with complete auto doffing and link system. By introducing this system. We are able to reduce material handling and avoid unwanted stain marks on yarn. With this auto doffing facility on our ring frames we are having more flexibility in producing wide range of counts.

10.AUTO CONER:-The object of Autoconer is to eliminate the faults and contamination in yarn and joining the ends with splice and winding of long and continuous yarn into conical shape to facilitate at further processes.

Ours is a latest art of technology's LINK CONERS equipped with AUTO DOFFERS. With the help of these machines we are totally avoiding manual material handling which will directly help us in maintaining best quality of yarn.

#### 11.PACKING:-

In Packing Section they check each and every Cone for visual defects and UV light inspection. With the help of this practice we are able to build the confidence of our valued customers for better in supply of better quality yarn. We can produce the package as per the customer requirement.

#### Conclusion:-

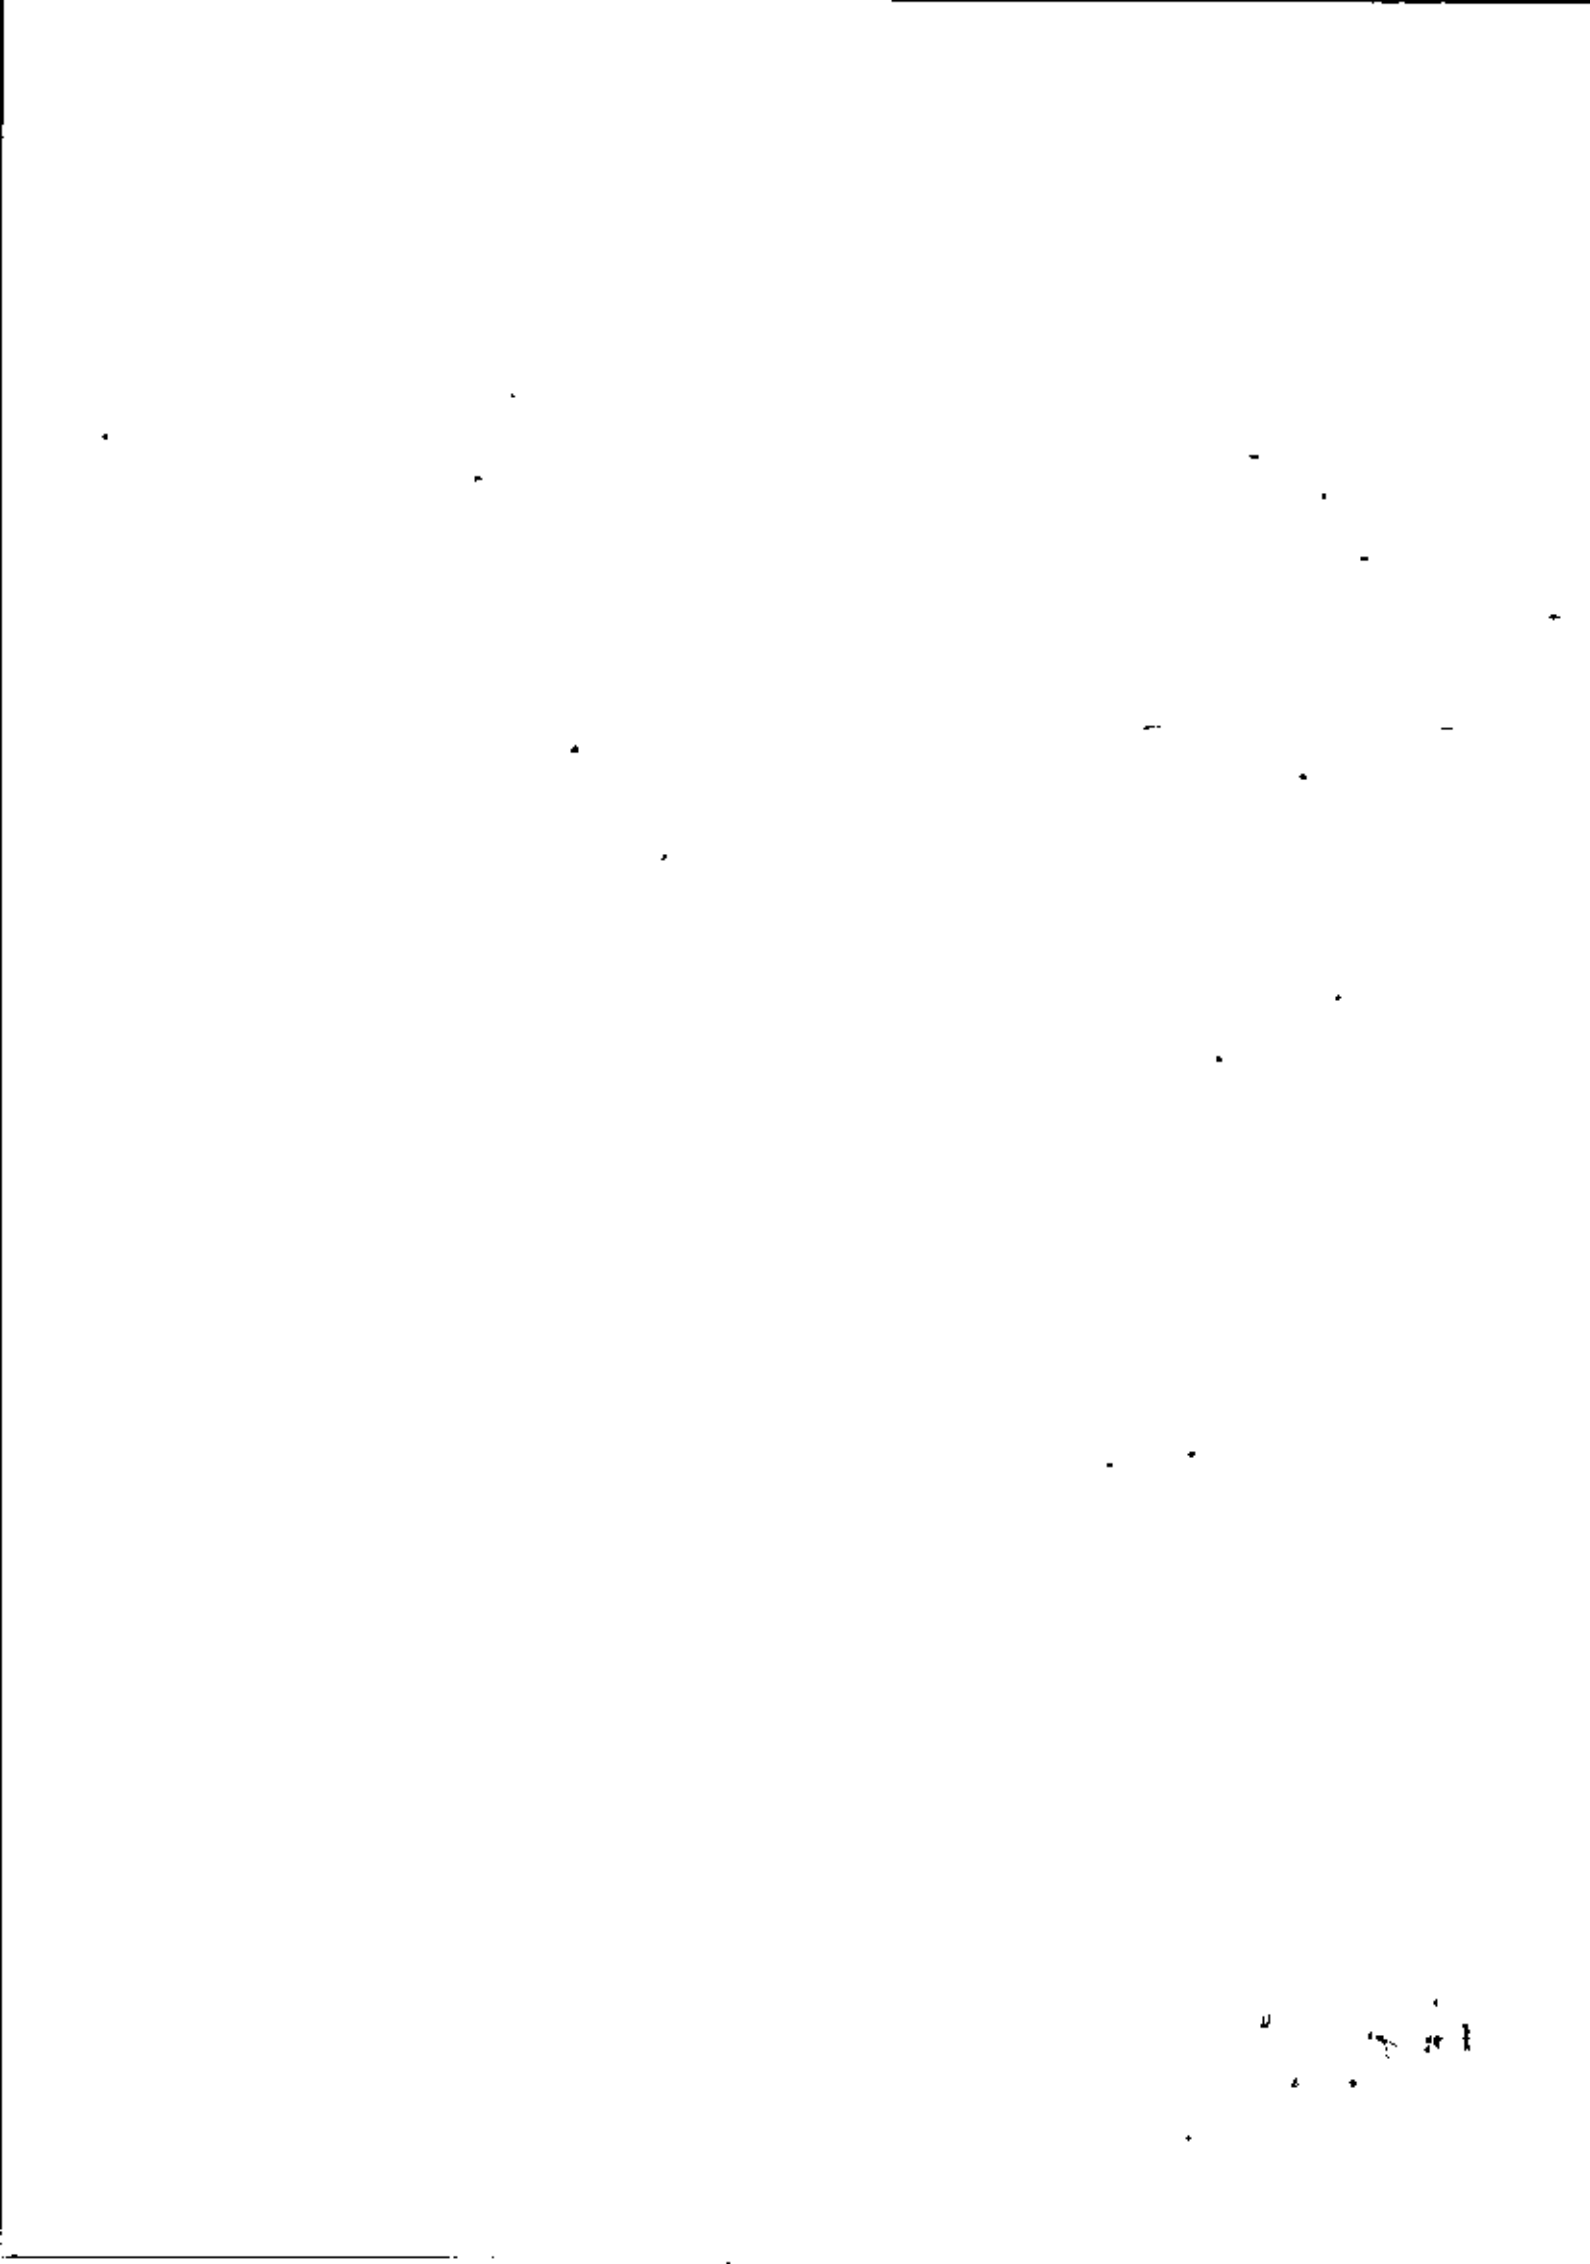

Through this industrial visit we understood about the preparation of yarn process practically at MITTAPALLI SPINNERS LIMITED. We are thankful to each and every one who helped us to complete the visit successfully.

Dear Sir,

Sub: Request to visit Mittapalli Spinners Limited - Reg.

Narasaraopeta Engineering College was established in the year 1998, approved by AICTE, permanently affiliated to JNTUK Kakinada, Accredited 'A+' Grade by NAAC and Accredited four times by NBA. NEC accorded 'AUTONOMOUS' status since 2016. NEC is ranked among top 300 engineering institutions in India rankings (NIRF 2022, 251-300 band) by Ministry of Education, Govt. of INDIA. NEC ranked as top 4th Private Engineering College in AP as per Times Engineering Institute Ranking Survey-2022. INDIA TODAY Ranked NEC as 178 among Private Engineering Colleges in INDIA. The college offers Seven M.Tech programmes, Two PG courses of MCA, MBA and Ten courses at B.Tech level in the branches EEE, CSE, CSE(AD), CSE(AI&ML), CSE (DS), CSE(Cyber Security), IT, ECE, ME and CIVIL.

As a part of Academics students are required to visit industries in order to get the practical knowledge and industrial exposure.

1<sup>st</sup> year EEE students of around 52 nos. of our college would like to visit your esteemed industry on 30.12.2022 along with two faculty members (P.Srinivasarao, Sk.Shareef)

We request you to be kind enough to grant the permission. We will abide by your rules and regulations.

