INVITATION

Date: 03-10-2022.

Sub: - "IoT Enabled PLC " - Reg.

Dear Sir/Madam,

We are glad to inform you that the department of Electrical and Electronics Engineering is organizing a "A Short Term Course on" IoT Enabled PLC" from 10th October 2022 to 14th October 2022 in association with NITTTR – Chandigarh.

We are enclosing a copy of brochure with full details and request you to display it on your notice boards and distributed to your faculty members.

This training programme is specially designed for Engineering College Teachers and it mainly deals with various aspects of IoT Enabled PLC. The course aims to achieve the following objectives:

-To update the knowledge in the emerging and upcoming topics in the subject area.

- To make the teachers conversant with relevant practices in IoT Enabled PLC

- To make the participants acquainted with PLC,

This Course mainly deals with various conceptual aspects of IoT Enabled PLC.

The main contents of this course is

- Industrial Automation
- Introduction to PLC
- Ladder Logic Programming of PLC
- Practical Demonstration of Allen Bradley PLC
- IoT Enabled PLC
- Automation Techniques Using PLC
- Industrial Applications of PLC

With Regards,

ABOUT THE COLLEGE

The Narasaraopeta Engineering College was established in the year 1998 by Gayatri Educational Development Society, Narasaraopet, under the leadership of Sri M.V.Koteswara Rao, who has a vision of developing this college as an autonomous institution of higher learning & knowledge in the heart of Palnadu region. The college is approved by AICTE, permanently affiliated to JNTUK Kakinada, Accredited 'A' Grade by NAAC, Accredited thrice by NBA and ISO 9001: 2008 certified. The college has three recognized R&D centers by JNTUK. NEC is conferred as 'AUTONOMOUS' in the year 2016. The college has launched Incubation Centre where the students can implement their ideas. The college has an MOU with Oracle University (USA). NEC has MOUs with various Foreign Universities. The college offers seven M.Tech Programmes, two PG courses of MCA, MBA and five courses at B.Tech level in the branches EEE, CSE, ECE, ME and CIVIL. The college has well equipped laboratories including 1000 computers with a bandwidth of 100 MBPS internet. Microsoft Innovation Centre was established in the college through which more than 200 Mobile Apps, 50 Cloud Apps and 100 Windows Apps are uploaded every year.

The college has established venture development Centre (VDC) in association with in association with i2E north-eastern university USA and APSSDC. Also the college has Indo-European skilling Centre for mechatronics and industrial robotics in collaboration with APSSDC and ARC (Applied Robot Control), Germany.

ABOUT THE DEPARTMENT

The Department of EEE started in the year 1998, EEE department offers an AICTE-approved four-year undergraduate programme (B.Tech) in Electrical & Electronics Engineering. The JNTU-Kakinada-affiliated department is twice accredited by the NBA, in 2009 & 2013, and is certified by the ISO. EEE course offers expertise in electrical machines, power electronics, generation, transmission and distribution of power, power system operation and its control using computer methods such as artificial neural networks, Fuzzy Logic, micro-controllers and more. The department conducts research programs, seminars, and workshops to widen the knowledge base of students and faculty members. By the end of the four years, our students are equipped to become professionals, scholars, academicians, researchers, and entrepreneurs right from the inception of the college, boasts of well experienced and technically excellent faculty members. The department imparts knowledge and skills to inculcate the professional responsibilities, leadership qualities to succeed in diverse career, capability to utilize engineering skills in industry. The department faculty encourages the students to implement innovative ideas in their project works, to develop industry readiness and R&D.

We accept your invitation to host FDP/STC ICT-132 as local coordinator/ remote center at NARASARAOPETA ENGINEERING COLLEGE from 10.10.22 to 14.10.22 to be conducted by National Institute of Technical Teachers Training and Research Chandigarh.

Dr.P.Lakshmanan, lakchandp@gmail.com ,9494990832 will be the coordinator and Mr.P.D.V.S.K.KISHORE Ancillary staff for conducting the FDP at NARASARAOPETA ENGINEERING COLLEGE

Our NARASARAOPETA ENGINEERING COLLEGE is AICTE approved Institute. This Institute will provide all necessary facilities for hosting this FDP. More than 25 faculty members are expected to join the program. We understand that there is no fee for faculty members participating from AICTE approved Institutes / Departments. However, Students to pay 590/-(inclusive of GST).The faculty members from non- AICTE approved Institutes and other category of participants have to pay fee as per NITTTR Chandigarh rules (i.e Rs 5900/- or as applicable).

Course Content:

- provide basic knowledge on the technical aspects of the Solar PV Energy
- provide practical and real time experience on various applications of Solar Energy
- Design of Solar Photo Voltaic System along with Installation and Maintenance
- Design, install and maintain your own solar Photo Voltaic projects
- System Design for a given load and site conditions – Calculation of total load – Calculation of Module Capacity – Determining the number of series and parallel connection of Modules
- Connecting the batteries as per the design – Checking for the required Voltage and Charge rate
- Tool Kit – Need for maintenance – Battery Maintenance – Solar Module cleaning – Identifying the trouble – Testing every component – Problem solving
- Assembly of designed solution – Battery Parallel and series connection – Assembling Grid tie system with string inverters and micro inverters – Shading Effect on Modules – Lightning Arrestor – Grounding Demonstration

ABOUT THE COLLEGE

The Narasaraopeta Engineering College was established in the year 1998 by Gayatri Educational Development Society, Narasaraopet, under the leadership of Sri M.V.Koteswara Rao, who has a vision of developing this college as an autonomous institution of higher learning & knowledge in the heart of Palnadu region. The college is approved by AICTE, permanently affiliated to JNTUK Kakinada, Accredited 'A+' Grade by NAAC and Accredited four times by NBA. NEC accorded 'AUTONOMOUS' status since 2016.

NEC is ranked among top 300 engineering institutions in India rankings (NIRF 2022, 251-300 band) by Ministry of Education, Govt. of INDIA. Also NEC ranked as top 4th Private Engineering College in AP as per Times Engineering Institute Ranking Survey-2022. INDIA TODAY Ranked NEC as 178 among Private Engineering Colleges in INDIA. The college has approved research centres by JNTUK, Kakinada in CSE, ECE and Mechanical Engineering Depts. The college has launched Incubation Centre where the students can implement their ideas. NEC got approved for "NIDHI Technology Incubator" by Dept of Science & Technology, New Delhi.