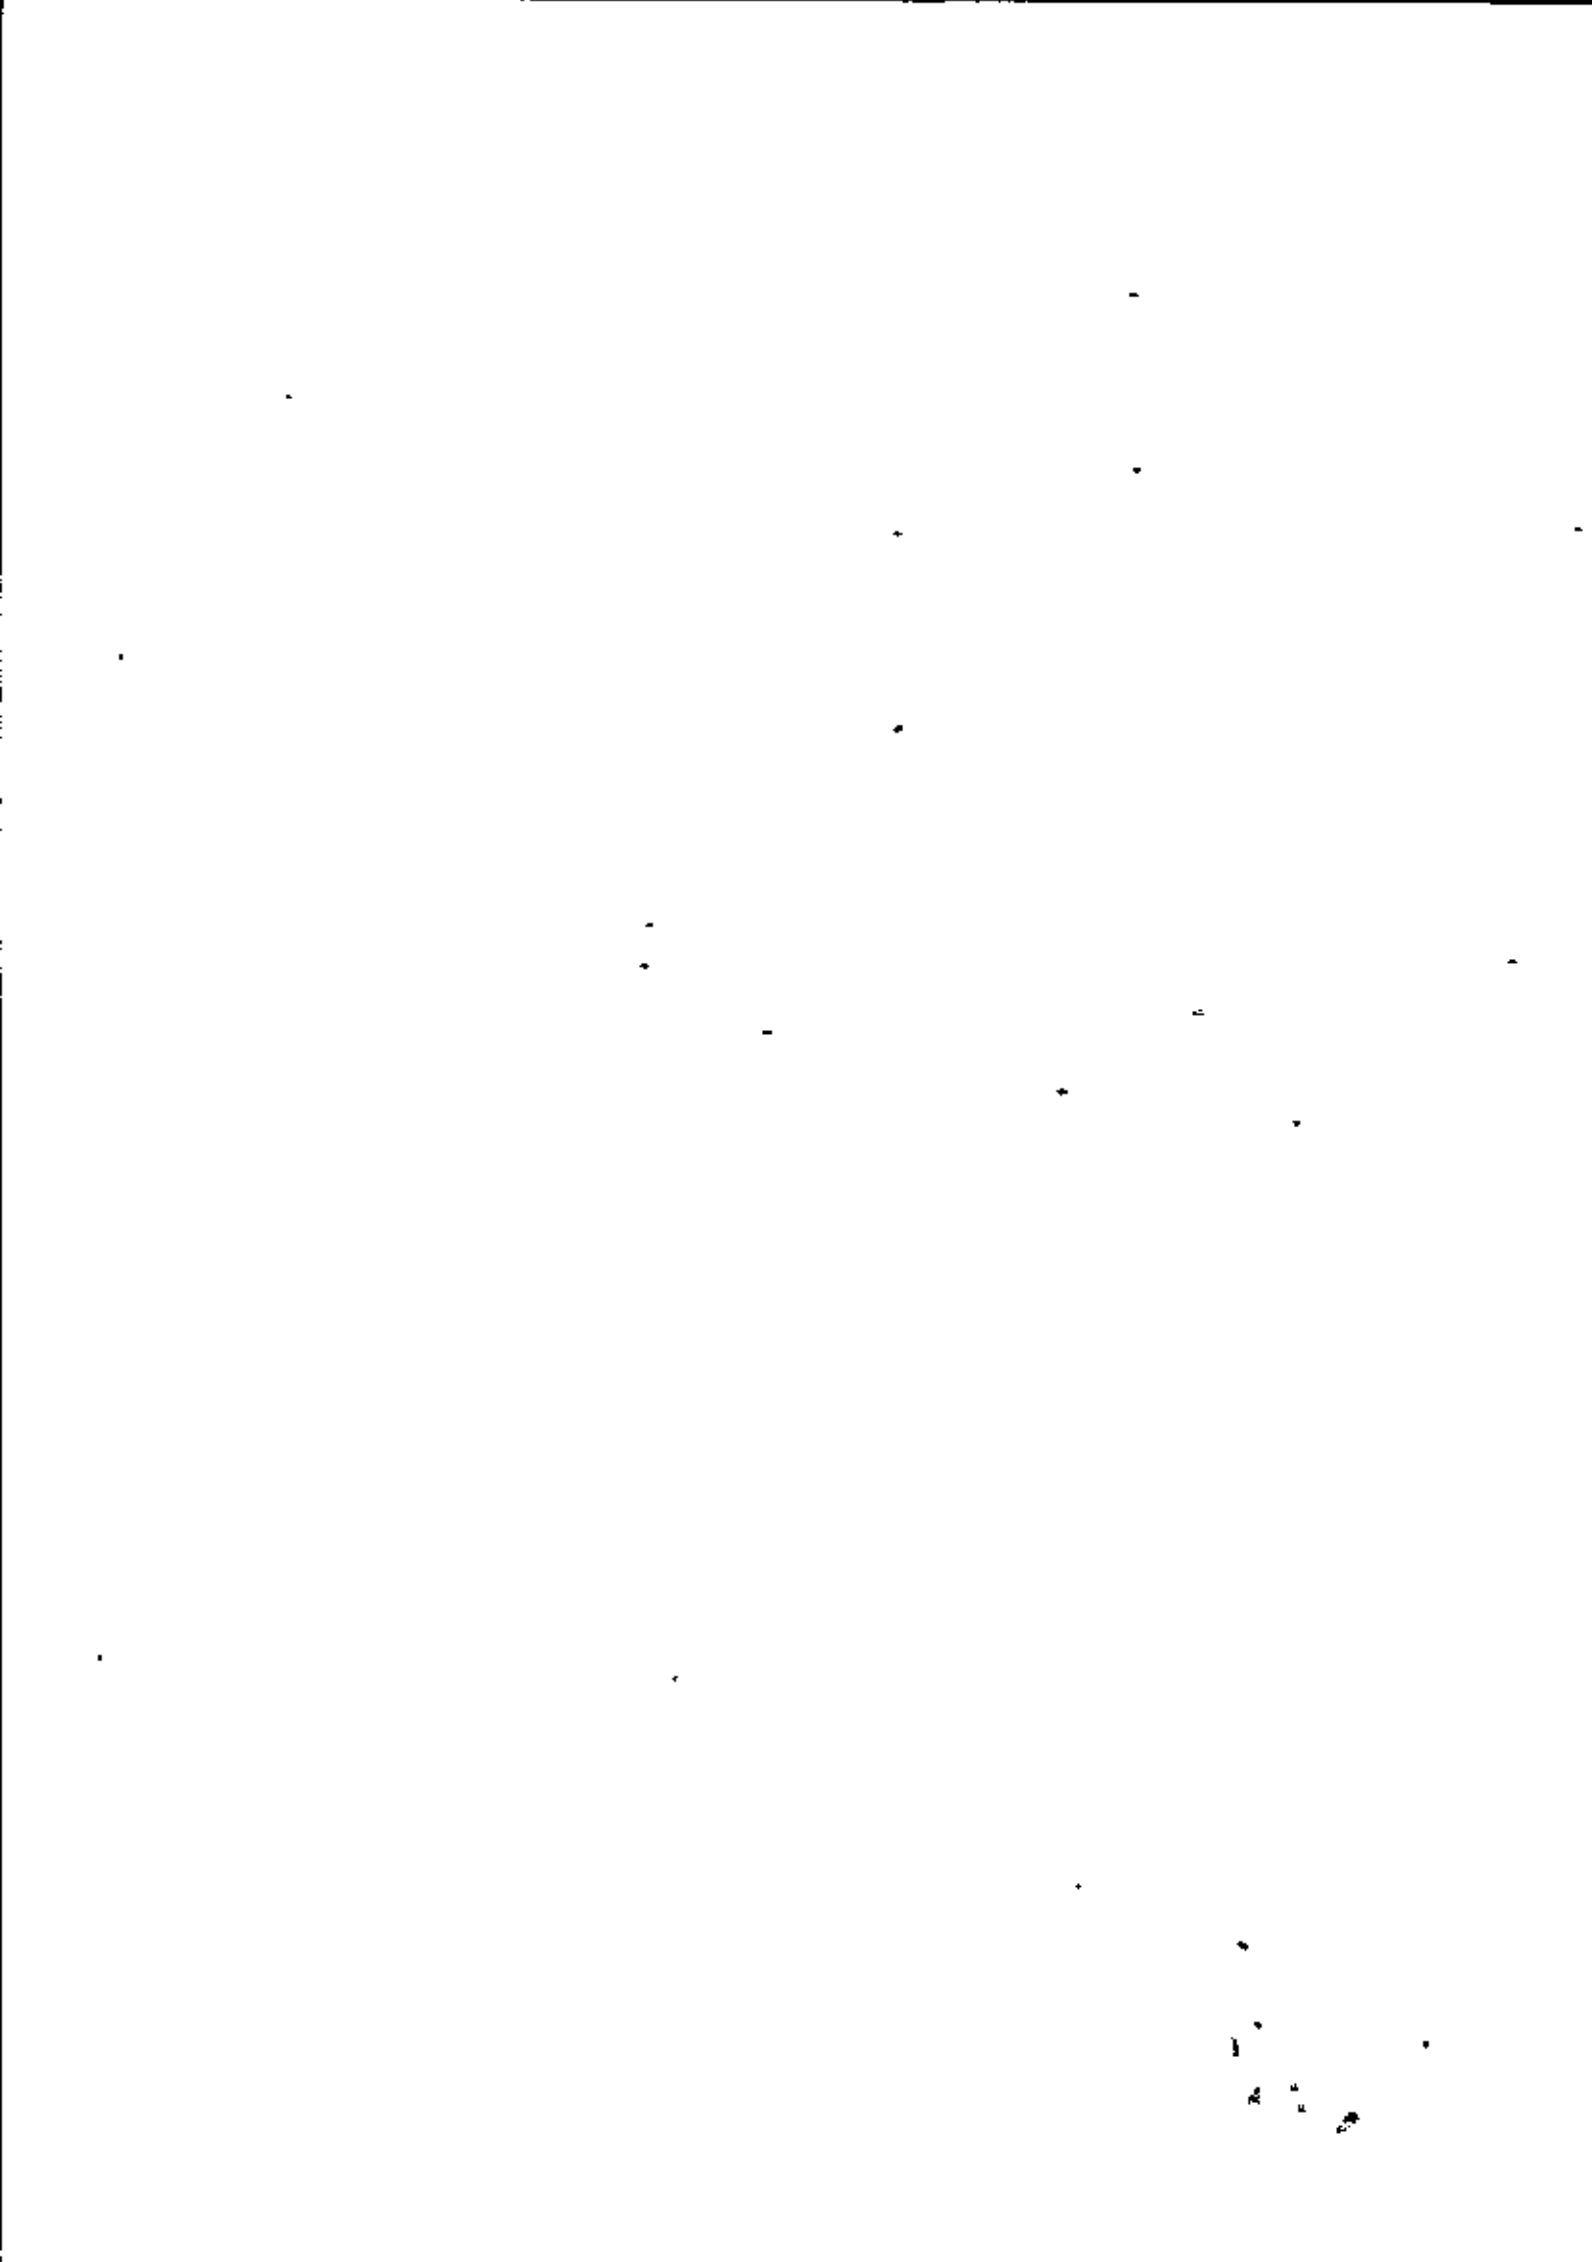

Thanking you,

yours faithfully,

Subject: Industrial Visit for III B.Tech I Sem EEE Students regarding.

Respected Sir,

We are planning to conduct Industrial Visit for our III B.Tech I Semester EEE Students as per the schedule given below. It is useful to them to visit an Industry 765/400 kV Substation, Power grid corporation of India Ltd., Annvaram, Rompicherla(Mandal), Narasaraopet. So kindly permit us to take further action.

| S.NO. | CLASS                      | NO.OF STUDENTS | DATE OF VISIT | ACCOMPANY FACULTY     |

M.Tech., Ph.D. (UK), MISTE, FIE (I)

PRINCIPAL

Dated: 28.10.2022

The General Manager,  
765/400 KV Substation,  
Power Grid Corporation of India Ltd.,  
Annvaram(V),  
Rompicherla(Mandal)  
Narasaraopet.

Dear Sir,

Sub: Request to visit your 765/400 KV Substation.

Narasaraopeta Engineering College (Autonomous), Narasaraopet established in the year 1998. The college offers 10 UG courses (CIVIL, EEE, ME, ECE, CSE, CSE(AI), IT, CSE(AIML), CSE(CS), CSE(DS), PG Courses M.Tech (DECS, P&ID, CSE, TE, MD, SE), MBA and MCA courses.

As a part of Academics, students are required to visit industries in order to get the practical knowledge and Industrial exposure.

3<sup>rd</sup> year B.Tech Electrical and Electronics Engineering students of our college would like to visit your esteemed Industry 765/400 KV Substation as per the schedule given below.

| S.NO. | CLASS                      | NO.OF STUDENTS | DATE OF VISIT | ACCOMPANY FACULTY     |
|-------|----------------------------|----------------|---------------|-----------------------|
| 1     | III B.TECH I SEM SECTION-A | 59             | 31-10-2022    | Mr.M.Chandra Sekhar   |
| 2     | III B.TECH I SEM SECTION-B | 48             | 01-11-2022    | Mrs.P.Bramarambavathi |

Hence we request you to permit the above visit and confirm the date of visit. We request you to kindly grant permission. We will abide your rules and regulations.

Thanking you,

Yours faithfully

## ACKNOWLEDGEMENT

We are highly indebted to the Manager **Mr. Siva Kotaiah** who explained the function of equipment at **765/400 KV SUBSTATION POWERGRID Corporation India Ltd Annvaram, Rompicherla (M)**

We convey our special thanks to our faculty **Mr. M. Chandra Sekhar** who accompanied with us and clarified our doubts and take care of us till the end of our visit. We convey our special thanks to our Industrial visit coordinator **Dr. Sk. Md. Shareef** who cooperated us to make this visit successful.

We articulate our profound gratitude to **Dr. P. Lakshmanan**, Head of the Department of **Electrical and Electronics Engineering** for his indispensable encouragement to visit the industry.

We convey our special thanks to our honorable principal **Dr. M. Sreenivasa Kumar** for his immense motivation.

We sincerely thanks to our college management for providing bus facility to visit the Industry Power grid corporation.

## CONTENTS:

1. Purpose to visit
2. General Information About power grid (765/400 kv)
3. Observations
- 4 .conclusion

### 1. PURPOSE TO VISIT:

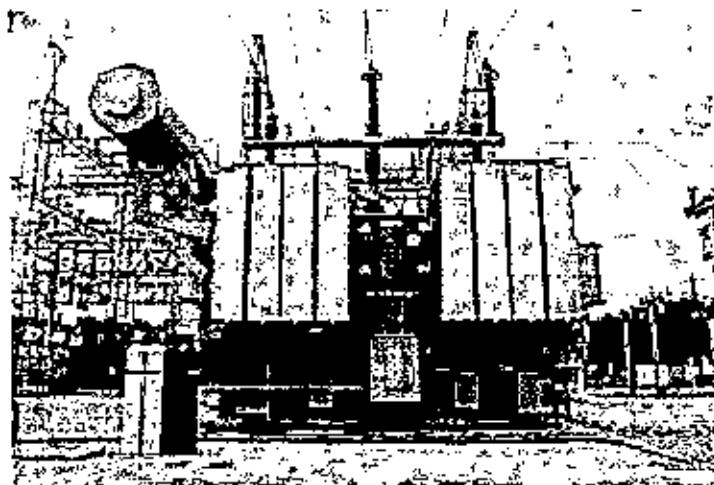

Our main purpose to visit is to know about the industrial environment and to get the practical knowledge of power grid. Students will get an idea of power grid i.e. like power transformer, bus bars, lighting arresters some electrical equipment like operating software, circuit breakers, P.T, C.T and some auxiliary equipment.

### 2. GENERAL INFORMATION ABOUT POWER GRID (756/400 KV):

It is located at Annvaram, Rompicherla, Andhra Pradesh, India. We visited power grid substation on 31-10-2022 along with the faculty and in the power grid we are guided by Mr. Siva Kotaiah. Under his guidance we are observe the following points. Power transformers, busbars, circuit breakers, L.A, Auxiliary supply, earth pits, reactors, fire protectors etc....

### 3. OBSERVATION:

#### POWER TRANSFORMER

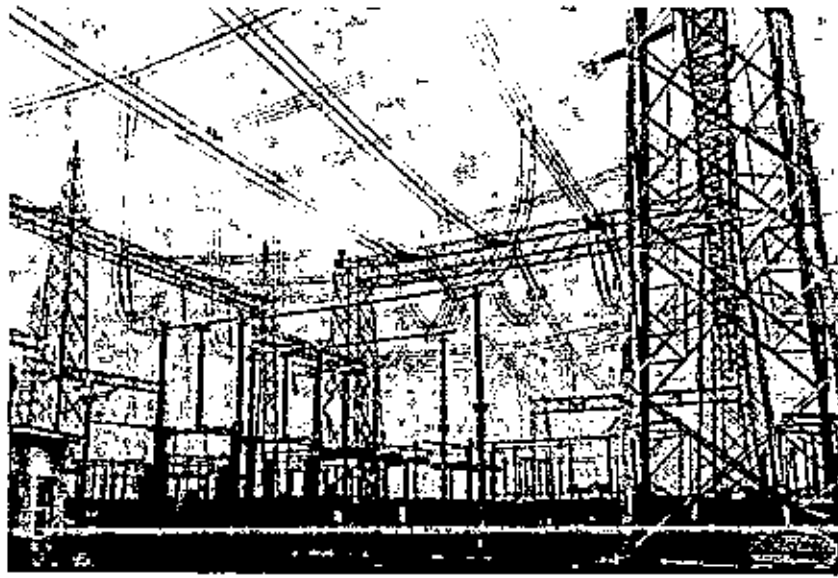

IQAC

PRINCIPAL  
NARASARAOPETA ENGINEERING COLLEGE  
(AUTONOMOUS)  
NARASARAOPETA - 522 601  
Guntur (Dist.), A.P.

A power transformer is a static machine used for transforming power from one circuit to another without changing the frequency. As there is no rotating or moving parts, a transformer is classified as a static device. Transformer operates on an AC supply. Transformers operate based on the principle of mutual induction.

## **BUSBARS**

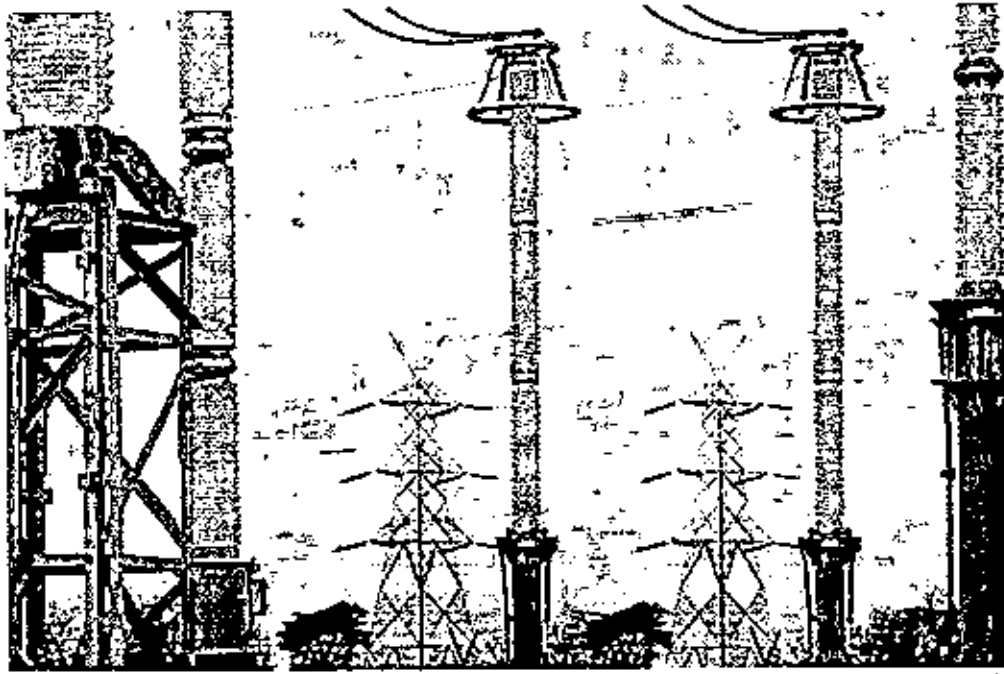

A system of electrical conductors in a generating or receiving stations on which power is concentrated for distributions.

## **CIRCUIT BREAKERS**

It is an automatically operated electrical switch design to protect an electrical circuit from damage caused by overload of electricity. Electricity or short circuit. A circuit breaker function to detect a fault condition and by interrupting continuity, to immediately discontinue electrical flow.

## **LIGHTING ARRESTERS**

A lightning arrester is a device used to a electric power transmission and telecommunication system to protect the insulation and conductors of the system from the damaging effects of lightning.