The college has signed 37+ MoUs with reputed industries and International & National organizations like Red Hat Academy, Efftronics Systems Pvt. Ltd, Bytexo., New Mexico State University (NMSU), New Mexico, USA, TiE Hyderabad, Edu Skills etc. The college offers Seven M.Tech programmes, Two PG courses of MCA, MBA and Ten courses at B.Tech level in the branches EEE, CSE, CSE(AI), CSE(AI&ML), CSE (DS), CSE(Cyber Security), IT, ECE, ME and CIVIL. The college has well equipped laboratories and computers. The college has well experienced and dedicated faculty out of which 72 faculty hold Doctorate Degrees while 78+ patents and 416+ Publications (over last five years), 36 Books were onto the credit of faculty. The college has AP CM's Excellence centre, AI Centre of Excellence & Deep Learning in association with BENNETT University, New Delhi. Also, the college has Indo-European skilling Centre for Mechatronics and Industrial Robotics in collaboration with APSSDC and ARC (Applied Robot Control), Germany. Dassault Systems Lab is established in association with APSSDC to provide access to the students on most advanced courses by industry giants. Narasaraopet is known as the gateway of Palnadu. Narasaraopet is District Head Quarters of newly formed PALNADU District and is on the railway line of Guntur to Guntakal. Narasaraopet is 50 Km from Guntur and 25 Km from Chilakaluripet (NH5) by road. Narasaraopet is 120 Km away from Vijayawada Airport. Kotappakonda is the site of major religious pilgrim place of Lord Siva which is located 5 Km from

PROGRAME REPORT

Name of the Programe : A one week workshop on "Designing Solar PV Systems"

Dates : 26 th September to 30th September,2022

Details of the Resource Persons :

1. Name : Mr.Purusotham Chary
   Designation : Manager
   Organization : GVET,Hyd
   Phone No : 9849485796
   Mail.Id : chary9@gmail.com

Objective of the programme:

This training programme is specially designed for Engineering College Students and it mainly deals with various aspects of PV Solar Panel Designing. The course aims to achieve the following objectives:

Components of a Solar Photo Voltaic System

Solar Modules.

Mounting Structures and Balance of Systems

Installation, Maintenance and Trouble Shooting

System Design

Inverter and Charge Controller.

Assembly of designed solution.

Inverter and Charge Controller.

Topic Covered:

provide basic knowledge on the technical aspects of the Solar PV Energy

The International Conference on **Recent Trends in Power Systems and Power Electronics-2K22(NEC-ICPSPE-2K22)** was organized during 22nd and 23rd July, 2022, by **Department of Electrical and Electronics Engineering , Narasaraopeta Engineering College**, Narasaraopet, Andhra Pradesh, India. The NEC-ICPSPE-2K22 is conceived as a forum for presenting and Exchanging Ideas and Results of the best- in- class research and scientific results emerging in the field of Power Systems and Power Electronics.

The sincere effort of the program committee members and organizing committee members coupled with indexing initiatives from conference advisory committee members have drawn a large number of high-quality submissions from students, research scholars, and faculty members all over India and abroad. All the accepted papers are published in "**Proceedings on Recent Trends in Power Systems and Power Electronics (NEC-ICPSPE-2K22) with ISBN number**. The Conference brings together the delegates from around the world and from a range of institutions and organizations to exchange ideas and discuss the challenges in and its emerging technologies.

The Conference is structured with keynote session by eminent professor followed by three technical sessions which were chaired by distinguished faculty of outstanding institutions in the country.

The **NEC-ICPSPE-2K22** was organized through online mode via the Microsoft Teams platform. The inaugural function of (NEC-ICPSPE-2K22) was started by welcoming all the dignitaries, delegates, and participants to the Conference by Dr. Sk.Md.Shareef, Assoc.Professor, Department of Electrical and Electronics Engineering and Co-Convener of **NEC-ICPSPE-2K22** addressed the gathering by giving the welcome note on **NEC-ICPSPE-2K22.** Then **Dr. P.Lakshmanan** , Professor & Head, Department of EEE and Conference Convenor addressed the gathering. Then the Principal and Conference Co-patron Dr M.Sreenivasa Kumar address the gathering. The Keynote speaker of **NEC-ICPSPE-2K22**, Dr.Umashankar Subramaniam, Associate Professor and Distinguished Researcher in renewable energy lab, College of Engineering, Prince Sultan University, Riyadh, Saudi Arabia addressed the gathering. The inaugural function of **NEC-ICPSPE-2K22** was concluded with Vote of thanks by Mr.G.Nagaraju, Assoc.Professor, Department of EEE.

keynote speech was presented by:

Dr Umashankar Subramaniam, Associate Professor and Distinguished Researcher in renewable energy lab, College of Engineering, Prince Sultan University, Riyadh Saudi Arabia. He co-established the **Renewable Energy Lab** (REL) and directed towards the **Renewable Energy and EV** related research and projects as per the 2030 vision of Saudi Arabia and united nations SDGs. He is also a part of **2030 international steering committee** for global ranking and **Global Distinguished Expert** at ***Global Education Policy Network*** towards goals. He is a **Chair/Co-Chair** of international workshops and prestigious e worked as Associate Professor and Head, Department of Energy, VIT, Vellore, has 15+ years of teaching, research, and industrial R&D experience. Also, he worked as **Senior R&D Engineer** and Senior Application Engineer in the field of power electronics, renewable energy, and electrical drives in Top companies like GE Energy, Pactron Inc. He had also taken leadership roles like *Department Head, Rankings and Accreditation, CoE Establishments*, University's purchase committee and Rooftop Solar PV Installation, *Industry Engagements*, Placement & Internship, *Digital lecture and Online Courses*, *Industry Collaborative Projects* and *Vice-Chairman – IEEE* Professional Societies.

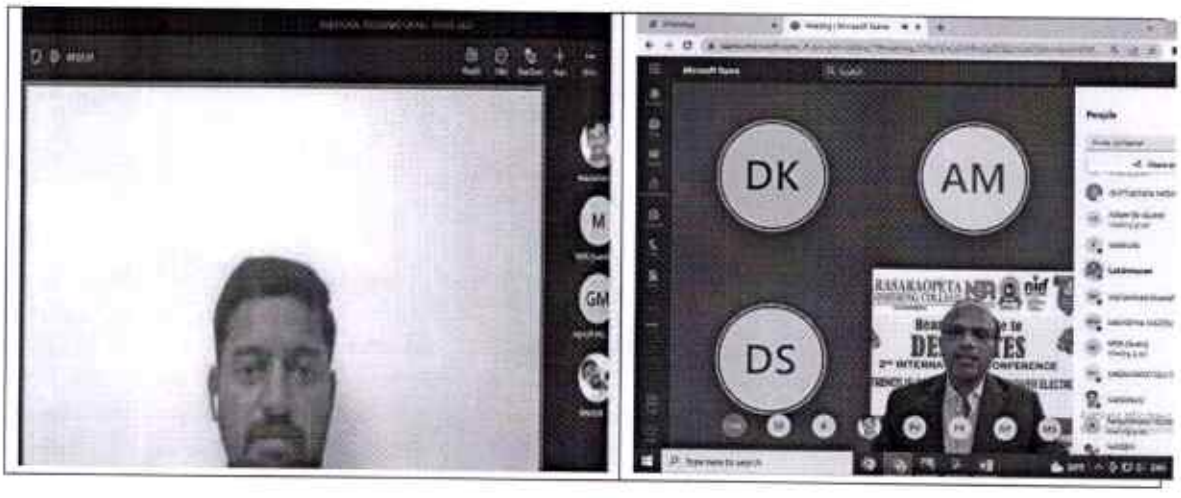

He is a **Senior Member in IEEE**, and Member of *PES*, and *ISTE*. He is an **Execom Member** of IEEE **PES Saudi Arabia** Section(R8-Gulf) from **2021** and Organising member for IEEE **PELSYS 2021**. He held positions as **Vice-Chair - IEEE Madras Section** and **Chair - IEEE Student Activities** from 2018-2020. He was an executive member (2014-16) and Vice-Chair of IEEE MAS Young Professional from 2017 by the IEEE Madras Section. He has published more than **250+ research papers** in national and international journals and conferences. He has also authored/co-authored/contributed 12 books/chapters and 12 technical articles on power electronics applications in renewable energy and allied areas. He is an **Editor of IEEE Access, Heliyon-Cell Press, Springer-Nature, AEJ-Elsevier, ITEES Wiley** and other high impact journals.

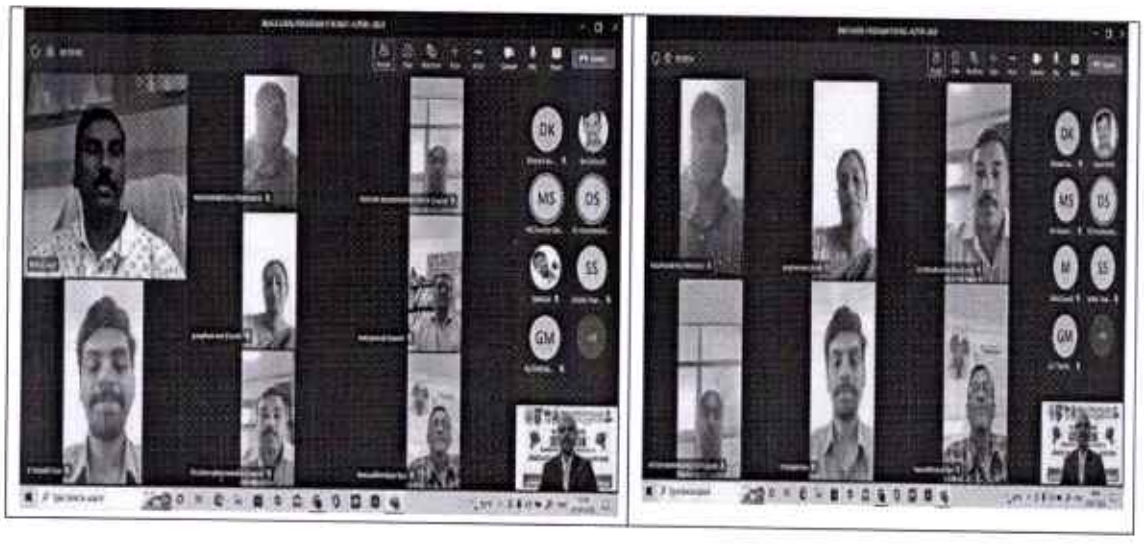

He received **Danfoss Innovator Award**-Mentor during 2014-15, & 2017-18 Research Award from VIT University during 2013-18. Also, He received the **INAE Summer Research Fellowship** for the year 2014. Under his guidance, 24 P.G students and more than 25 U.G Students completed the project work. Also, he guided six Ph.D. scholars in collaboration with industry. He also has done **collaborative Industry research projects** like **Sustainable PSUCampus**, **Sustainable Micro grid** Development @ Saudi Arabia, and In India AI-based prediction and condition monitoring, AI-based Fault diagnostics, Power Quality Audit in Southern Railway, EMI-EMC in Solar PV Inverter, Power Quality Analysis of Industries with InPhase, Bangalore, Emerich Energy, Chennai, Wind-Solar Hybrid system sponsored by MNRE with CWET, Kayathar, VIT-Danfoss joint Energy Management Project, Smart Energy Metering and E-mobility and charging infrastructure for EVs funded by government/Industries.

He is a proud Alumni of GCT (1997-2001 batch EEE) and outstanding alumni of VIT (2002- 04 batch M.Tech) and (2010-2013 batch of Ph.D.).

About NEC

The Narasaraopeta Engineering College was established in the year 1998 by Gayatri Educational Development Society, Narasaraopet, under the leadership of Sri M.V.Koteswara Rao, who has a vision of developing this college as an autonomous institution of higher learning & knowledge in the heart of Palnadu region. The college is approved by AICTE, permanently affiliated to JNTUK Kakinada, Accredited 'A' Grade by NAAC and Accredited thrice by NBA. NEC is announced as 'AUTONOMOUS' in the year 2016. The college has launched Incubation Centre where the students can implement their ideas. The college has an MOU with Oracle University (USA). The college has AP CM Excellence centre, AI&ML centre and MSME centre. The college offers Seven M.Tech programmes, Two PG courses of MCA, MBA and Seven courses at B.Tech level in the branches EEE, CSE, CSE-AI, IT, ECE, ME and CIVIL. The college has well equipped laboratories and computers. Microsoft Innovation Centre was established in the college. In order to build a vibrant entrepreneurship ecosystem Venture Development Centre (VDC) is established in association with GE North Eastern University, USA and APSSDC. Also, the college has Indo-European skilling Centre for Mechatronics and Industrial Robotics in collaboration with APSSDC and AIC (Applied Robot Centre), Germany. AP CM's Skill Excellence Center is also established to provide students access to the most advanced courses by industry giants. The college has MOU with New Mexico State University, USA, which enables student and faculty exchange programs.

Narasaraopet is known as the gateway of Palnadu. Narasaraopet is a town in Palnadu district and is on the railway line of Guntur to Guntakal. Narasaraopet is 50 Km from Guntur and 25 Km from Chilakaluripet (NH5) by road. Narasaraopet is 120 Km away from Vijayawada Airport. Kotappakonda is the site of major religious pilgrim place of Lord Siva which is located 5 Km from NEC.

ABOUT THE DEPARTMENT

The Department of EEE was started in the year 1998 with an intake of 40 students in B.Tech programme. The intake was sustained subsequently and the present intake is 120. The department also offer PG Program M.Tech (Power & Industrial Drives) with an intake of 18students. The Department has a team of highly qualified, experienced and dedicated teaching faculty. The department has good infrastructural facilities and has full-fledged laboratories equipped with adequate state of the art equipment and latest Electrical softwares. The UG programme of the department is accredited Twice by NBA. The department has vibrant atmosphere for the students to emphasize on fundamentals and concepts focusing on analysis and design of various applications to fulfill the needs of industry. The department encourages faculty members and Research Scholars to carry out their Research.

ABOUT THE INTERNATIONAL CONFERENCE

Department of Electrical & Electronics Engineering of Narasaraopeta Engineering College (NEC) Narasaraopet is proud to announce that the 2nd International Conference on Recent Trends in Power Systems and Power Electronics NEC-ICPSPE-2K22 schedule on 22nd and 23rd, June at NEC, Narasaropet. The objective of the conference is to highlight the efforts of researchers who have harnessed the power of Technology in order to solve society's most pressing problems and to discuss the challenges faced in due course. This conference is a platform for students, researchers and industry experts to interact and exchange the technical matters, research methodologies and vision into the future in the field of Electrical and Electronics Engineering.