### **AUXILIARY SUPPLY**

The purpose of auxiliary power supply system is to cater for the necessary energy for the operation of primary and secondary at the substation. The auxiliary power systems are normally divided in two types namely called as AC system and the DC system.

### **REACTORS**

In an electrical power transmission grid system, switchyard reactors are installed at substations to help stabilize the power system. For transmission lines the space between the overhead line and ground to form a capacitor parallel to the transmission line which causes an increase in voltage as the distance increasing.

### **EARTH PITS**

The substation Earthing system comprises of a grid formed by a horizontal buried conductors ensure safety to personal in substation against electrical shocks. Provide the ground connections for connecting the neutrals of a start connected transformer winding to earth.

### **FIRE PROTECTORS**

Fixed systems used water sprinklers, carbon dioxide and halon gas. Both halo gas and carbon dioxide can suffocate personal trapped in the discharge area. Strict precautions must

therefore be taken to lock off the equipment when staff are present. There is also used of sand, blankets and fire hoses.

#### 4. CONCLUSION :

After visiting this power grid substation we came to know about the practical grid process of electrical energy and understood the function of various components in grid substation their importance, arrangement and also the precautions taken for safety. This experience gave me a good exposure to the industry-tied branches of engineering. This visit was an exciting experience to us.

Dear Sir,

Sub: Request to visit your Srisaillam hydroelectric power plant.

\*\*\*

Narasaraopeta Engineering College (Autonomous), Narasaraopet established in the year 1998. The college offers 10 UG courses (CIVIL, EEE, ME, ECE, CSE, CSE(AI), IT, CSE(AIML), CSE(CS), CSE(DS), PG Courses M.Tech (DECS, P&ID, CSE, TE, MD, SE), MBA and MCA courses.

As a part of Academics, students are required to visit industries in order to get the practical knowledge and industrial exposure.

4<sup>th</sup> year B.Tech Electrical and Electronics Engineering students of our college would like to visit your esteemed Industry on 28<sup>th</sup> Oct. or 29<sup>th</sup> Oct.2022. One batch consists of 90 students and four faculty members visit your Srisaillam hydroelectric power plant on 28<sup>th</sup> Oct. or 29<sup>th</sup> Oct.2022. Hence we request you to permit the above visit and confirm the date of visit.

We request you to kindly grant permission. We will abide your rules and regulations.

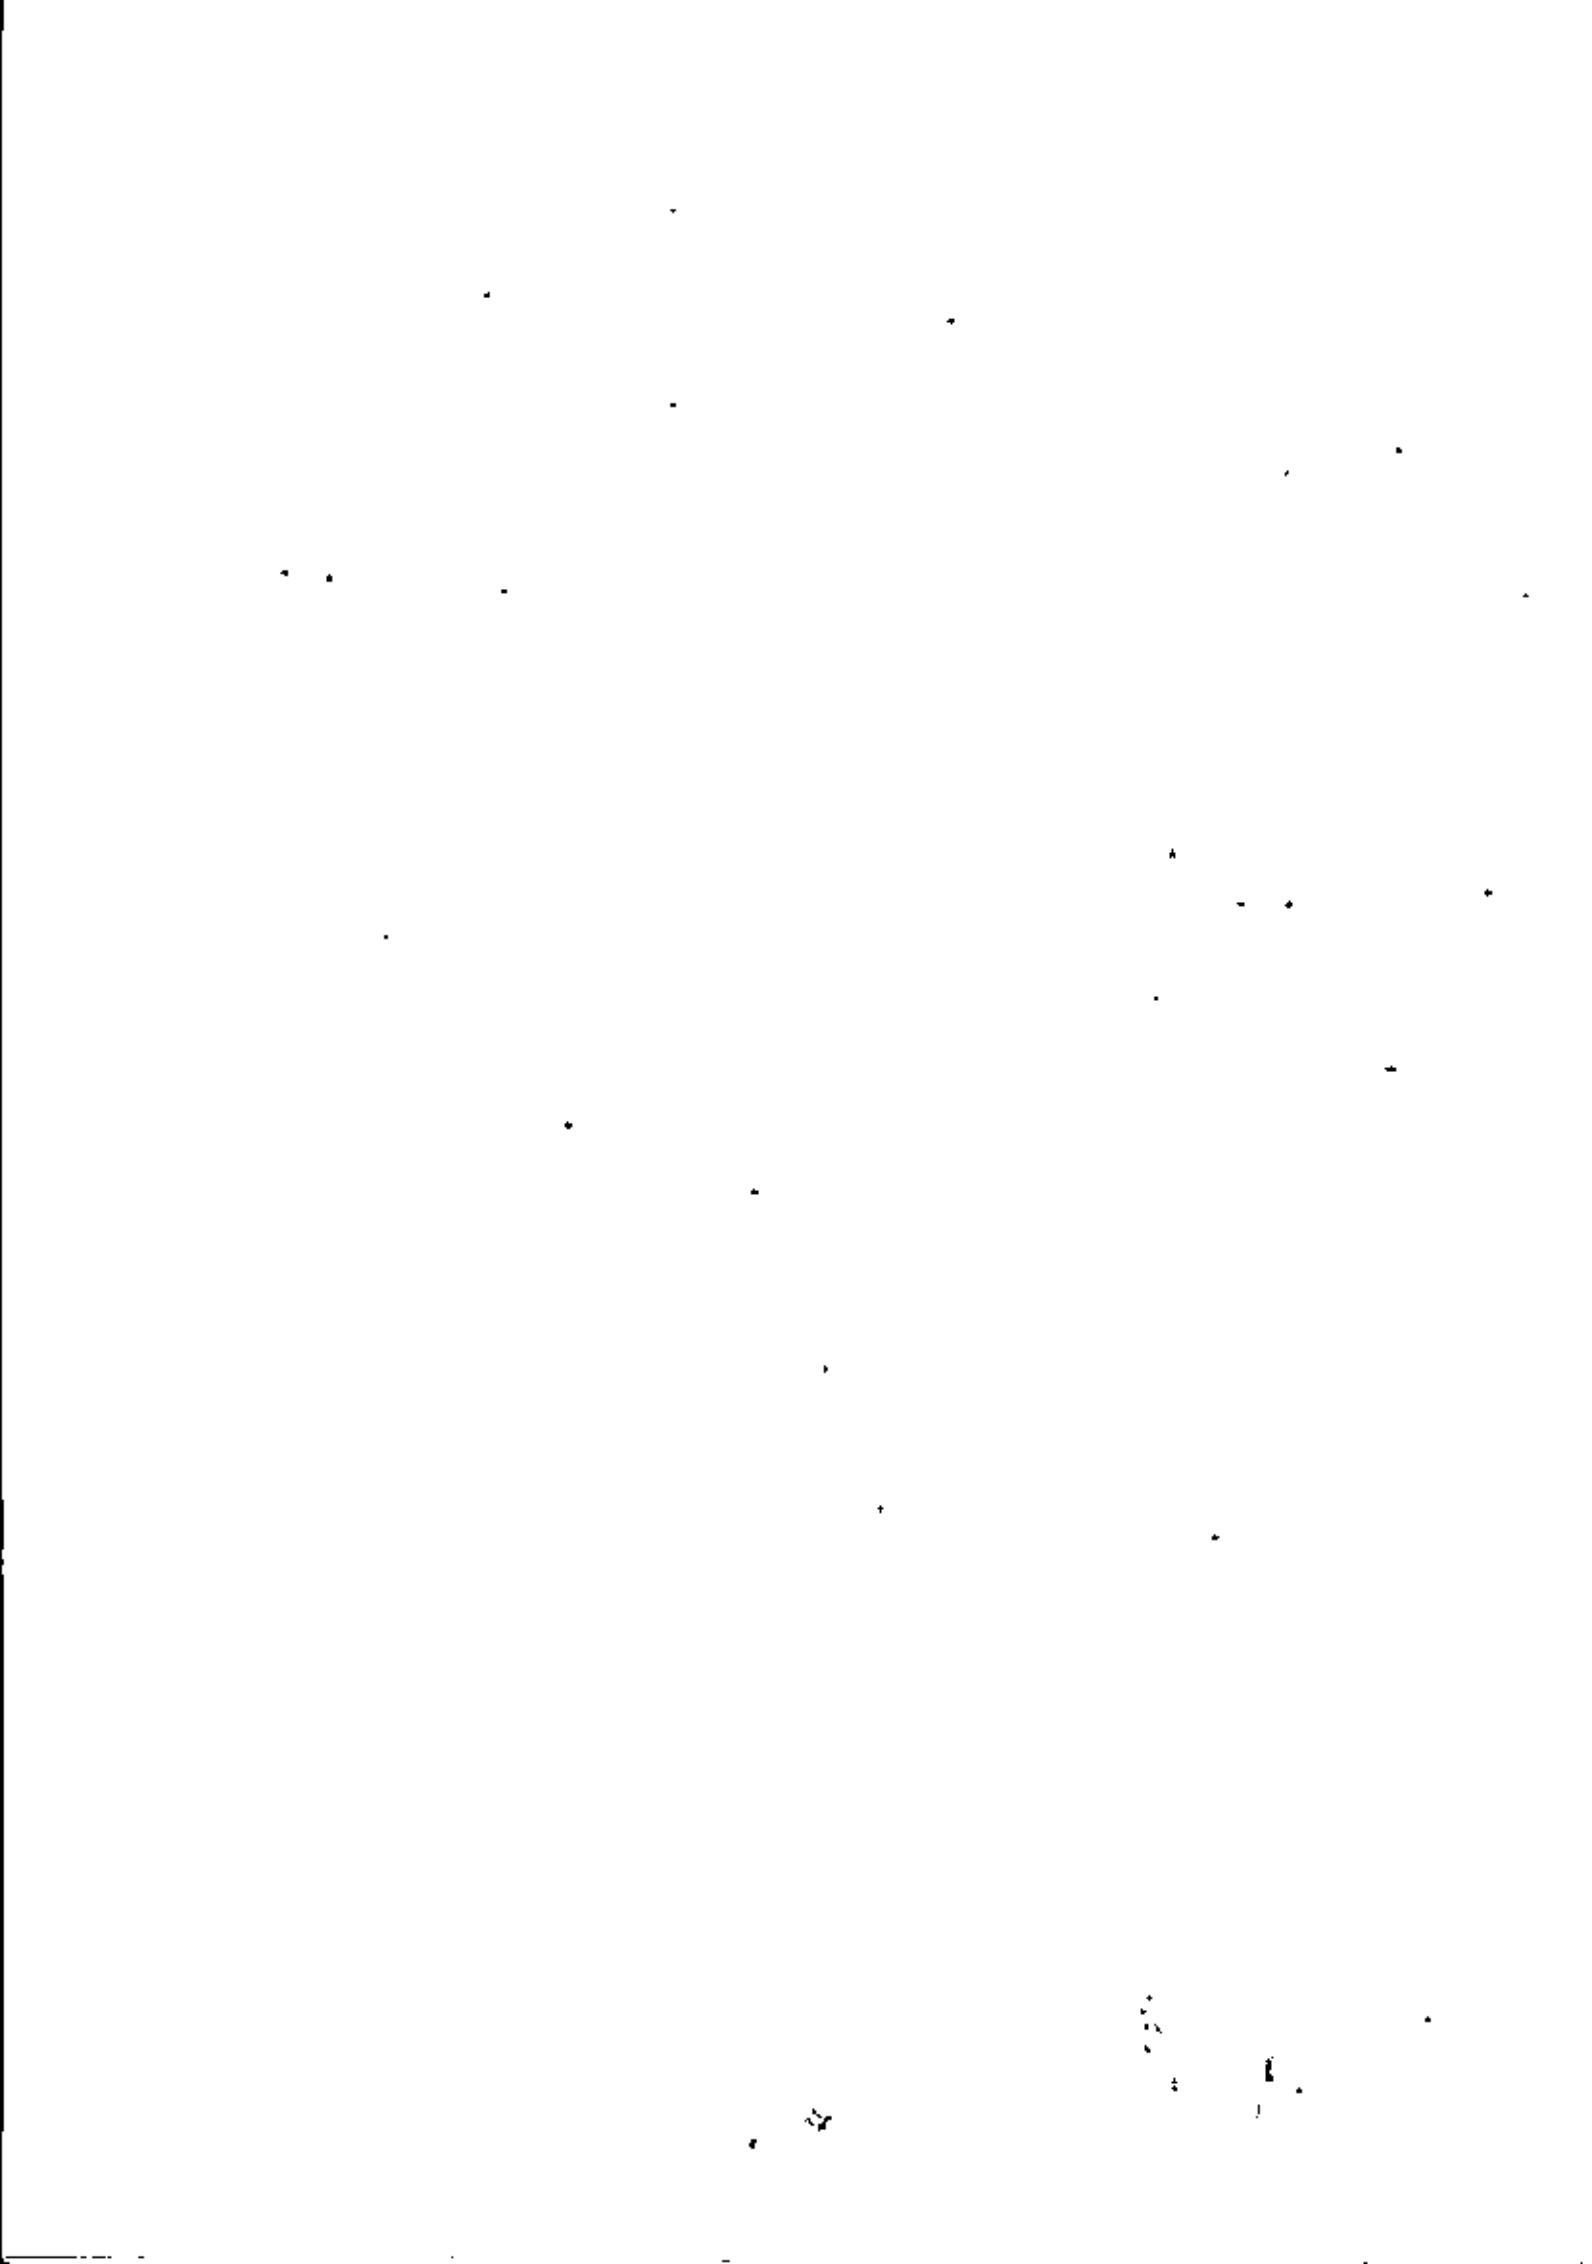

Thanking you,

Yours faithfully

Lr. No. SE / O&M /SRBHES /ADM/JAO/F.VPH /D.No. 109 /22, Dt. 20-10-2022.

Sir,

Sub: APGENCO-SRBPH -O&M Circle -Visit to the Srisaillam Right Bank Power House Permission - Accorded- Reg.

Ref:- Your letter received, date: 17.10.2022.

With reference to the letter cited above you are informed that 4<sup>th</sup> Year B.Tech Electrical & Electronics Engineering students numbering about 90 members alongwith faculty 4 Nos. of your college are permitted to visit the Srisaillam Right Bank Power House on 29.10.2022.

1. Cameras, Cell phones and Electronic items etc., are not allowed inside the Power House.
2. The Students & Faculty should follow the APGENCO Engineers instructions in the Power House.
3. Your college is responsible for any loss/damage occurs with the students & faculty members during the visit.
4. The Students & faculty are advised to take all precautionary measures to avoid any mishap during the visit.
5. The students & faculty should not use lift in Power House.
6. The students & faculty are advised to bring their photo identity cards while entering into the Power House.
7. The faculty should take care of students regarding the Electrical equipments installed inside the Power House and to maintain the discipline while in around the Power House.
8. Please note that APGENCO is no-way responsible for any mishap/ accidents to the students & Teachers during the visit.
9. The students should maintain personal hygiene, physical and social distance inside power house.
10. The students should not travel unnecessarily to other places during the visiting period.
11. The students must wear Face Mask compulsory in power house premises.

Yours faithfully

Dear Sir,

Sub: Thanking letter for giving permission of visiting your industry-Reg.

\*\*\*

We are very much thankful for permitting our Electrical and Electronics Engineering Students of 4<sup>th</sup> B.Tech (90 nos.) to visit your Hydrel Power House on 29<sup>th</sup> Oct.2022. We would also thank your management and staff who were explained the important machines and processes in your Power House. Students have thoroughly enjoyed and learned the process of Power generation.

Thank you once again and looking forward the same cooperation in future also.

Thanking you,

Yours faithfully

## ACKNOWLEDGEMENT

We are highly indebted to the Manager Mr.B.SREDHAR who explained the function of equipment at 7 x 110 hydro power plant Andhra Pradesh Generation Corporation Ltd Srisaillam. We convey our special thanks to our faculty Dr. SK.MD. SHAREEF, Mr.G.NAVEEN ,Mrs.G.SARITHA and Mr.P.NAGANJANEYULU who accompanied with us and clarified our doubts and take care of us till the end of our visit.

We convey our special thanks to our Industrial visit coordinator Dr.Sk.Md.Shareef who cooperated us to make this visit successful.

We articulate our profound gratitude to Dr.P.Lakshmanan, Head of the Department of Electrical and Electronics Engineering for his indispensable encouragement to visit the industry.

We convey our special thanks to our honorable principal Dr.M.Sreenivasa Kumar for his immense motivation.

We sincerely thanks to our college management for providing bus facility to visit the Industry Power grid corporation

**CONTENTS :**

1. Purpose to Visit
2. General Information About Hyrdo Power Plant
3. Observations
- 4 .Conclusion

## 1. PURPOSE TO VISIT:

Our main purpose to visit is to know about the industrial environment and to get the practical knowledge of hydro power plant. Students will get an idea of hydro power plant i.e. Turbines and Generators and also familiar with some electrical equipments like operating softwares, circuit breakers, P.T, C.T, power transformer and some auxiliary equipments.

## 2. GENERAL INFORMATION ABOUT HYDRO POWER PLANT:

It is located at Domalapenta, srisailam, kurnool district, Andhra Pradesh, India. We are visited hydro power plant on 29-10-2022 along with the faculty and in the hydro power plant we are guided by Mr.B.SREEDHAR. Under his guidance we are observe the following points. Generators, Shafts, Turbines, Control rooms, maintainance room.