TOPICS OF THE CONFERENCE

The scope of this conference includes, but not limited to the following

- AI Applications to Power Systems
- Big Data Analytics & IOT for Power Systems
- Control Applications to Power Systems
- Electrical Machines and Drives
- Energy Management for Smart Systems
- Generation, Transmission & Distribution
- Microgrid & Smart Grid
- Renewable Power Conversion Technologies
- Power Quality Issues
- Power System Operations
- Power System Protection
- Power System Stability
- Power Electronics & Control for Smart Grids
- Power Quality Monitoring and Mitigation
- HVDC & FACTS
- Power Electronic Converters and Control Systems
- Power Electronics
- Solar Array Monitoring, Control & Automation
- Electric and Hybrid Vehicles

SUBMISSION GUIDELINES

Authors intending to present papers are requested to send two hard copies of full length paper in IEEE format not exceeding 5 pages along with a soft copy should send through e-mail necicpspe2k22@nrtec.in. The selected papers will be notified for registration.

i) Number of Authors per paper is limited to four only.
ii) E-certificate will be provided to authors presentation and present during their paper presentation.
iii) ISBN International conference proceedings will be provided with an additional charge of INR 200 (One of one book)
iv) International Conference will be conducted on Microsoft Teams.
All submissions must include Title, Author(s) and Affiliation(s). Full Address for correspondence including phone number and e-mail id.

నరసరావుపేట ఇంజనీరింగ్ కాలేజీ లో AI,ML మరియు డేటా సైన్స్‌లో పరిశ్రమ అంతర్భుష్టులు మరియు ఉద్యోగ సంసిద్ధతపై అవగాహన సదస్సు

నరసరావుపేట ఇంజనీరింగ్ కాలేజీ, కంప్యూటర్ సైన్స్ మరియు ఇంజనీరింగ్ మరియు ఇన్ఫర్మేషన్ టెక్నాలజీ విభాగంముల ఆధ్వర్యములో **AI,ML మరియు డేటా సైన్స్‌లో పరిశ్రమ అంతర్భుష్టులు మరియు ఉద్యోగ సంసిద్ధతపై అవగాహన సదస్సు** నిర్వహించారని కళాశాల వైస్ చైర్మన్ శ్రీ మిట్టపల్లి చక్రవర్తి గారు తెలిపారు.

ఈ సదస్సు లో ముఖ్య వక్తలుగా గా మైక్రోసాఫ్ట్ సీనియర్ ప్రోగ్రాం మేనేజర్ **శ్రీ పి. నితీష్** గారు మరియు **శ్రీ బి. మల్లేసు**, సీఈఓ, హేనాటిక్ టెక్నాలజీ ప్రైవేట్ లిమిటెడ్ గారు పాలొగొన్నారు.

శ్రీ మల్లేసు గారు ఆర్టిఫిషల్ ఇంటలిజెన్స్, మెషిన్ లెర్నింగ్, డేటా సైన్స్ యొక్క ప్రాముఖ్యత మరియు ఉపయోగించుట సమాజములో ఎంతగా పెరిగినదో విశ్లేషణాత్మకంగా ఇంజనీరింగ్ విద్యార్థులకు వివరించారు. మరియొక వక్త శ్రీ నితీష్ గారు మాట్లాడుచు ఎందుకు డేటా సైన్స్ ప్రాముఖ్యత పెరిగినది, డేటా సైన్స్ తెలుసుకొనుటకు కావలసిన వివిధ రకాలైన మూల్యాంకన పాత్రలు ML ఇంజనీర్, DevOps ఇంజనీర్, డేటా సైంటిస్ట్, ఈ జాబ్స్ కు కావలసిన టెక్నాలజీస్ ఐన పైథాన్, మెషిన్ లెర్నింగ్, డీప్ లెర్నింగ్ మరియు ఆర్టిఫిషల్ ఇంటలిజెన్స్ ఎలా నేర్చుకోవలేనో సోదాహరణముగా కేసు స్టడీస్ తో విద్యార్థి విద్యార్థులకు తెలిపారు

ఈ సందర్భముగా కళాశాల ప్రిన్సిపాల్ డాక్టర్ యం శ్రీనివాస కుమార్ గారు మాట్లాడుచు, ఇంజనీరింగ్ ఐనతరువాత సాఫ్ట్వేర్ జాబ్స్ రావాలి అంటే మీరు మెషిన్ లెర్నింగ్, డీప్ లెర్నింగ్, పైథాన్ సబ్జక్ట్స్ తో పాటుగా హకెర్ ర్యాంకింగ్, హకాథన్, సర్టిఫికేషన్స్, మినీ ప్రాజెక్ట్స్, రీసెర్చ్ పేపర్స్, మెంటరింగ్ అను అంశలంతో రోడ్ మ్యాప్ చేసుకొని అమలు చెయ్యాలి అని తెలిపారు.

కంప్యూటర్ సైన్స్ అండ్ ఇంజనీరింగ్ విభాగ అధిపతి డాక్టర్ యస్. ఎన్. తిరుపతి రావు గారు ప్రారంభ ఉపన్యాసము లో ఇంజనీరింగ్ విద్యార్థులు కోడింగ్ తో పాటుగా ప్రతి సెమిస్టరు నందు సోషల్ ప్రోబ్లలం ను తీసుకొని చిన్న చిన్న ప్రాజెక్ట్స్ చేసినచో, జాబ్స్ వచ్చినా తరువాత సాఫ్ట్వేర్ కంపెనీస్ లో జాబ్స్ పోతాయి అనే భయము ఉండదని తెలిపారు.

కళాశాల చైర్మన్ శ్రీ మిట్టపల్లి వెంకట కోటేశ్వర రావు గారు విద్యార్థులకు ప్రధమముగా ఇలాంటి ప్రోగ్రాం వలన వారికీ జాబ్ రావటానికి మార్గనిర్దేశము చేస్తాము అన్నారు.

ఈ కార్యక్రమమును కంప్యూటర్ సైన్స్, ఇన్ఫర్మేషన్ టెక్నాలజీ, ఆర్టిఫిషల్ ఇంటలిజెన్స్, మెషిన్ లెర్నింగ్, డేటా సైన్స్ మరియు సైబర్ సెక్యూరిటీస్ విభాగ, ఆచార్యులు, ఉపాచార్యులు,విద్యార్థులు పాల్గొన్నారు

కళాశాల సెక్రటరీ శ్రీ మిట్టపల్లి రమేష్ గారు ముఖ్య వక్తలను దుశ్శలవా, జ్ఞాపిక తో సత్కరించారు.

Program Report

Name of the program : Guest Lecture on Object Oriented Analysis and Design.

Date(s) of FDP : 04th February ,2023.

Details of the Co- Ordinator:

Name	: Dr. K. Lakshmi Nadh
Designation	: Professor in CSE.
Organization	: Narasaraopeta Engineering College
Phone No.	: 9948146862
Mail-id	: **drklmn7@gmail.com**

Objective of the Program :

- To learn the basics of Object Oriented Analysis and Design.
- To have clear idea about traditional and modern S/W development Methodologies and OOPS concepts.
- To identify objects, relationships, services and attributes
- To introduce the concept of Object-oriented system development lifecycle
- Discuss the overview of Object oriented methodologies

Object-oriented analysis and design (OOAD) is a software engineering approach

• Analysis — understanding, finding and describing concepts in the problem domain.

• Design — understanding and defining software solution/objects that represent the analysis concepts and will eventually be implemented in code.

• System development activities consist of system analysis, modeling, design, implementation, testing and maintenance.