Srisailam Right Bank Hydro Power Plant is erected in the srisailam dam of Kurnool district in Andhra Pradesh. The power is commissioned in 1982 and total installed capacity of the power plant is 770 MW. The status of the power plant is operational. The water source of the plant is Krishna River, which is flowing in the southern hydroelectric region of the country. The power plant is owned by Andhra Pradesh Government and the operating company is APGENCO. The total number of turbines used in the plant is seven and the capacity of each turbine of Srisailam Right Bank Plant is 110 MW per Turbine. So the unit size of plant is 770 MW having seven units of 110 MW each. Here all the units are commissioned. We can observe the animated picture of hydroelectric dam is in the below figure.

### 3. OBSERVATION:

**Turbine :** Srisaillam Right Hydro Power Plant has the 7x110 MW Francis turbines for the generation of electricity power and has recorded as 800 MW power generated on 29 october 2022.

The power plant has seven units, each unit consists of one turbine and one generator and can generate 110 MW power, francis is used in each unit, this type of turbine consists of both movable blades and fixed blades. Movable blades are allowing only required water to control the pressure.

We can observe the parts of the francis turbine in the following figures

Fig. (a) srisaillam francis turbine

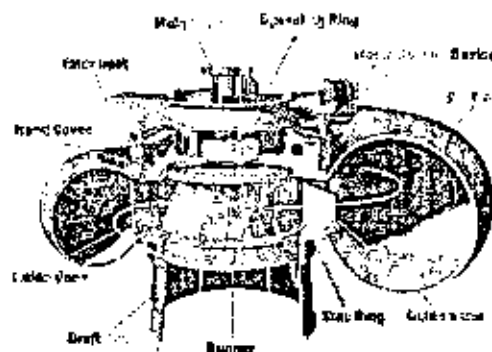

Fig. (b) parts of francis turbine

### Generator :

In Srisaillam right hydro power plant , Synchronous generators are used for generating power ,the power plant has seven units each unit having one synchronous generator is capable of 2,00,000 hp. The cost of each generator is nearly one crore rupees.

The synchronous generator's shafts are connecting to Francis turbine's shaft ,both shafts are coupled each other. The turbine runs at 180 rpm and can generate 110 MW power.

The synchronous generator is also called as Alternator is an electrical machine that converts the mechanical power from a prime mover into an ac electrical power at a particular voltage and frequency. The synchronous motors runs at constant speed called as synchronous speed. In this type of generator's rotor and magnetic field rotates with same speed.

Each unit of generator has pilot light at the top of generator to indicate the power generation, when it is ON the power generation is going on, we can see the synchronous generators in the following figures.

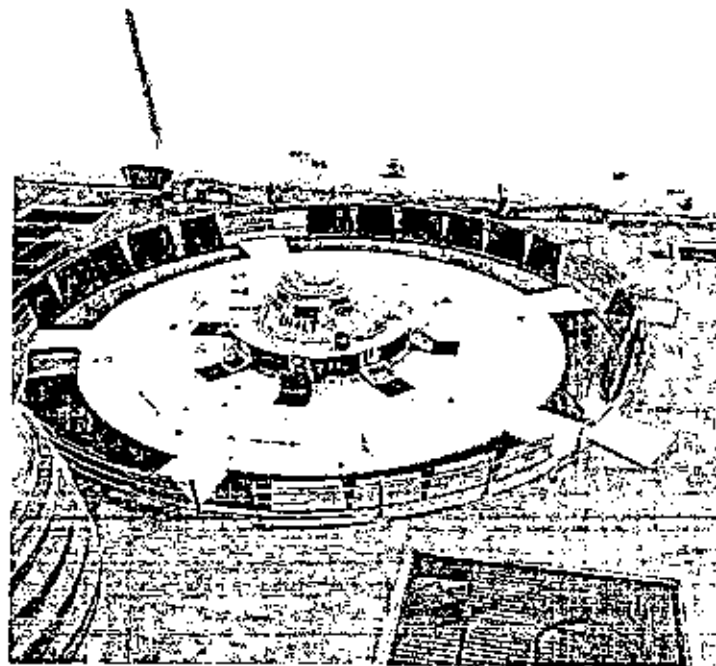

Fig. unit

Srisaialam Right Power Bank has seven units, each unit consist of generator and turbine and also generates 110MW for each unit, we can observe the seven units of Srisaialam Right Hydro Power Plant in the following figure

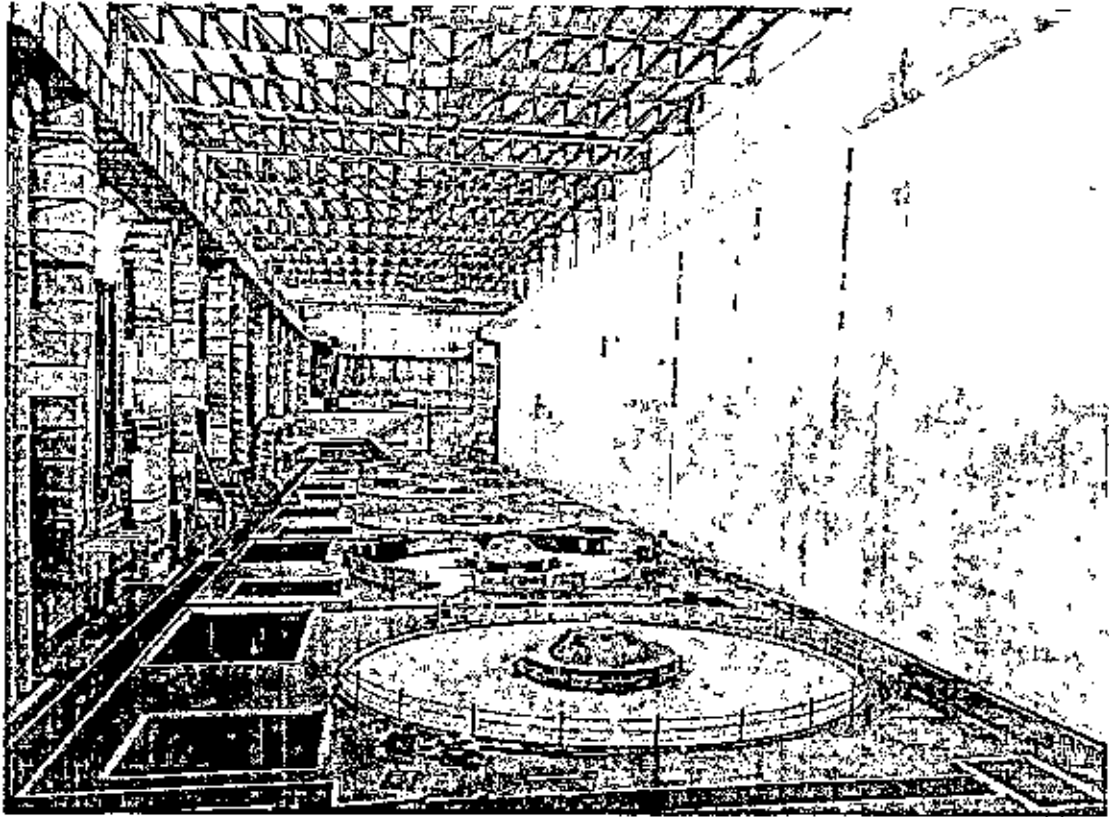

Fig. seven units

The above figure shows the seven units of srisaialam right hydro power plant and can generate 770 MW power. Each generator having 50 feet diameter.

The srisaillam right hydro power plant is constructed to the right side of sriasailam dam, At the entrance of power plant looks as temple and has 100 meter height. The Andhra Pradesh government hand over this power plant to Andhra Pradesh Generation Corporation Ltd which has highly recomanded company by government of India. We can see the entrance of power plant in the below figure.

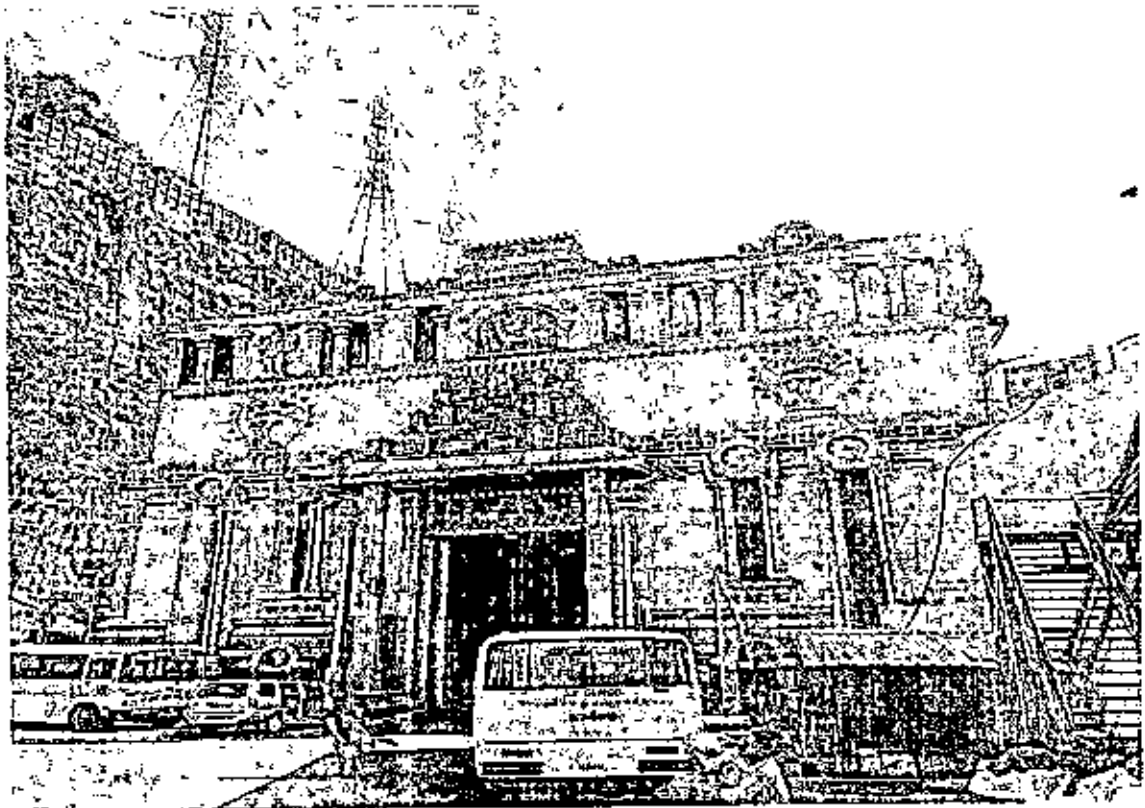

Fig. the entrance of the right hydro power plant , srisaillam

The above figure shows the view of the power plant entrance, APGENCO take over the project and generating power since from the beginning, more than 50 employes are working in the power plant and devided into three shifts, each shift has 8 working hours.when the sufficient water the dam that is 200 TMC then only they can operate the power plant .

#### 4. CONCLUSION :

After visiting this hydro power plant we came to know about the practical generation process of electrical energy and understood the function of various components in power plant, their importance, arrangement and also the precautions taken for safety. This experience gave me a good exposure to the industry-tied branches of engineering. This visit was an exciting experience to us.

## Letter of Undertaking for Industrial Visit

Date: 22-10-2022

To  
The Principal,  
Narasaraopeta Engineering College,  
Narasaraopet

Respected Sir,

Sub: Undertaking letter for Industrial Visit with acceptance of terms and conditions – reg.

D. Gouthu who is studying B.Tech 4<sup>th</sup> year in the department of Electrical and Electronics Engineering agreeing my ward to take part in the industrial visit to Srisaillam Right Bank Power House, Srisaillam arranged by the Department of Electrical and Electronics Engineering on 29-10-2022.

I unconditionally accept the following terms and conditions of the mentioned visit:

- 1) We, the undersigned parents/guardian are aware that, our son/daughter is participating in the industrial tour organized by the Dept. of Electrical and Electronics Engineering scheduled on 29-10-2022 with our full acceptance and will be bearing all the expenditure incurred for the industrial tour towards travel and other expenses from our end.
- 2) We shall ensure that our son/daughter shall abide by the college terms and conditions for industrial tour. We, hereby declare and confirm that the college shall not be held responsible in the event of any misfortune or accidents and/or personal injuries whether fatal or otherwise involving our son/daughter.
- 3) We shall undertake full responsibility of all the consequences should any other person or body suffer such accidents and/or personal injuries and/or damage to property as a result of our son/daughter negligent act during the period of industrial tour.
- 4) We further confirm that the college shall not be held responsible for our son/daughter misconduct or wrong doing at all times during the period of industrial visit and shall obey the instructions of the faculty members who are accompanying during the industrial tour.
- 5) In case of any act of indisciplinary activity caused by my ward, the college authority can take suitable action against my son/daughter.

Thanking you,

Yours Sincerely,

Respected Sir,

Sub: Industrial Tour to Jocil, Guntur – Permission for College Buses

As discussed with you, we have arranged the industrial tour to Jocil Limited, Dokiparru, Medikondur Mandal, Guntur from our NEC for 4<sup>th</sup> year B.Tech Mechanical Engineering students. For this, we need your approval for one college bus per day x 2 days, for to and fro travel between NEC and Jocil, Guntur.

Details are given below;

|                           |                                                          |
|---------------------------|----------------------------------------------------------|
| Dates of visit            | : 9 <sup>th</sup> and 10 <sup>th</sup> Nov 2022 (2 days) |
| No. of students per visit | : Around 50 students and 02 Faculty Members              |
| Starting time at NEC      | : 9.30 A.M                                               |
| Return to NEC             | : Around 3 PM                                            |