• Two Approaches for software development

• Traditional Approach

• Objected-Oriented Approach

• BENEFITS OF OBJECT ORIENTATION

• Faster development,

• Reusability,

• Reduced complexity

• Increased quality

• Each object has SBI(State,Behaviour,Identity)

• OO Relationship

• Generalization (parent-child relationship)

• Association (student enrolls in course)

• Aggregation(whole/part of relationship)

• Composition(strong form of aggregation)

• The unified approach (UA) is a methodology for software development.

• Booch, Rumbaugh, Jacobson methodologies gives the best practices, processes and guidelines for OO oriented software development.

Questions and cross questions beyond the topic.

• Differentiate object oriented and object based technology.

• How does object-oriented development eliminate duplication

• Differentiate correspondence and correctness measures

• Why is reusability important? How does object oriented software development promote reusability? 9. Final conclusion

• Learn the object oriented concepts, relationship between objects and understand how to develop the object oriented software system

• The advocates of OOSD claim many advantages including easier modeling, increased cod[illegible]se, higher system quality and easier maintenance.

• It is well understood that analysis and design are extremely critical aspects of successful systems development especially in the case of OOSD.

Object-oriented analysis and design (OOAD) is a popular technical approach for analyzing, designing an application, system, or business by applying the object oriented paradigm and visual modeling throughout the development life cycles for better communication and product quality. Software development Software development is dynamic and always undergoing major change. Systems development refers to all activities that go into producing an information systems solution. Systems development activities consist of systems analysis, modeling, design, implementation, testing and maintenance. A software development methodology is a series of processes describe how the work is to be carried out to achieve the original goal based on the system requirements.

Object- oriented systems Development methodology:- Object-Oriented development offers a different model from the traditional software development approach, which is based on functions and procedures. In an object-Oriented system, everything is an object and each object is responsible for itself. A windows object is responsible for things like opening, sizing, and closing itself. systems are easier to adapt to changing requirements, easier to maintain, more robust, and promote greater design and code reuse. Object- oriented development allows us to create module of functionality. Here or some reasons why object- Orientation works: Higher level of abstraction. The top-down approach supports abstraction at the function level. The Object-oriented approach supports abstraction at the object level. Since objects encapsulate both data (attributes) and functions (methods), they work at a higher level of abstraction. Seamless transition among different phases of software development. The traditional approach to software development requires different styles and methodologies for each sep of the process. Encouragement of good programming techniques. A class in an object- oriented system carefully delineates b[illegible]en its interface (specifications of what the class can do) and the implementations of that interface (how the class does what it does). Promotion of reusability. Objects are reusable because they are modeled directly out of a real-world problem domain. Each object stands by itself or within a small circle of peers(other objects).

Object Basics: Objects:

The term Object means a combination of data and logic that represents some real world entity. When developing an object – oriented application, two basic questions always arise:

- What objects does the application need?
- What functionality should those objects have?

OBJECTS ARE GROUPED IN CLASSES

A class is a specification of structures (instance variables), behavior (methods), and inheritance for objects. Classes are important mechanisms for classifying objects. In an object- oriented system, a method or behavior of an object is defined by its class. Each object is an instance of a class. There may be many different classes. Object state and properties (attributes):- Properties represent the state of an object. Example: the properties of a car, such as color, manufacturer, and cost, are abstract descriptions.

Behavior (Object Behavior and methods):-

We can drive a car, we can ride an elephant, or the elephant can eat a peanut. Each of these statements is a description of the object's behavior. In the object model, object behavior is described in methods or procedures. A method implements the behavior of an object.

Messages (Objects respond to messages): An object's capabilities are determined by the methods defined for it. Methods conceptually are equivalent to the functions definitions used in procedural languages. Objects perform operations in response to messages. For example, when you press on the brake pedal of a car, you send a stop message to the car object. Messages essentially are nonspecific function calls: we would send a draw message to a chart when we want the chart to draw itself. A message is di[illegible]nt from a subroutine call, since different objects can respond to the same message in different ways. For example, cars, motorcycles, and bicycles will all respond to a stop message, but the actual operations performed are object specific. Methods are similar to functions, procedures, or subroutine in more traditional programming languages, such as COBAL, Basic, or C. The area where methods and functions differ, however, is in how they are invoked. Figure: Objects respond to messages according to methods defined in its class.

Information Hiding (and Encapsulations):-

Information hiding is the principle of concealing the internal data and procedures of an object and providing an interface to each object in such a way to reveal as little as possible about its inner workings. On object is said to encapsulate the data and a program. This means that user cannot see the inside of the object "capsule," but can use the object by calling the object's methods. Car Object Encapsulation or information hiding is a design goal of an object-oriented system. Rather than allowing an object direct access to another object's data, a message is sent to the target object requesting information. Another issue is per-object or per-class protection. In per-class protection, the most common form (e.g., Ada, C++, Eiffel), class methods can access any object of that class and not just the receiver. In per-object protection, methods can access only the receiver.

CLASS HIERARCHY:-

An object-oriented system organizes classes into a subclass- superclass hierarchy. Different behaviors are used as the basics for making distinctions between classes and subclasses. At the top of the Class hierarchy are the most general classes and at the bottom are the most specific. A subclass inherits all of the properties and methods defined in its superclass.

Dynamic inheritance allows objects to change and evolve over time. Since base classes provide properties and attributes for objects, changing base classes changes the properties and attributes of a class. More specifically, dynamic inheritance refers to the ability to add, delete, or change parents for objects (or classes) at run time. Multiple inheritance:-

Some object- oriented systems permit a class to inherit its state (attributes) and behaviors from more than one super class. This kind of inheritance is referred to as Multiple Inheritance.

POLYMORPHISM:-

Poly means "many" and morph means "form". In the context of object- oriented systems, it means objects that can take on or assume many different forms. Polymorphism means that the same operation may behave differently on different classes. Booch [1-3] defines polymorphism as the relationship of objects of many different classes by some common superclass.

Object – Oriented Systems Development Life Cycle:-

Introduction:

The essence of the software Development Process that consists of analysis, design, implementation, testing, and refinement is to transform users' needs into a software solution that satisfy those needs.

The Software Development Process:

System development can be viewed as a process. Within the process, it is possible to replace one sub process has the same interface as the old one to allow it to fit into the process as a whole. For example, Object oriented approach The process can be divided into small, interacting phases- sub processes.

The subprocesses must be defined in such a way that they are clearly spelled out; to allow each activity to be performed as independently of other subprocesses as possible. Each subprocess must have the following [1]:

- A description in terms of how it works.
- Specification of the input required for the process.
- Specification of the output to be produced. The software development process also can be ...vided into smaller, interacting subprocesses. Generally, the software development process can be viewed as a series of transformations, where the output of one transformation becomes the input of the subsequent transformation.
- Transformation1 (Analysis): It translates the users need into the System requirements and responsibilities. The way they use the system can provide insight into the user's requirements.
- Tranformation2 (Design): It begins with a problem statement and ends with a detailed design that can be transformed into an OS. This transformation includes the bulk of the software development activity, including the definition of how to build the software, its development, and it's testing

Building high Quality software:-

The software process transforms the users' needs via the application domain to a software solution that satisfies those needs. Once the system exists, we must test it to see if is free of bugs.