Thanking you,

Yours faithfully

  
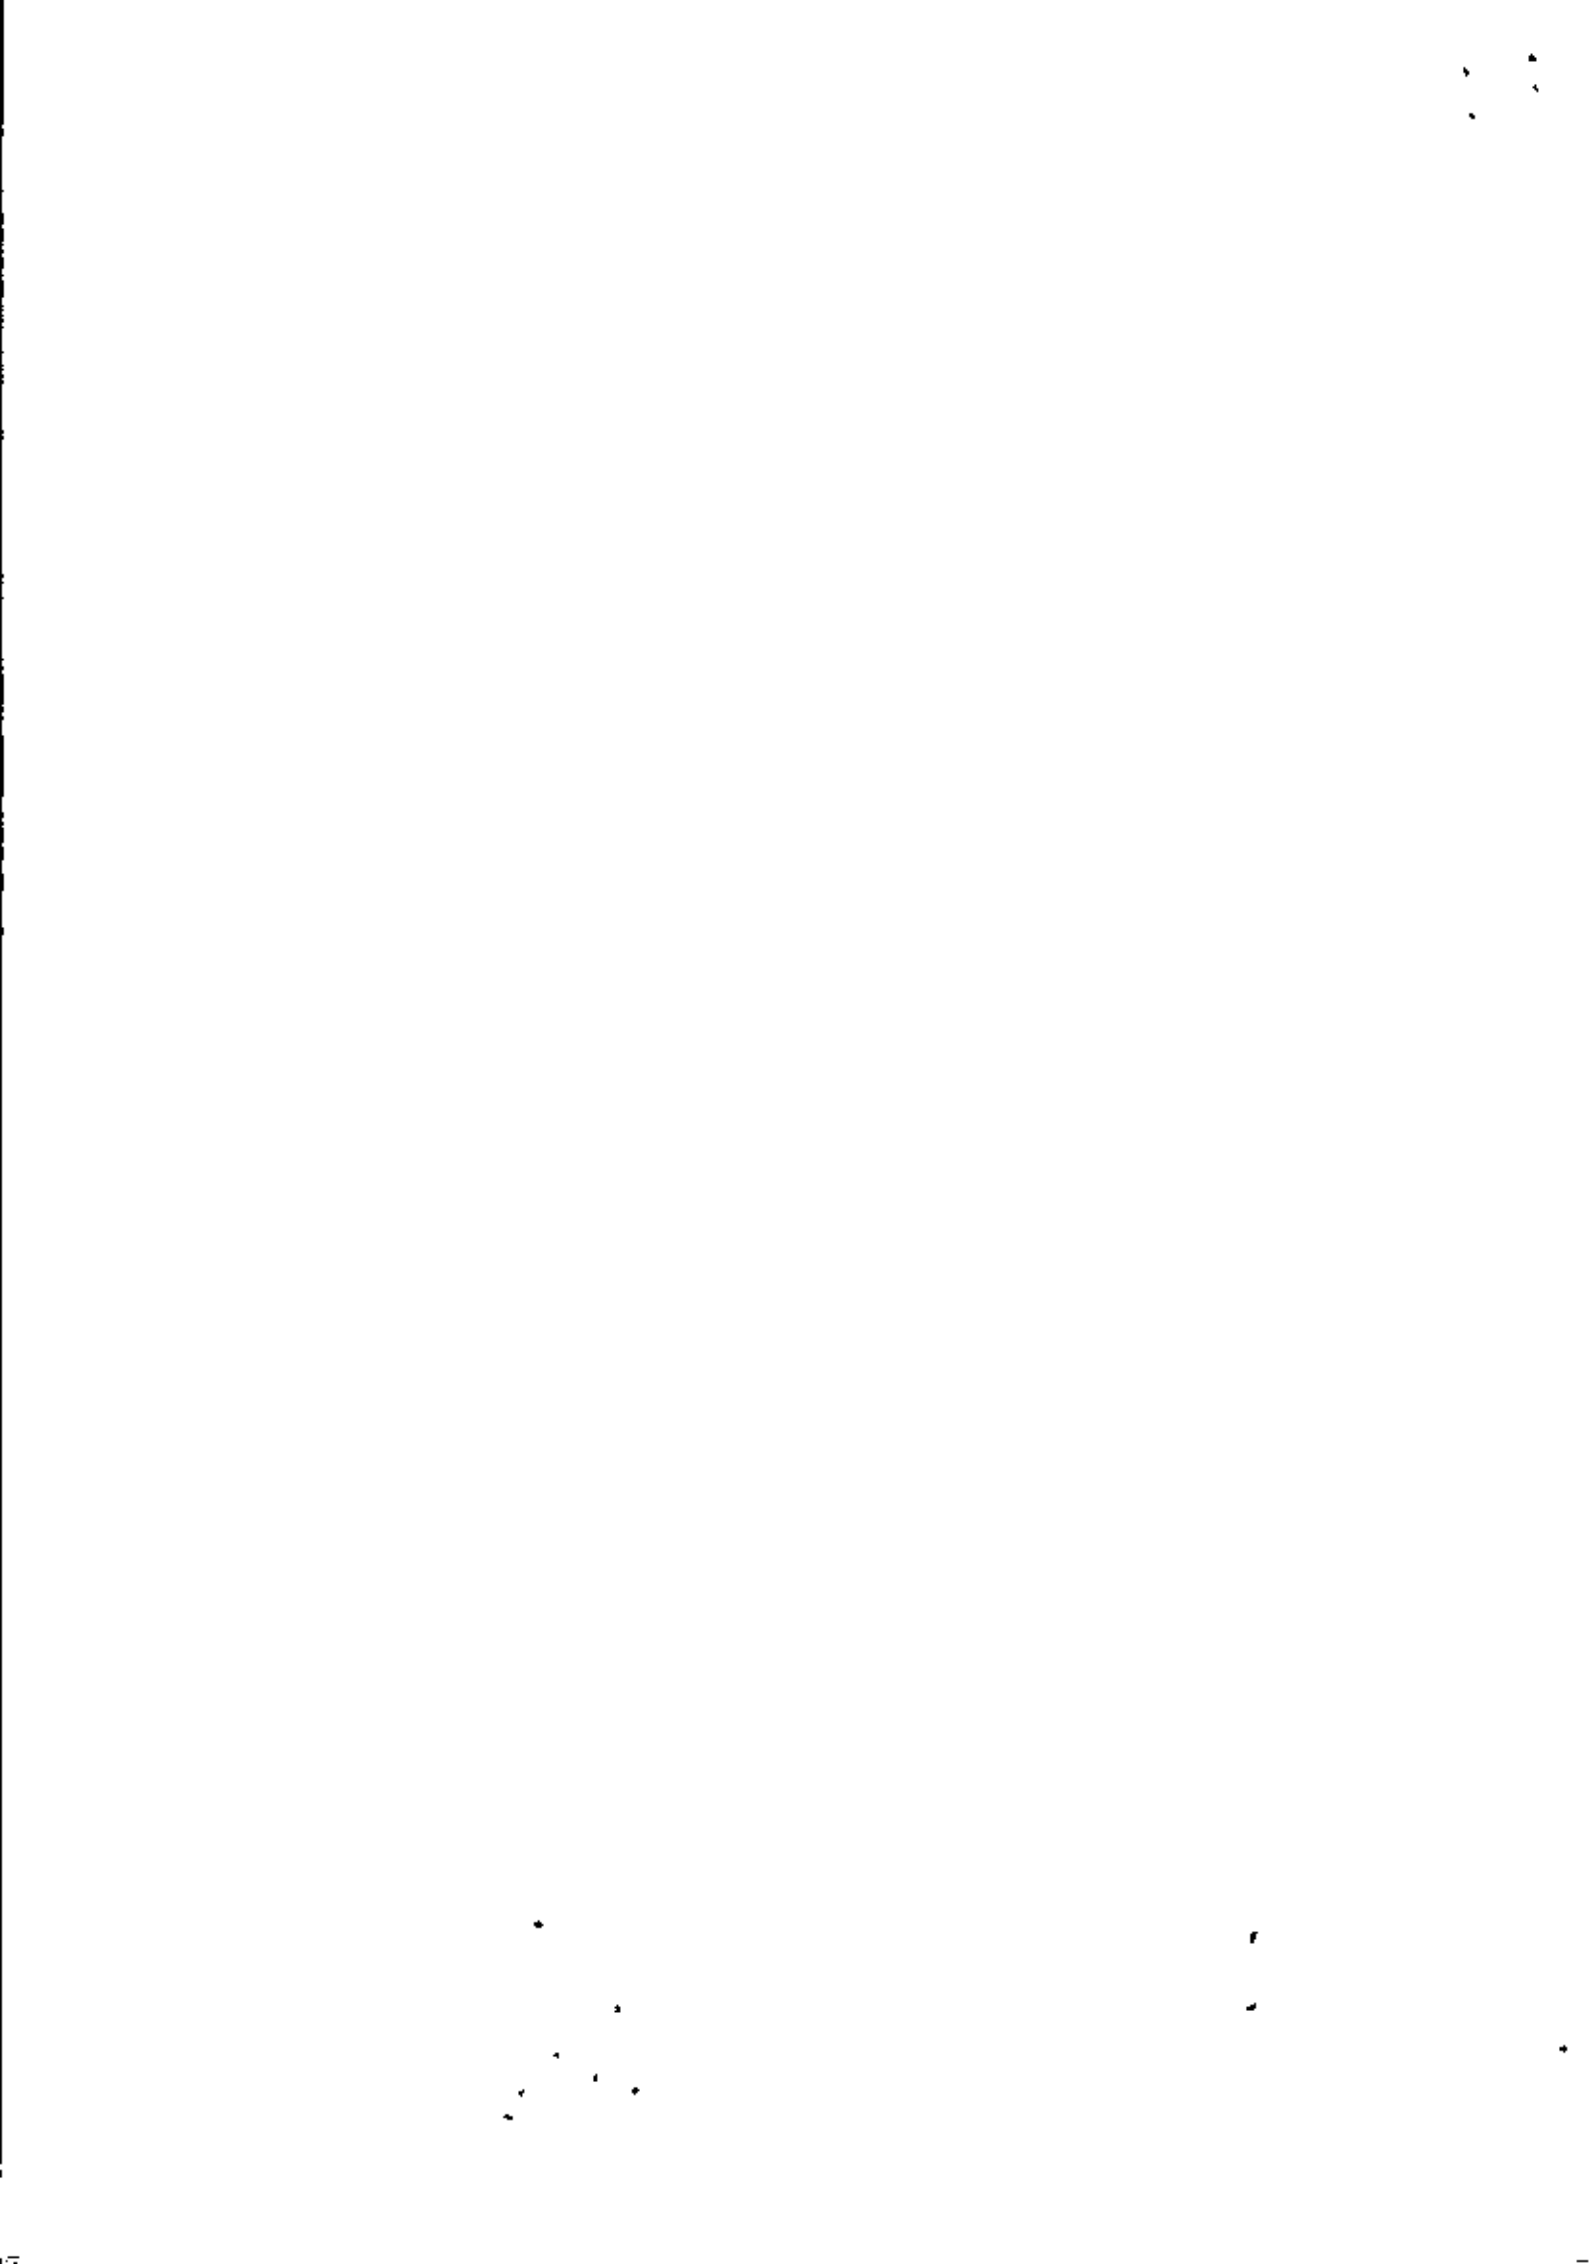

Dr.P.Suresh Babu

## Report on Industrial Visit to Jocil by NEC

### Mechanical Engineering Students

As a part of Academics students are required to visit industries in order to get the practical knowledge and industrial exposure. Hence, this "Jocil Limited, Guntur" had visited by NEC Mechanical Engineering students of around 100 students of B.Tech 3-1 on 19<sup>th</sup> & 20<sup>th</sup> Oct 2022, around 100 students of B.Tech 4-1 on 9<sup>th</sup> & 10<sup>th</sup> November 2022 and around 60 students of B.Tech 2-2 on 02.02.2023 by college bus.

The industry is located near Guntur, A.P. The detailed address is given below:

#### **Factory & Regd. Office:**

Jocil Limited

Dokiparru, Medikondur Mandal,

Guntur- 522 438, AP,

India.

Phone No.: +91-08632290190

Email: [jocil@jocil.net](mailto:jocil@jocil.net)

#### **Mailing Address:**

Jocil Limited

PO Box 216, Arundelpet PO

Guntur-522 002, AP,

India.

### About the Jocil:

- A Public Limited Company incorporated in February 1978 as Andhra Pradesh Oil and Chemical Industries Ltd.
- Listed in National Stock Exchange (NSE) Madras and Hyderabad Stock Exchanges.
- Renamed as "Jayalakshmi Oil and Chemical Industries Limited" in 1982.
- Became a Subsidiary of The Andhra Sugars Ltd (ASL) on 27 October 1988.
- ASL Group of Companies have diversified interests in Sugar, Chemicals such as Caustic Soda, Acetic Acid, Industrial Alcohol, Sulfuric Acid, Aspirin etc., Petrochemicals and Textiles at various locations in Andhra Pradesh, India.
- ASL is also the Sole Supplier of Rocket Fuel (UDMH) to ISRO.
- Renamed once again as "Jocil Limited" in 1992.
- 30 years of experience in the field of manufacture of Stearic Acid Flakes, Fatty Acids, Toilet Soap, Soap Noodles and Refined Glycerine.
- Stearic Acid Flakes are available in various grades for use in Pharmaceuticals, Cosmetics, Textiles, Paints, Plastics, Tyres, Tread Rubber, Metal Polish and Other Industries.
- A 6 Mw Biomass Cogeneration Power Plant commissioned in 2001, to meet captive requirements of Steam & Power.
- Exports Surplus Power to APSPDCL (Public Utility Company).
- Continues unbroken dividend paying record since 1988 - 89

- Celebrated Silver Jubilee in the year 2003.
- ISO 9001:2000 Certification by DNV in year 2004.
- Ventured into Wind energy in the Year 2005;
- Wind farm is registered as CDM Project with UNFCCC in Year 2009.
- ISO 9001:2015 Certification by TÜV in year 2016.

The Company has well defined policies for

- Quality
- Consumer Safety
- Safety, Health and Environment (SHE)
- Company's Philosophy :
- To be a Successful Profit Making Organization.
- To Conduct its Operations with Honesty, Integrity and Transparency.
- To be the Market Leader in its Field of Operations through Continual Improvement in Efficiency and Quality of Products & Services.
- To have Concern for Employees, Shareholders, Customers and Business Associates alike.
- To Serve Society through Industry.
- To care for the Environment and the World in which we live.

## Production Facilities

### Fatty Acids

#### Adapting Latest Technologies

- High Pressure Fat Splitting Plant.
- Fatty Acid Fractionation Plant
- Sweet Water Evaporation Plant
- Fully Automated & Centralised Control System
- Proven Technologies of Gianazza, Sulzer and CMB
- Equipped with Facilities/ Plants to Process Different Oils at a time

#### Plant Control through Delta V Distributed Control System

- Supplied by Emerson Process Management.
- Advanced Diagnostics & Process Performance Monitoring
- Remote Calibration and Diagnostics of Field Instruments
- Uses latest Foundation Fieldbus & HART Field Instruments

- Soap Plant - Finishing Section
- Double Sigma Mixer
- Proven MILWAUKEE Line Equipment
- Electronic Balances for Batching

- Soap Plant - Finishing Section
- Pressurised working premises
- False flooring and PVC flooring
- Avoids Dust ingress

Soap Plant - Vacuum Spray Drying  
ISOQEC Online Quality Check

Soap Plant - Baking Section  
Soap Curing

- Gravity Flow of Material
- Problem Free Operation
- Spacious Work Area
- Ample Storage

**New four-floor Building**

- 3 lines to Manufacture 3 different brands at a time
- Adequate, Segregated and Safe Storage.
- Pressurised working area for dust free hygienic environment.
- PLC based controls.
- Imported equipment for critical areas.
- Vast Experience in manufacture of Soaps and Soap Products

**Toilet Soaps**

Product offered in the form of free flowing flakes, in different grades and to suit various industrial applications.

User Industries: Rubber | PVC | Cosmetics | Metal Polish | Paints | Tyres | Food | Pharmaceuticals | Specialty Chemicals.

**Stearic Acid**

Extending support in the areas of Research & Development of New Soap Products

- Coloured Noodles
- Strands and Bits
- Premium and Translucent Soaps
- Liril Icy Cool | Savlon | Margo Natural | Chek etc.
- Brands have been developed at Joci.

Customers include HUL, ITC | Marico | Reckitt Benckiser | Emami | Jyothy Labs | Henkel India etc.,

Strengths: Flexibility to Manufacture Five Different Grades at a time, 250 tpd of Installed Capacity. Translucent Noodles and Premium Noodles of High Quality

Product can be offered to suit Customer Requirements.

DT: 30.01.2023

To,

THE PRINCIPAL,  
NARASARAOPETA ENGINEERING COLLEGE,  
NARASARAOPETA, A.P

Dear Sir,

Sub: permission for Industrial Visit - reg.

Ref: your letter dated: 23.01.2023.

Regarding the above subject, we are pleased for your interest and hence the permission granted for Industrial Visit of 4 batches consisting 50 students each batch with 2 faculty from B, Tech III & IV Year MECHANICAL ENGINEERING students.

The following suggestions / instructions are to be followed strictly.

- 1) All the students should come with College Uniform, shoes & I.D. card.
  - 2) Discipline is very important.
  - 3) Cameras & Mobiles are not allowed, if found, will not be returned.
  - 4) Photography strictly not allowed within the factory premises.
  - 5) Water is provided during the industrial visit. Will not provide any refreshments / meals to the students & faculty.
  - 6) Safety Precautions should be followed strictly and Student's safety is college's responsibility.
- All the above suggestions / instructions should be followed strictly and you can visit to our factory.

- 1 batch on 31.01.2023 (TUESDAY), 11 batch on 01.02.2023 (WEDNESDAY) for 3<sup>rd</sup> year students.
- 1 batch on 07.02.2023 (TUESDAY), 11 batch on 08.02.2023 (WEDNESDAY) for 4<sup>th</sup> year students.

Thanks for showing & choosing interest on our company for industrial visit.

# Report on Industrial Visit to Kumar Pumps by II, III & IV B.Tech Mechanical Engineering Students in Feb, 2023

As a part of Academics students are required to visit industries in order to get the practical knowledge and industrial exposure. Hence, around 250 second semester students of 2<sup>nd</sup>, 3<sup>rd</sup> & 4<sup>th</sup> year Mechanical Engineering had visited the Kumar Pumps, Tenali on 31<sup>st</sup> Jan, 23, 1<sup>st</sup>, 7<sup>th</sup> & 8<sup>th</sup> Feb 23 accompanied by two faculty members per batch by college bus.

The industry is located near Tenali, A.P. The detailed address is given below:

## Address of Kumar Pumps

The General Manager

SRI LAKSHMI GANAPATHI-ENGINEERING WORKS

PLOT Nos: 9 - 14 & 17 - 24,

Industrial Estate, Sultanabad

Tenali, Andhra Pradesh 522201

Email: [purchasing@kumarpumps.in](mailto:purchasing@kumarpumps.in)

[support@kumarpumps.co.in](mailto:support@kumarpumps.co.in)

## COMPANY PROFILE

Kumar Pumps, the undisputed leader, is the pioneer in the manufacture of Pumps & Electric Motors in the country. A true front runner, the company has been at the forefront of performance for a successful span of over 4 decades. A trailblazing leadership established through a deep commitment to QUALITY - A winning attribute which constitutes the core strength of the company.

Founded by a dynamic entrepreneur with a forceful forward vision by establishing company SRI LAKSHMI GANAPATHI ENGINEERING WORKS, the corporate growth of the Kumar Group is a success born of determination and a burning desire to break new ground. A relentless journey of innovation, an unsurpassed accomplishment, where a one-man organisation grew to the magnitude of a gigantic corporate presence.

The excellence of the products coupled with the affordable pricing has increased and sustained a strident growth all over India. Promising and prolific markets comprise the states of Andhra Pradesh, Tamilnadu, Kerala, Karnataka, Madhya Pradesh, Maharashtra, Gujarat, Uttar Pradesh, Bihar, Orissa, West Bengal and Assam.

PRINCIPAL

The Kumar Quality is legendary. Reputed for its "No Problem" performance, the firm technology back up of the company constantly upgrades skills and processes to match the changing needs. The state of the art manufacturing process includes...

#### **AUTOMATED FOUNDRY :**

The latest Moulding machines based on frontier German Technology and technical know how are used to guarantee the highest accuracy and strength.

#### **INDUCTION FURNACE & METALLURGICAL LAB :**

Melts Iron up to 1500°C in controlled process, measures the composition and strength of the metal in metallurgical lab using spectrometer before pouring the liquid iron.

#### **SHOT BLASTING :**

This sure shot method is employed to ensure the high quality of component cleaning and the perfect flawless finish.

#### **CNC, VMC & HMC MACHINES :**

The pumps components are machined on the high tech Computerised Numerical Controlled machines for high accuracy and interchangeability.

#### **CNC GRINDING MACHINES :**

Micron precision and accuracy is achieved in the manufacture of Shafts and Rotors for longer fault-free performance of pumps.

#### **DYNAMIC BALANCING OF THE ROTORS :**

Dynamic Balancing of the Rotors and Impellers extends the pump life and durability of Motor Bearings.

KUMAR strives endlessly to upgrade all aspects of its technology, product line and human resources. The Company is actively exploring the possibilities of expanding the product line and production capacity providing more value added products for domestic and agricultural markets. Promising a powerful growth towards prosperous future.

#### **Achievements:**

- Only company in Andhra Pradesh in manufacturing of Pumps & Motors with high Quality in par with that of Combatores & Ahmedabad.
- Invested on Own R&D and Foundry division with induction furnaces.
- Manufacturing division with world-class machinery.
- Focus on CUSTOMER preferences and surveying the market conditions.

Partasaradh 2nd Nov 2009.

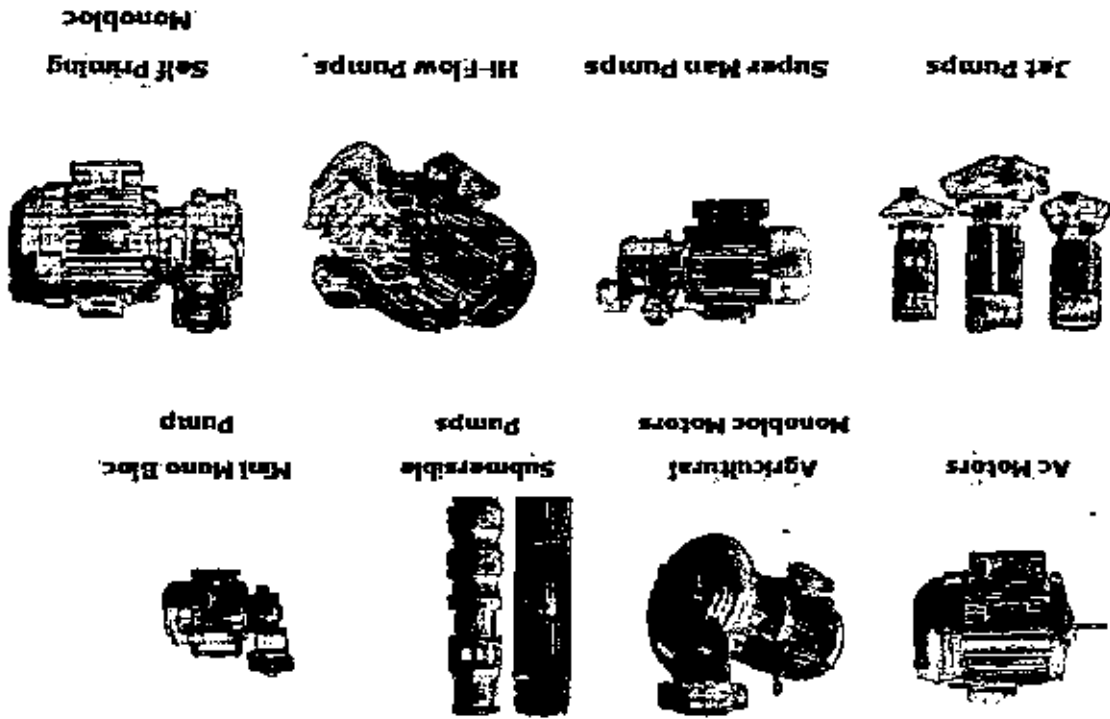

- "Best Industries" Award by the Small Scale Industries Association given by AP State Minister Mr. K. Sept 2011.
- "National Award" for Outstanding Efforts in Entrepreneurship by MSME, Government of India on 2nd
- Received many accolades from the Central & state government and other financial institutions.

#### Recognitions and Awards:

- 2020 - DOOSAN Machine (Two Spindles - KOREA)
- 2017 - HAAS Mill Machine (USA) & Conveyor Painting System
- 2016 - ROBOTS (KUKA & ABB)
- 2014 - Introduction of Automatic winding machines
- 2013 - CNC Horizontal Machining Centre (BFW)
- 2011 - DISA Computerized Foundry (DENMARK)
- 2010 - CNC Grinding Machine
- 2009 - Introduction of Metallurgical lab (Imported Machinery)
- 2008 - Induction Furnace (INDUCTOTHERM)
- 2007 - Introduction of Automatic Coil Winding Machines
- 2003 - Introduction of Computerized Inventory control
- 1999 - CNC Vertical Machining Centre (KIRLOSKAR)
- 1994 - First CNC Lathe Machine (KIRLOSKAR)
- 1993 - Introduction of DISA Moulding Machines
- 1990 - Foundry - Machine Moulding
- 1982 - CUPOLA FURNACE & Introduction of KIRLOSKAR Lathe Enterprise Machines
- 1974 - BUMA REBORING MACHINE (England)

#### Modernization:

- Technical know-how and Back-To-Basics for manufacturing "KUMAR" products in setting up a benchmark in the quality of Pumps Industry.
- Major marketing presence in major states - Andhra Pradesh, Tamil Nadu, Kerala, Karnataka, Orissa, Uttar Pradesh, Bihar.
- Products performance as per Bureau of Indian Standards (BIS) and Quality Control as per ISO 9001:2015 Quality Certification Standards.
- Manufacturing a superior quality product at reasonable cost
- Supported in improving nation-wide quality standards of pumps & motors
- Brand awareness across India & customers loyalty for "KUMAR" brand
- Reached the expectations of Quality-conscious customers
- Upgrading the technology year-on-year to compete and increase our market share
- A Quality product & Reliable after-sales door to door service to different target customers - Domestic, Agriculture and Industrial scope of customers.

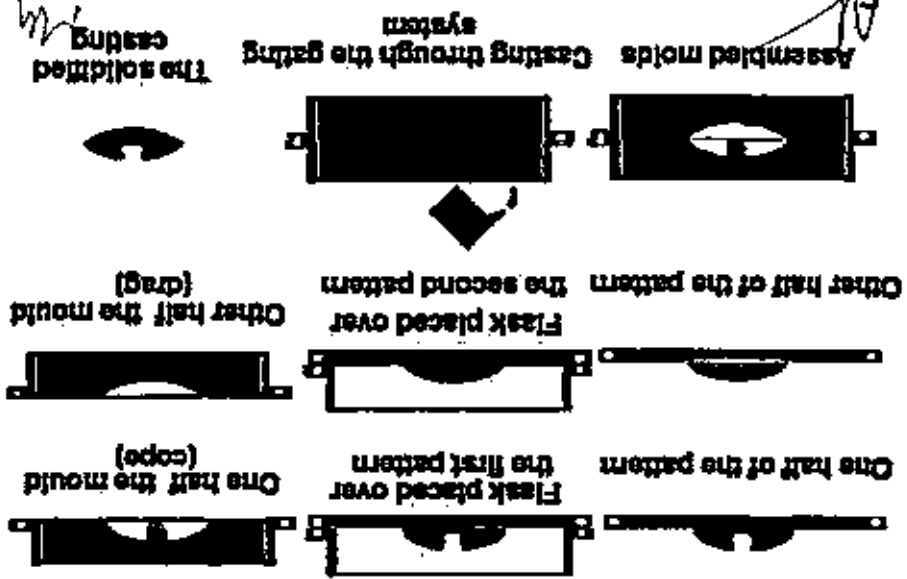

The images of their products:

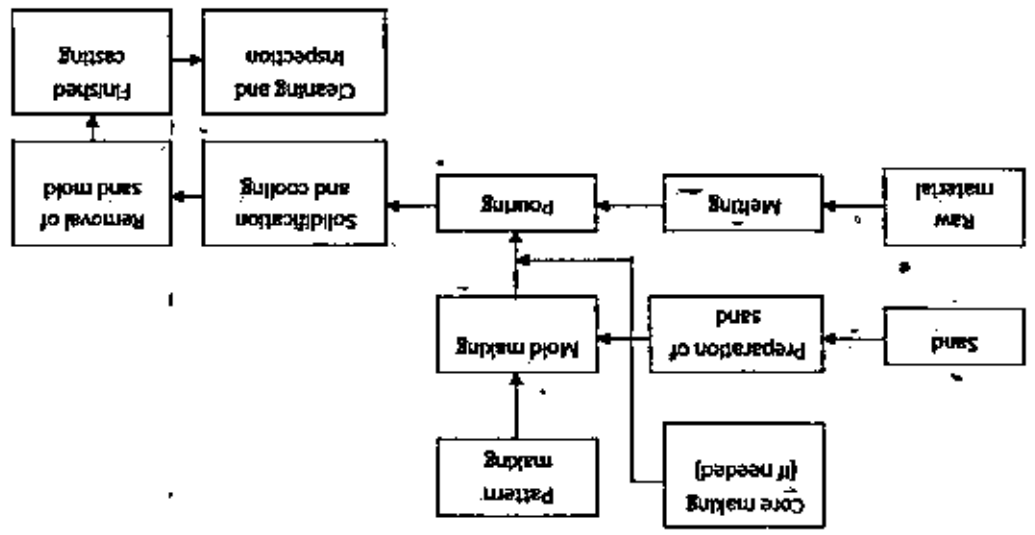

- Super Man Pumps
- Piston Pump
- Agriculture Monoblock Pump
- Jet Pumps
- Mini Mono Bloc Pump
- HI-Flow Pumps
- Submergible Pumps
- Self-Priming Mono block
- Hand Pumps
- Oil Engines
- AC Motors

They manufacture the following:

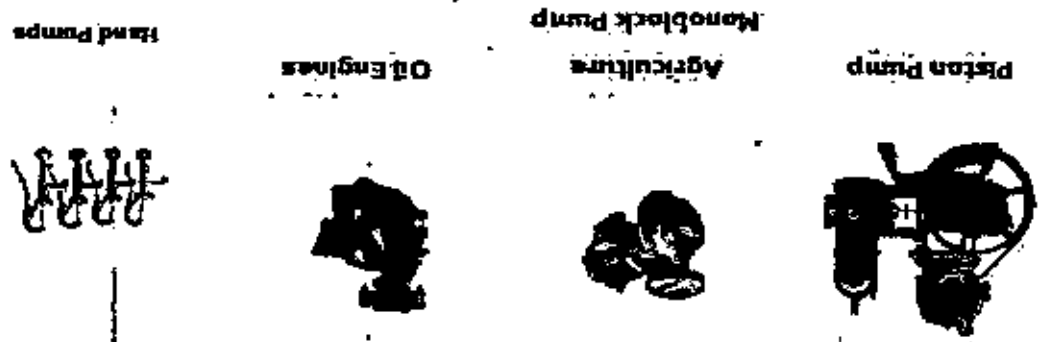

- "Samaran Award" by Income Tax Dept, Government of India in the year 2003.
- "PARISRAMIKA VIJETHA" Award for good credit record by Andhra Pradesh State Financial Corporation (APRFC) in 2003.
- "Best Entrepreneur" by Government of Andhra Pradesh in the year 1999.
- "Outstanding small scale Entrepreneur" by Government of Andhra Pradesh in the year 1997.

Sand Moulded Casting: It is a metal casting process characterized by using sand as the mould material.

The manufacturing process to produce the above mentioned products:

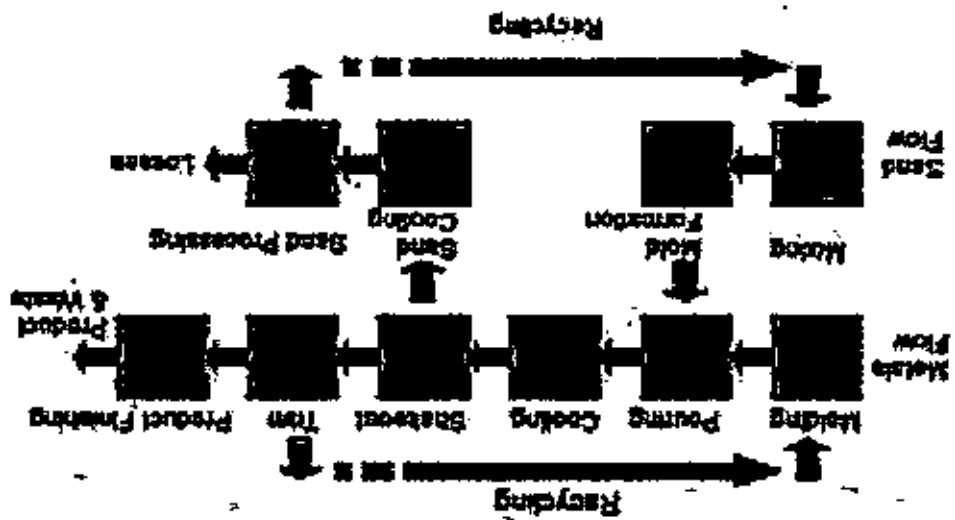

Sand castings are produced in specialized factories called foundries. Over 70% of all metal castings are produced via sand casting process.

Sand casting is relatively cheap and sufficiently refractory even for steel foundry use. In addition to the sand, a suitable bonding agent (usually clay) is mixed or occurs with the sand. The mixture is moistened, typically with water, but sometimes with other substances, to develop the strength and plasticity of the clay and to make the aggregate suitable for moulding. The sand is typically contained in a system of frames or mould boxes known as a flask. The mould cavities and gate system are created by compacting the sand around models, or patterns, or carved directly into the sand.

Steps in this process:

1. Place a pattern in sand to create a mould.
2. Incorporate the pattern and sand in a gating system.
3. Remove the pattern.
4. Fill the mould cavity with molten metal.
5. Allow the metal to cool.
6. Break away the sand mould and remove the casting.

### Sand Casting Process Flow Chart

They are using electric induction furnace to produce the liquid cast-iron.

CNC grinding and Machining: VMCs (Vertical Machining Centre) and HMCs (Horizontal Machining Centre) being used to machine the castings to get the required shape, additional holes, dimensions etc.

Post process operations: The following are being used before despatch the products

- Assembling
- Testing
- Painting
- Packing

Conclusion: The students understood the entire process of manufacturing the above mentioned products

Thanking you,

Details are given below:  
Date of visit : 18.03.2023 - Saturday (1 day)  
No. of students per visit : Around 50 students and 02 Faculty Members  
Starting time at NEC : 9.15 A.M  
Return to NEC : Around 8 PM

As discussed with you, we have arranged the industrial tour to Central Institute of Petrochemicals Engineering & Technology (CIPET) Vijayawada from our NEC for 2nd year B.Tech Mechanical Engineering students. For this, we need your approval for ONE College bus for to and fro travel between NEC and CIPET Vijayawada.