To achieve high quality in software we need to be able to answer the following questions:

- How do we determine when the system is ready for delivery?
- Is it now an operational system that satisfies users' needs?
- Is it correct and operating as we thought it should?
- Does it pass an evaluation process?

There are four quality measures:

Correspondence, Correctness, Verification and validation. Correspondence measures how well the delivered system matches the needs of the operational environment, as described in the original requirements statements. Validation is the task of predicting correspondence. Correctness measures the consistency of the product requirements with respect to the design specification.

OBJECT ORIENTED SYSTEM DEVELOPMENT:

A USECASE DRIVEN APPROACH:The object-oriented software development life cycle (SDLC) consists of three macro processes: Object-oriented analysis, Object-oriented design, and object-orie... implementation.

Object-Oriented system development includes these activities:

- Object-oriented analysis-use case driven
- Object- Oriented design
- Prototyping
- Component- based development
- Incremental Testing

IQAC

Object-Oriented Analysis--Use-case Driven:

The object-oriented Analysis phase of software development is concerned with determining the system requirements and identifying classes and their relationship to other classes in the problem domain. To understand the system requirements, we need to identify the users or the actors. The intersection among objects' roles to achieve a given goal is called collaboration.

Object-Oriented Design:-

The goal of Object-Oriented design (OOD) is to design the classes identified during the analysis phase and the user interface. During this phase, we identify and define additional objects and classes that support implementation of the requirements. First, build the object model based on objects and their relationships, then iterate and refine the model:

- Design and refine classes.
- Design and refine attributes.
- Design and refine methods.
- Design and refine Structures.
- Design and refine Associations.

Prototyping:-

Prototypes have been categorized in various ways. They are

- A horizontal prototype is a simulation of the interface but contains no functionality. This has the advantages of being very quick to implement, providing a good overall feel of the system.
- A vertical prototype is a subset of the system features with complete functionality. The principal advantage of this method is that the few implemented functions can be tested in great depth.
- An analysis prototype is an aid for the incremental development of the ultimate software solution.

The purpose of this review is threefold:

1. To demonstrate that the prototype has been developed according to the specification and that the final specification is appropriate.
2. To collect information about errors or other problems in the system, such as user interface problems that need to be addressed in the intermediate prototype stage.
3. To give management and everyone connected with the project the first (or it could be second or third)

Implementation: concept- Based Development

Component-based manufacturing makes products available to the marketplace that otherwise would be prohibitively expensive. For example, computer-aided software engineering (CASE) tools.

Component-based development (CBD) is an industrialized approach to the software development process.

Rapid application development (RAD) is a set of tools and techniques that can be used to build an application faster than typically possible with traditional method. The terms often is used in conjuction with software prototyping.

Reusability:-

A major benefit of object-oriented system development is reusability, and this is the most difficult promise to deliver on. For an object to be really reusable, much more effect must be spent designing it.

Software components for reuse by asking the following questions:

o Has my problem already solved?

o Has my problem been partially solved?

o What has been done before to solve a problem similar to this one? The reuse strategy can be based on the following:

- Information hiding (encapsulation).
- Conformance to naming standards.
- Creation and administration of an object repository.
- Encouragement by strategic management of reuse as opposed to constant development.
- Establishing targets for a percentage of the objects in the project to be reused.

The rapid and dramatic advances in Information Technology (IT) in recent years have without question generated tremendous benefits. However, they have created significant and unprecedented risks to operations. Computer security has, in turn, become much more important as all levels of an organization to utilize information systems security measures to avoid data tampering, fraud, disruptions in critical operations, and inappropriate of sensitive information.

After the boom in Networking and Software jobs, the past three years have seen a sharp rise in the field of information security. Cyber Security, Information Security and Ethical Hacking are the latest buzzword in the industry. In the past three years, the percentage of hacking crimes, data thefts, data losses, viruses and other cybercrimes have increased very exponentially.

Duration for Bootcamp / Workshop Training

- 35 Hours / 5 Days @ Daily 7 Hrs

Duration for Hackathon

- 8 Hours / 12 Hours / 16 Hours / 24 Hours

Practical : Theory Ratio

- 8 : 2

Proposed Dates

- February 20 To 25

Workshop Objectives

At the end of this Workshop, participants will be able to:

- Understand, perform and secure themselves from various kinds of Ethical Hacking & Cyber Security attacks
- Understand, perform and secure themselves from various kinds of Email, Social Media, System, Servers & Mobile attacks/hacking
- Understand, perform and secure themselves from various kinds of Web Application Attacks and will be able to patch them toproduce a secure web application.
- Understand Security Architecture of Mobile Platforms etc...

Eligibility

- Undergraduate and post graduate students from Computer Science, Information Technology and Electronics. Students from other backgrounds who are passionate about technology must be encouraged to participate.
- All Computer Science, Electronics faculty members of the institution can also participate.

Prerequisites Required From The College :

- ✓ Minimum 150 registrations required for us to conduct this program
- ✓ Seminar Hall / Auditorium with good internet facility along with audio (mikes) and video (projector) provision

Prerequisites Required From The Students :

- ✓ Basic knowledge of computers & internet
- ✓ Every registered student should carry their own mobile phones with fully charged and also a pendrive with atleast 8 GB capacity
- ✓ Your Laptop / Desktop should have a configuration of atleast i5 processor and 4 GB RAM atleast

TAKE AWAY BENEFITS

Spot Internship

The participants will be selected based on their performance in the exam conducted at the end of the workshop. They will get an opportunity to work as an intern in our company. They will get an opportunity to work on a live project / in-house requirements at our Supraja Technologies.

Placement Opportunity

The Best Performer/s in the internship* will be given an employment opportunity in our company with a CTC of Rs. 3.2 to 4.8 lakhs per annum

Tool Kit

Every participant will get tool kit with all the tools used during the workshop along with all the required license keys.

Certification

Every participant will be given Supraja Technologies Certified Security Expert – Level 1 certificate

Fee Structure

Course	Certification	Duration	Delivery Method	Fee
Level 1	Supraja Technologies Certified Security Expert (Level 1)	5 Days Bootcamp/ Workshop and next followed by One Day Hackathon	Instructor Led On Campus Training	700 Rs/- per participant

WHAT IS CYBER SECURITY?

- Cybersecurity is the protection of internet-connected systems, including hardware, software and data, from cyberattacks.
- In a computing context, security comprises cybersecurity and physical security -- both are used by enterprises to protect against unauthorized access to data centers and other computerized systems.
- Information security, which is designed to maintain the confidentiality, integrity and availability of data, is a subset of cybersecurity.

THE CIA TRIAD OF INFORMATION SECURITY

- Confidentiality: Ensures that data or an information system is accessed by only an authorized person.
- Integrity: Integrity ensures that the data or information system can be trusted. Ensures that it is edited by only authorized persons and remains in its original state when at rest.
- Availability: Data and information systems are available when required.

SECURITY & PRIVACY

- Privacy relates to any right you have to control your personal information and how it's used.

Examples: Privacy Policies

- Security refers to how your personal information is protected.