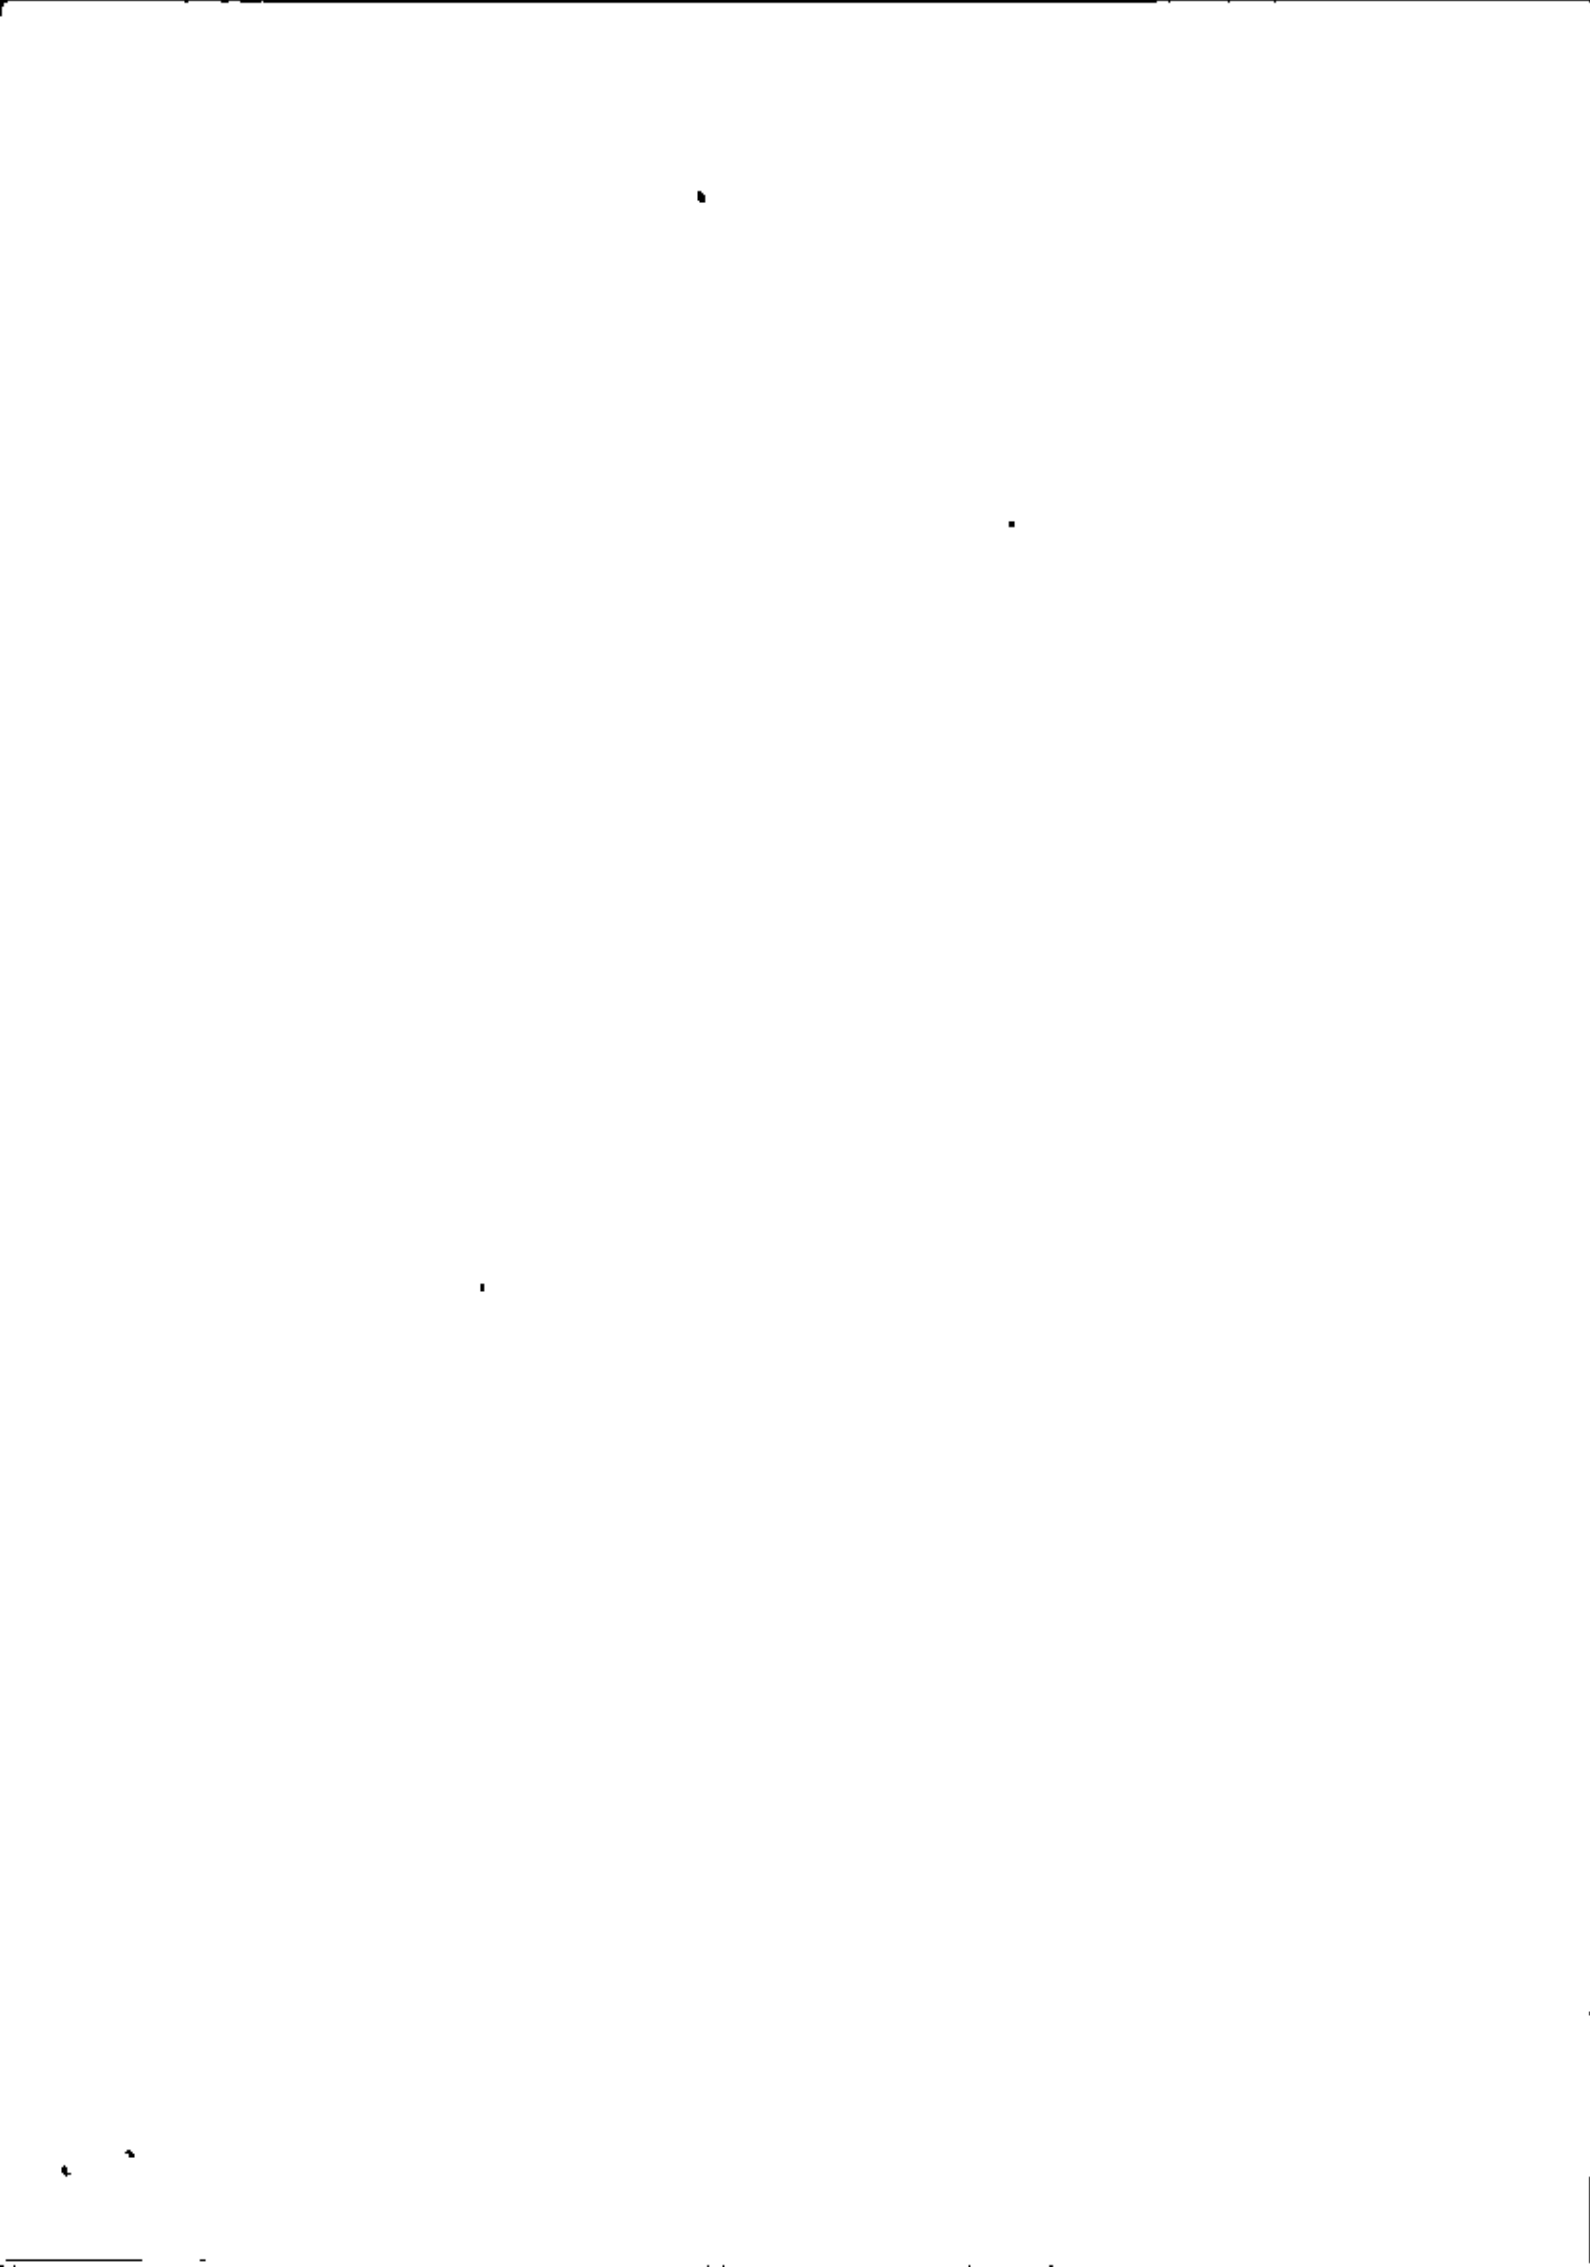

Sub: Industrial Tour to CIPET Vijayawada - Permission for College Buses

Respected Sir,  
To,  
The Principal,  
NEC

(Through Proper Channel)

From,  
Dr.P.Suresh Babu,  
Asso. Professor & Dy. Controller of Exam, Cell (Aut.),  
Industrial Tour Coordinator,

Dear Sir,

Sub.: Up-skilling Program on Plastics Processing Technology –reg.

Ref.: Your email dated 17.03.2022

With reference to the above, as requested by you, we can schedule the programs on 18.03.2023. The program fee for each participant will be Rs.100/- plus G.S.T ( Rs.118/-). During the program lunch will be provided for the participant.

Kindly confirm your acceptance by email for necessary action from our end.

Thanking You,

Yours faithfully

Babu J

Thanking you,

regulations.

We request you to kindly grant permission. We will abide your rules and visit your esteemed industry on 18.03.2023 along with our two faculty members. 2<sup>nd</sup> year Mechanical Engineering students of around 50 nos. of our college would like to practical knowledge and industrial exposure.

As a part of Academics students are required to visit industries in order to get the PG Courses M.Tech (S.E, P&ID, T.E, MD, DECS, DSCB, CSB), MBA and MCA courses. courses (CIVIL, EEE, ME, ECE, CSE, I.T, CSE (AI & ML), DS, Cyber Security, A+ grade, NIRF Ranked, approved by AICTE, New Delhi etc., The college offers 10 UG 1998. Ranked as top 4<sup>th</sup> Engineering College in A.P., Accredited by NBA and NAAC with Narasaraopeta Engineering College (Autonomous), Narasaraopet established in the year

During the initial project period between 1968 and 1973, the institute achieved the targets envisaged and was rated as one of the most successful UNDP projects implemented worldwide. Today CIPET is a premier Academic Institution for higher & technical education under the Ministry of Chemicals & Fertilizers, Govt. of India fully devoted in all the domains of plastics viz:- Design, CAD/CAM/CAE, Tooling & Mould Manufacturing, Production Engineering, Testing and Quality Assurance. CIPET operates from various locations spread across the country to cater the needs of the Polymer and allied Industries.

The main objective of setting up of this specialized Institute was to develop manpower in different disciplines of Plastics Engineering & Technology as no similar Institute was in existence in the country. International Labour Organization (ILO) served as the executing agency.

Central Institute of Petrochemicals Engineering & Technology (CIPET) (formerly known as Central Institute of Plastics Engineering & Technology (CIPET)) was established in 1968 by Government of India with the assistance of United Nations Development Programme (UNDP) at Chennai.

#### About the CIPET:

Mr. Balu J  
VTC In-charge  
CIPET:CSIS, Vijayawada  
Email: [stccipetvjayawada@gmail.com](mailto:stccipetvjayawada@gmail.com)

Address:

below:

The industry is located near Vijayawada of Krishna District, A.P. The detailed address is given below:

As a part of Academics students are required to visit industries in order to get the practical knowledge and industrial exposure. Hence, 50 students of 2<sup>nd</sup> year II Semester students of Mechanical Engineering had visited the "Central Institute of Petrochemicals Engineering & Technology (CIPET), Vijayawada" on 18<sup>th</sup> March 2023, accompanied by two faculty members in college buses

Report on Industrial Visit to CIPET by NEC 2<sup>nd</sup> B.Tech 2<sup>nd</sup> Sem  
Mechanical Engineering Students (2021 Batch) on 18th March 2023

## SHORT TERM SKILL DEVELOPMENT PROGRAM

IPET's mission is in line with the National Policy on Petrochemicals - to increase trained manpower for catering to the demand of the industry and thus in turn increasing employability while contributing towards the nation's growth. In order to cater to the needs of the ever-growing Plastics and allied industries nationally, CIPET has evolved a range of training programs. This has made us one of the only nationally recognized institute to provide workforce training which combines Vocational Training Programs with Industry Skills Updating Programs.

### Areas skill development programs:

- Design / Tooling / CAD / CAM / CNC Program
- Product Development / Processing of Plastics / Machine Maintenance
- Testing and Quality Improvement
- Welding & Fabrication
- Electrical, Electronics, Hardware & Networking
- Industrial Automation & Maintenance
- Information & Communication Technology

These skill development programmes conducted at CIPET centres are National Skills Qualifications Framework (NSQF), aligned and approved by National Skills Qualifications Committee (NSQC).

Armed with an excellent infrastructure in terms of technology and highly qualified engineers / scientists, CIPET renders technical, consultancy and advisory services to polymer and allied industries in different fields of Polymer Science & Technology such as:

- Application development in all disciplines of Plastics Engineering & Technology
- Testing and standardization for Plastics materials and products
- Design and development of moulds and dies
- Material selection for new products
- Machinery and equipment selection
- Setting up of tool room / processing industries
- New trends in Plastics processing technology
- Technical Support to the industry in product design / mould design, product failure analysis with the help of CAD / CAM / CAE
- Training Programmes on QMS & Internal Audit and measurement of uncertainty in testing laboratory
- Consultancy Services on Implementation of Quality Management Systems (QMS)
- Setting up of laboratory as per National & International Standards

MARASARAOPEETA ENGINEERING COLLEGE  
 (AUTONOMOUS)  
 Guntur (Dist), A.P.  
 MARASARAOPEETA - 522 601  
 PRINCIPAL  

CIPET's Plastics Testing Center (PTC) is a standout amongst other plastics testing organizations in Asia. CIPET's testing labs are accredited with ISO/IEC-17025 standards by National Accreditation Board for Testing and Calibration Laboratories (NABL) and furthermore approved by Bureau of Indian Standards (BIS) for third party certification of plastic products as per various Indian standards.

Equipped with the advanced appliances for Plastics Testing, CIPET has focussed on a wide range of testing which are accredited with ISO/IEC - 17025 Guidelines by National Accreditation Board for Testing and Calibration Laboratories (NABL). CIPET also gives the complete scope of investigation of polymers, plastics and composites and gives best administrations to the Plastic and unified ventures by embracing assignments of plastics materials/items/composites testing according to reputed National and Global models.

## TESTING

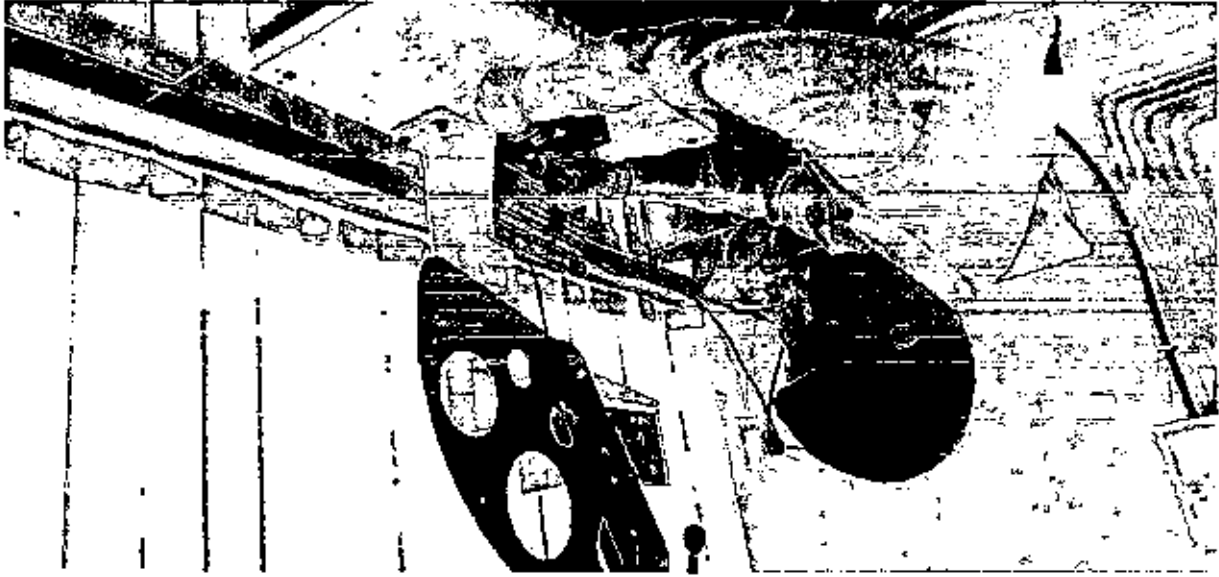

- Testing of mouldability and optimization of processing conditions / parameters.
- Inspection and evaluation of moulds and dies and moulding of precision components.