Categories of Cyber Crime

We can categorize cyber crime in two ways:-

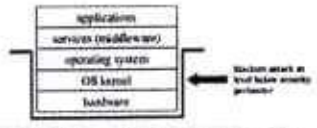

The computer as a target: Using a computer to attacks other computer e.g. Hacking, Virus/Worms attacks, DoS attack etc.

The computer as a weapon: Using a computer to commit real world crime e.g. credit card fraud etc.

Principles of Computer Security

- How do you stop an attacker from getting access to a layer below your protection mechanism?
- Every protection mechanism defines a security perimeter (boundary). Attackers try to bypass protection mechanisms.

Types of Cyber Crime

- Hacking
- Phishing
- Denial of Service
- Spam Email
- Spyware, Adware
- Malware (Trojan, Virus, Worms etc.)
- ATM Skimming and Point of Scale Crimes
- Ransomware

Hacking

- Hacking in simple terms means an illegal intrusion into a computer system and/or network.
- It is also known as cracking. Governments, websites are the hot targets of the hackers due to the press coverage, it receives.

Phishing

- Phishing is a fraudulent attempt, usually made through email, to steal your personal information.
- Phishing is the attempt to obtain sensitive information such as username, password and credit card details, often for malicious reasons, through an electronic communication (such as E-mail).
- A common online phishing scam uses web ad email messages that appears to come from a trusted source/legitimate site) but actually directs recipients to provide information to a fraudulent web site.

Object-oriented analysis and design (OOAD) is a software engineering approach

• Analysis — understanding, finding and describing concepts in the problem domain.

• Design — understanding and defining software solution/objects that represent the analysis concepts and will eventually be implemented in code.

• System development activities consist of system analysis, modeling, design, implementation, testing and maintenance.

• Two Approaches for software development

• Traditional Approach

• Objected-Oriented Approach

• BENEFITS OF OBJECT ORIENTATION

• Faster development,

• Reusability,

• Reduced complexity

• Increased quality

• Each object has SBI(State,Behaviour,Identity)

• OO Relationship

• Generalization (parent-child relationship)

• Association (student enrolls in course)

• Aggregation(whole/part of relationship)

• Composition(strong form of aggregation)

• The unified approach (UA) is a methodology for software development.

• Booch, Rumbaugh, Jacobson methodologies gives the best practices, processes and guidelines for OO oriented software development.

Questions and cross questions beyond the topic.

• Differentiate object oriented and object based technology.

• How does object-oriented development eliminate duplication

• Differentiate correspondence and correctness measures

• Why is reusability important? How does object oriented software development promote reusability? 9. Final conclusion

• Learn the object oriented concepts, relationship between objects and understand how to develop the object oriented software system

• The advocates of OOSD claim many advantages including easier modeling, increased code reuse, higher system quality and easier maintenance.

• It is well understood that analysis and design are extremely critical aspects of successful systems development especially in the case of OOSD.

Object-oriented analysis and design (OOAD) is a popular technical approach for analyzing, designing an application, system, or business by applying the object oriented paradigm and visual modeling throughout the development life cycles for better communication and product quality. Software development Software development is dynamic and always undergoing major change. Systems development refers to all activities that go into producing an information systems solution. Systems development activities consist of systems analysis, modeling, design, implementation, testing and maintenance. A software development methodology is a series of processes describe how the work is to be carried out to achieve the original goal based on the system requirements.

Object- oriented systems Development methodology:- Object-Oriented development offers a different model from the traditional software development approach, which is based on functions and procedures. In an object-Oriented system, everything is an object and each object is responsible for itself. A windows object is responsible for things like opening, sizing, and closing itself. Why an Object Orientation? The

systems are easier to adapt to changing requirements, easier to maintain, more robust, and promote greater design and code reuse. Object- oriented development allows us to create module of functionality. Here or some reasons why object- Orientation works: Higher level of abstraction. The top-down approach supports abstraction at the function level. The Object-oriented approach supports abstraction at the object level. Since objects encapsulate both data (attributes) and functions (methods), they work at a higher level of abstraction. Seamless transition among different phases of software development. The traditional approach to software development requires different styles and methodologies for each sep of the process. Encouragement of good programming techniques. A class in an object- oriented system carefully delineates between its interface (specifications of what the class can do) and the implementations of that interface (how the class does what it does). Promotion of reusability. Objects are reusable because they are modeled directly out of a real-world problem domain. Each object stands by itself or within a small circle of peers(other objects).

Object Basics: Objects:

The term Object means a combination of data and logic that represents some real world entity. When developing an object – oriented application, two basic questions always arise:

- What objects does the application need?
- What functionality should those objects have?

OBJECTS ARE GROUPED IN CLASSES

A class is a specification of structures (instance variables), behavior (methods), and inheritance for objects. Classes are important mechanisms for classifying objects. In an object- oriented system, a method or behavior of an object is defined by its class. Each object is an instance of a class. There may be many different classes. Object state and properties (attributes):- Properties represent the state of an object. Example: the properties of a car, such as color, manufacturer, and cost, are abstract descriptions.

Behavior (Object Behavior and methods);-

We can drive a car, we can ride an elephant, or the elephant can eat a peanut. Each of these statements is a description of the object's behavior. In the object model, object behavior is described in methods or procedures. A method implements the behavior of an object.

Messages (Objects respond to messages): An object's capabilities are determined by the methods defined for it. Methods conceptually are equivalent to the functions definitions used in procedural languages. Objects perform operations in response to messages. For example, when you press on the brake pedal of a car, you send a stop message to the car object. Messages essentially are nonspecific function calls: we would send a draw message to a chart when we want the chart to draw itself. A message is different from a subroutine call, since different objects can respond to the same message in different ways. For example, cars, motorcycles, and bicycles will all respond to a stop message, but the actual operations performed are object specific. Methods are similar to functions, procedures, or subroutine in more traditional programming languages, such as COBAL, Basic, or C. The area where methods and functions differ, however, is in how they are invoked. Figure: Objects respond to messages according to methods defined in its class.

Information Hiding (and Encapsulations):-

Information hiding is the principle of concealing the internal data and procedures of an object and providing an interface to each object in such a way to reveal as little as possible about its inner workings. On object is said to encapsulate the data and a program. This means that user cannot see the inside of the object "capsule," but can use the object by calling the object's methods. Car Object Encapsulation or information hiding is a design goal of an object-oriented system. Rather than allowing an object direct access to another object's data, a message is sent to the target object requesting information. Another issue is per-object or per-class protection. In per-class protection, the most common form (e.g., Ada, C++, Eiffel), class methods can access any object of that class and not just the receiver. In per-object protection, methods can access only the receiver.

CLASS HIERARCHY:-

An object-oriented system organizes classes into a subclass- superclass hierarchy. Different behaviors are used as the basics for making distinctions between classes and subclasses. At the top of the Class hierarchy are the most general classes and at the bottom are the most specific. A subclass inherits all of the properties and methods defined in its superclass.

Dynamic inheritance allows objects to change and evolve over time. Since base classes provide properties and attributes for objects, changing base classes changes the properties and attributes of a class. More specifically, dynamic inheritance refers to the ability to add, delete, or change parents form objects (or classes) at run time. Multiple inheritance:-

Some object- oriented systems permit a class to inherit its state (attributes) and behaviors from more than one super class. This kind of inheritance is referred to as Multiple Inheritance.