As a measure of providing hands on training to the students on commercial moulding using various process parameters and processing of different plastic materials, CIPET is undertaking precision job orders in the areas of:

CIPET Centres are equipped with the state-of-the-art machinery for processing like two color Injection moulding machinery, microprocessor-controlled machinery, all electric machinery, multilayer blown film machinery, stretch blow moulding machinery, roto-moulding etc.

## INSPECTION

CIPET Inspection Services - Is a third party independent inspection agency. CIPET is one of the first Government of India Educational Institution which is accredited with ISO/IEC: 17020 (General Criteria for the operation of various types of bodies performing inspection) Type - A Inspection body in the field of plastics, metals and associated items. Pre and Post Delivery Inspection Services are offered to our elite customers.

CIPET helps the buyers in buying the correct items and the manufacturers enhancing their quality reliability. With the philosophy of giving steady support for customers, CIPET offers the following inspection services:

- Third party independent inspection services;
- Determining the quality of the product for both the manufacturers as well as the suppliers.

CIPET has specialized experts and is always prepared for monitoring of different streams with rich involvement in review of different Plastics, Metals and associated items. CIPET guarantees the outstanding amount of precision and honesty in the execution of investigation and inspection administrations.

## CALIBRATION

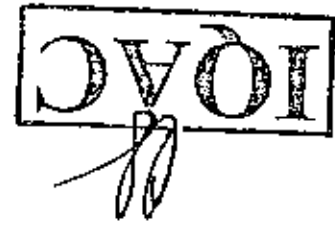

Accredited with ISO / IEC: 17025 standards by National Accreditation Board for Testing & Calibration Laboratories (NABL). The CIPET's calibration laboratory at Lucknow is equipped with high accuracy master equipments, trained personnel and adhere to strict environmental conditions. The centre provides quality instrument calibration services to manufacturing, research and development, testing and engineering organizations nationwide.

## DESIGN / CAD/CAM/CAE

Enhanced with the latest workstations and programming, the Design and CAD/CAM/CAE branches of CIPET provides world class technology and engineering services. With an excellent combination of engineering knowledge, software skills and industrial experience, CIPET offers a wide range of engineering services in CAD, CAM and CAE that results in fulfilling the design and engineering requirements of the global customers. The department provides services to the plastic and allied industries in the following areas.

- 3D solid Modeling
- Plastics Product Design and Mould Design

NARASARAOPET TOOL ENGINEERING COLLEGE  
 (AUTONOMOUS)  
 NARASARAOPET - 522 601,  
 Guntur (Dist.), A.P.

Tool Room of all CIPET Centres focus towards making it a perfect apparatus space for any Tool maker. All CIPET tool rooms are furnished with ultramodern, state-of-the-art machines and CNC machinery that enable the centres to handle commercial job assignments for mould fabrication, high precision machining and manufacturing of standard mould bases for plastic products of any profile, shape or complexity. Besides, the tool rooms also undertake job orders of varying magnitude such as repair of moulds and dies, CNC machining, CNC spark erosion, grinding, drilling, designing, development of jigs and fixtures, tool parts etc.

**TOOL ROOM**

- MASTERCAM X2
- Solid Edge
- IDEAS
- CIMATRON
- UG MOLD WIZARD
- LS DYNA
- Pro - Engineer
- Unigraphics
- CATIA
- AutoCAD
- ANSYS
- Hypermesh
- Moldflow

**MAJOR SOFTWARE RESOURCES**

- Plastics Flow analysis
- Failure analysis
- Finite Element Analysis (FEA)
- Reverse Engineering
- Rapid tooling
- Product / mould design validation
- Optimization of process parameters
- Manufacturing Automation
- Rapid prototyping and Rapid tooling
- CAD / CAM / CAE software training

Students are satisfactorily understood all the machinery and processes available in the industry.

Conclusion:

Thanking you,

Yours faithfully

We request you to kindly grant permission. We will abide your rules and regulations. 2nd year Mechanical Engineering students of around 60 nos. of our college would like to visit your esteemed industry on 02.11.2022 along with two faculty members. As a part of Academics students are required to visit industries in order to get the practical knowledge and industrial exposure.

The Narasaraopeta Engineering College was established in the year 1998, approved by AICTE, permanently affiliated to JNTUK Kakinada, Accredited 'A+' Grade by NAAC and Accredited four times by NBA. NEC accorded 'AUTONOMOUS' status since 2016. NEC is ranked among top 300 engineering institutions in India rankings (NIRF 2022, 251-300 band) by Ministry of Education, Govt. of India. Also NEC ranked as top 4th Private Engineering College in AP as per Times Engineering Institute Ranking Survey-2022. INDIA TODAY Ranked NEC as 178 among Private Engineering Colleges in India. The college offers Seven M.Tech programmes, Two PG courses of MCA, MBA and Ten courses at B.Tech level in the branches EEE, CSE, CSE(AI), CSE(AI&ML), CSE (DS), CSE(Cyber Security), IT, ECE, ME and CIVIL.

Respected Sir,

Sub: Industrial Tour to Mittapalli Spinners - Permission for College Buses

As discussed with you, we have arranged the industrial tour to Mittapalli Spinners,  
Narasaraopet from our NEC for 2<sup>nd</sup> year B.Tech students of Mechanical Engineering on  
02.11.2022. For this, we need your approval for our College bus for to and fro travel between  
NEC and Mittapalli Spinners.

Details are given below:

|                           |                                             |
|---------------------------|---------------------------------------------|
| Date of visit             | : 02.11.2022 - One bus                      |
| No. of students per visit | : Around 55 students and 02 Faculty Members |
| Starting time at NEC      | : 10.00 AM                                  |
| Return to NEC             | : Around 12.30 PM                           |

Thanking you,

Yours faithfully

Report on Industrial Visit to Mittapalli Spinners by NEC II B.Tech  
Mechanical Engineering Students (2021 Batch) in Nov.2022

As a part of Academics students are required to visit industries in order to get the practical knowledge and industrial exposure. Hence, the II Year I Semester students of Mechanical Engineering had visited the Mittapalli Spinners Limited, Narasaraopet on 02.11.2022 accompanied by two faculty members.

The industry is located near Narasaraopet of Guntur District, A.P. The address of Mittapalli Spinners is given below:

Address of Kumar Pumps

The General Manager,

Mittapalli Spinners Limited,

Kolpakkonda Road,

China Turakapalem(P.O),

Narasaraopet-522 601,

Guntur Dist, A.P.

Ph.: 08647-222450, 9581442 701, 9652616666

Email : gm@mittapallispinners.com

About the company:

Mittapalli Spinners Limited is a Public Incorporated and is classified as Non-govt Company. It is involved in Spinning, weaving and finishing of textiles. It produce high quality yarn of all types by using raw cotton

Machinery & The Process Details:

The following are the details of machinery and process details

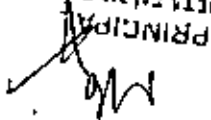

• Mixing:

An uniform end product consistently from highly variable characteristics of input fibres, mixing of different lots is done.

• Blow room:

Blow room consists state of art machines that carry out Opening, Cleaning, thorough Mixing and decreasing the butt size smaller and smaller, to feed material to Carding uniformly and continuously. Blow Room line is equipped with world class technology cotton contamination sorter like JOSSI.

IOAOC  

The object of Simplex is to produce roving suitable to feed Ring frame by means of attenuation - drafting of sliver, twisting the drafted strand and winding the twisted roving on a bobbin. The machinery is equipped with automatic tension controls to produce better quality of roving in order to get best quality of yarn.

• Simplex:

The object of Fr. draw frame is to double and draft the slivers and thereby make even sliver, parallelization of fibres and auto levelling of linear density variations in feeding to get constant linear density of output sliver.

• Fr. Drawing:

Combing is the process which is used to upgrade the raw material and to produce an improvement in yarn quality by elimination of short fibres, elimination of remaining impurities and elimination of neps.

• Comber:

The object of Lap Former is preparation of Lap from slivers with optimum parallelized fibres and feeding of trailing hooks from Carding as leading hooks at Comber to reduce long fibre loss in the noil.

• Lap Former:

The object of draw frame is to double and draft the slivers and thereby make even sliver and parallelization of fibres i.e. hooks created at Carding are removed. The Machines are equipped with 1000mm cans to avoid no. of joints which directly affects quality of final yarn.

• Br. Drawing:

"Card is the heart of the spinning mill" and "Well carded is half spun" are two proverbs of the experts. The purpose of Carding is to open tufts to individual fibres, neps reduction, elimination of dust and orientation of fibres into sliver form. In Our Installation we are having a flexibility to run different processes.

• Carding:

The related images of the company:

In Packing Section they check each and every Cone for visual defects and UV light inspection with the help of this practice they are able to build the confidence of their valued customers for better in supply of better quality yarn. They can produce the package as per the customer requirement.

• Packing:

The object of Autoconer is to eliminate the faults and contamination in yarn and joining the ends with splice and winding of long and continuous yarn into conical shape to facilitate at further processes. The latest art of technology's LINK CONERS equipped with AUTO DOFFERS. With the help of these machines they are totally avoiding manual handling which will directly help them in maintaining best quality of yarn.

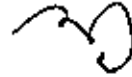

• Autoconer:

Functions of Ring frame are to draft the roving until the required fineness is achieved, to impart strength to the fiber, by inserting twist and to wind up the twisted strand (yarn) in a form suitable package. The Machinery is equipped with complete auto doffing and link system. By introducing this system, they are able to reduce material handling and avoid unwanted stain marks on yarn. With this auto doffing facility on their ring frames they are having more flexibility in producing wide range of counts.

• Spinning:

**ACKNOWLEDGEMENT**

We are highly indebted to the General Manager (HR&S) who explained the about the production process Of Jocil limited, Dokkiparu

We convey our special thanks to our faculty Mr. V. Suresh and Mrs. S. Salma who accompanied with us and clarified our doubts and take care of us till the end of our visit

We convey our special thanks to our Industrial visit coordinator Mr. T. Mallikarjuna Rao who cooperated us to make this visit successful. We articulate our profound gratitude to Dr. P. Pattabhi Ram, Head of the Department of Master of Business Administration for his indispensable encouragement to visit the industry.

We convey our special thanks to our honorable principal Dr. M. Sreenivasa Kumar for his immense motivation. We sincerely thanks to our college management for providing bus facility to visit the Industry.

On receiving the letter of permission from JOCIL LTD, Dokkiparu, Guntur district, 1<sup>st</sup> Year MBA 62 students with three faculty members (Mr. T. Mallikarjuna Rao, Mr. Y. Suresh and Mrs. S. Salma) went to the industrial visit.

Before starting our journey we have taken a group photo with respectable HOD Dr. P. Patrabhi Ram. We have started at 10:00 a.m. from the college.

### GROUP PHOTO:

Students visit Plant Of the JOCIL Limited, manufacturing unit of toilet soaps , Dokkiparu on 16-06-2022. They have seen different operations in manufacturing unit like oil spilling, fractionation, distillation, flaking, evaporation, sweet water treatment, and forming the byproducts like steric acid, distilled fatty acids, fatty acid pitchon, frictional fatty acids, soap noodles, industrial oxygen and non-i.c.u oxygen and the main products like various types of brands of toilet soaps of 15 products like

Dear Sir,

Sub: Request to visit your plant Sangam Dairy - Reg. \*\*\*

Narasaraopeta Engineering College, Narasaraopeta, established in the year 1998. The college offers 10 UG courses (CIVIL, EEE, ME, ECE, CSE, IT, CSE (AI & ML), CSE (Cyber Security), CSE (Data Structure), PG Courses M.Tech (DECS, DSCE, P&ID, CSE, Thermal Engineering, Machine Design, Structural Engineering), MBA and MCA courses. We are offering MBA course in our college for the past 17 years. As a part of Academics, students are required to visit industries in order to get practical knowledge and industrial exposure.

2<sup>nd</sup> year MBA students of our college would like to visit your esteemed industry for 1 day. The batch consists of 60 students and three faculty members visit your industry. We request you to kindly grant permission and confirm the dates of the visit at your convenience. We will abide by your rules and regulations.

Thanking you.

Yours faithfully

Principal

REPORT ON ONE DAY INDUSTRIAL VISIT

DEPARTMENT OF MBA

(AUTONOMOUS)

PRINCIPAL  

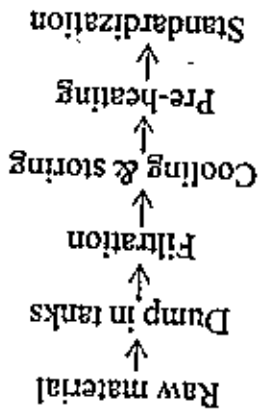

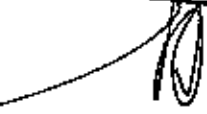

On taking a group pic with HOD sir and other faculty members we started at 9:40 a.m. from the college. During the journey we enjoyed a lot. We reached sangam dairy by 12:00 p.m. The company follows strict rules such as even cell phones and other electronic equipment are not allowed. The company guide explained the company rules and regulations. process of making and converting the milk. With the help of guide we have entered the production process of milk.

Subject: Report on the One-day industrial visit

On receiving the letter of permission from SANGAM DAIRY, VADLAMUDI, 68 students with three faculty members (Mr. Sridhar, Mrs. S. Salma) started for the industrial visit.

We visited SANGAM DAIRY ON 10/02/2023. We all assembled at the college by 9:00 a.m.

PROCESS OF MILK

- Ghee is from the cream obtained
  - Cream is obtained from excess fat in the milk process
  - Toned milk is a 100% of milk being processed
  - > The packed milk packets are stored under 2 degrees for better taste of milk
  - > Milk is packed in sangam dairy packets with AGMARK label
  - > These milk packets are distributed around Guntur and prakasam districts
  - > More than 6 lakh milk packets are packed during season times
  - > More than 4 lakh milk packets are being packed and distributed during un-season times
  - > The removed cream is sent to cream section and is used when there is less amount of milk received.
  - > Later it is sent for homogenisation
  - > The received milk is being pasteurized with heat of 78 degrees
  - > The principal raw material is milk from raw milk production (RMP)
- We asked some questions relating to production process and the guide clarified the doubts.

## GHEE PROCESSING

The critical point for boiling of butter is  $112^{\circ}\text{C} - 118^{\circ}\text{C}$

Butter > melting vat · ghee boilers

melting at  $85^{\circ}\text{C} - 90^{\circ}\text{C}$  for 2 hrs

removal of water

cooking butter oil till it reaches  $112^{\circ}\text{C}$  to  $118^{\circ}\text{C}$

setting 1hr in ghee boiler → filtering ghee in muslin cloth · setting for 1-2 hrs in ghee

setting tanks

filtration process & temperature adjustment

final tank filling at  $43^{\circ}\text{C} - 48^{\circ}\text{C}$  → cleaning with vacuum cleaners · filling & packing

transferring to granulation at  $20^{\circ}\text{C} - 23^{\circ}\text{C}$  for 1-2 days · sticking agmark labels

check for granulation → issue to FG section

Later we visited the HR manager of sangam dairy and had few words with him

*7/29/2023*

Dear Sir,

Sub: Request to visit your plant - Reg.\*\*\*

Narasaraopeta Engineering College, Narasaraopet established in the year 1998. The

college offers 10 UG courses (CIVIL, EEE, ME, ECE, CSE, IT, CSE (AI & ML),

CSE (Cyber Security), CSE (Data Structure), PG Courses M.Tech (DECS, DSCE, P&ID,

CSE, Thermal Engineering, Machine Design, Structural Engineering), MBA and MCA

courses. We are offering MBA course in our college for the past 17 years.

As a part of Academics, students are required to visit industries in order to get

practical knowledge and industrial exposure.

1<sup>st</sup> year I SEM MBA students of our college would like to visit your esteemed

industry for 1 day. The batch consists of 60 students and three faculty members visit your

industry. We request you to kindly grant permission and confirm the date of the visit at your

convenience. We will abide by your rules and regulations.

Thanking you,

Yours faithfully,

Thanking you sir,

Finally we met with Mr. Shashidhar C. General Manager (HR&S) He interacted with the students and gave his valuable suggestions for their carrier.  
Thanks to our principal Dr. M. Sreenivas Kumar and my HOD Dr. P. Pallabhi Rani who permitted us to go on the visit.  
Finally thanks to our faculty members Mr. T. Mallikarjunarao, Mr. Aravind sir and Mrs. S. Salma mam who accompanied us and with these people cooperation we visited the wonderful place.

The process of spinning mill contains 9 steps they are BLOW ROOM, CARDING, THREADING, PROPERTRY, SIMPLEX MACHINES, RING FRAME, AUTO CONNING, UV GAURDING, PACKING and SCHEDULED DELIVERIES .  
The company will not get any subsidies due to the company started with the GOVT Industrial policy of 200 policy, they have hired an adroit team of employees, which keeps themselves abreast with advanced manufacturing techniques and designs. Further, we also have a quality control unit, wherein, they check our entire range on defined parameters like design, quality and finish. All units and equipped with all the essential tools, machine, and technology in order to manufacture a high-quality range of products.