POLYMORPHISM:-

Poly means "many" and morph means "form". In the context of object- oriented systems, it means objects that can take on or assume many different forms. Polymorphism means that the same operation may behave differently on different classes. Booch [1-3] defines polymorphism as the relationship of objects of many different classes by some common superclass.

Object – Oriented Systems Development Life Cycle:-

Introduction:

The essence of the software Development Process that consists of analysis, design, implementation, testing, and refinement is to transform users' needs into a software solution that satisfy those needs.

The Software Development Process:

System development can be viewed as a process. Within the process, it is possible to replace one sub process has the same interface as the old one to allow it to fit into the process as a whole. For example, Object oriented approach The process can be divided into small, interacting phases- sub processes.

Guntur (Distt.) A.P.

The subprocesses must be defined in such a way that they are clearly spelled out; to allow each activity to be performed as independently of other subprocesses as possible. Each subprocess must have the following [1]:

- A description in terms of how it works.
- Specification of the input required for the process.
- Specification of the output to be produced. The software development process also can be divided into smaller, interacting subprocesses. Generally, the software development process can be viewed as a series of transformations, where the output of one transformation becomes the input of the subsequent transformation.
- Transformation1 (Analysis): It translates the users need into the System requirements and responsibilities. The way they use the system can provide insight into the user's requirements.
- Tranformation2 (Design): It begins with a problem statement and ends with a detailed design that can be transformed into an OS. This transformation includes the bulk of the software development activity, including the definition of how to build the software, its development, and it's testing

Building high Quality software:-

The software process transforms the users' needs via the application domain to a software solution that satisfies those needs. Once the system exists, we must test it to see if is free of bugs.

To achieve high quality in software we need to be able to answer the following questions:

- How do we determine when the system is ready for delivery?
- Is it now an operational system that satisfies users' needs?
- Is it correct and operating as we thought it should?
- Does it pass an evaluation process?

There are four quality measures:

Correspondence, Correctness, Verification and validation. Correspondence measures how well the delivered system matches the needs of the operational environment, as described in the original requirements statements. Validation is the task of predicting correspondence. Correctness measures the consistency of the product requirements with respect to the design specification.

OBJECT ORIENTED SYSTEM DEVELOPMENT:

A USECASE DRIVEN APPROACH:The object-oriented software development life cycle (SDLC) consists of three macro processes: Object-oriented analysis, Object-oriented design, and object-oriented implementation.

Object-Oriented system development includes these activities:

- Object-oriented analysis-use case driven
- Object- Oriented design
- Prototyping
- Component- based development
- Incremental Testing

Guntur (Dist.), A.P.

Object-Oriented Analysis--Use-case Driven:

The object-oriented Analysis phase of software development is concerned with determining the system requirements and identifying classes and their relationship to other classes in the problem domain. To understand the system requirements, we need to identify the users or the actors. The intersection among objects' roles to achieve a given goal is called collaboration.

Object-Oriented Design:-

The goal of Object-Oriented design (OOD) is to design the classes identified during the analysis phase and the user interface. During this phase, we identify and define additional objects and classes that support implementation of the requirements. First, build the object model based on objects and their relationships, then iterate and refine the model:

- Design and refine classes.
- Design and refine attributes.
- Design and refine methods.
- Design and refine Structures.
- Design and refine Associations.

Prototyping:-

Prototypes have been categorized in various ways. They are

- A horizontal prototype is a simulation of the interface but contains no functionality. This has the advantages of being very quick to implement, providing a good overall feel of the system.
- A vertical prototype is a subset of the system features with complete functionality. The principal advantage of this method is that the few implemented functions can be tested in great depth.
- An analysis prototype is an aid for the incremental development of the ultimate software solution.

The purpose of this review is threefold:

1. To demonstrate that the prototype has been developed according to the specification and that the final specification is appropriate.
2. To collect information about errors or other problems in the system, such as user interface problems that need to be addressed in the intermediate prototype stage.
3. To give management and everyone connected with the project the first (or it could be second or third)

Implementation: concept- Based Development

Component-based manufacturing makes products available to the marketplace that otherwise would be prohibitively expensive. For example, computer-aided software engineering (CASE) tools.

Component-based development (CBD) is an industrialized approach to the software development process.

Rapid application development (RAD) is a set of tools and techniques that can be used to build an application faster than typically possible with traditional method. The terms often is used in conjuction with software prototyping.

Guntur (Dist.), A.P.

Reusability:-

A major benefit of object-oriented system development is reusability, and this is the most difficult promise to deliver on. For an object to be really reusable, much more effect must be spent designing it.

Software components for reuse by asking the following questions:

o Has my problem already solved?

o Has my problem been partially solved?

o What has been done before to solve a problem similar to this one? The reuse strategy can be based on the following:

- Information hiding (encapsulation).
- Conformance to naming standards.
- Creation and administration of an object repository.
- Encouragement by strategic management of reuse as opposed to constant development.
- Establishing targets for a percentage of the objects in the project to be reused.

PROGRAMME REPORT

Name of the Programme : **A Two week workshop On "ETABS SOFTWARE"**
Dates : **27th feb- 10thmarch, 2023.**

Details of the Resource Persons :
Name : **Ms.M.Pravallika**
Designation : **Technical Skill Trainer**
Organization : **APSSDC**

Objective of the Programme:

After completing this course you will able to:

- **Modeling:** How to create models in less time and interpret the results while working with the physical member based objects.
- **Concrete Frame Design & Detailing:** Applicable to line objects and the program determines the appropriate design procedure when the analysis is run.
- **Steel Frame Design & Detailing:** How to detail steel member selection, drift optimization and stress checking processes using various design code algorithms.
- **Steel Connection Design:** Design of steel connections is seamlessly integrated into the program.
- **Composite Beam:** To composite beams for determining their sizes for analysis, auto select-section property can be defined.
- **Dynamic Analysis:** Various options from response spectrum analysis to large deformation nonlinear time analysis.

Topics covered:

- Multi-story commercial, government and health care facilities
- Parking garages with circular and linear ramps
- Buildings with curved beams, walls and floor edges
- Buildings with steel, concrete, composite or joist floor framing
- Projects with multiple towers
- Complex shear walls and cores with arbitrary openings
- Performance based design utilizing nonlinear dynamic analyses
- Buildings based on multiple rectangular and/or cylindrical grid systems
- Flat and waffle slab concrete buildings
- Buildings subjected to any number of vertical and lateral load cases and combinations, including automated wind and seismic loads Multiple response sp

Outcome of the Programme:

After completion of this course students will be able to

- obtain comprehensive knowledge on the ETABS software and its applications
- Analyse & design of structures.
- Rapid and accurate design of different types of roads.

No. of Participants: 95

ABOUT THE COLLEGE

The Narasaraopeta Engineering College was established in the year 1998 by Gayatri Educational Development Society, Narasaraopet, under the leadership of Sri M.V.Koteswara Rao, who has a vision of developing this college as an autonomous institution of higher learning & knowledge in the heart of Palnadu region. The college is approved by AICTE, permanently affiliated to JNTUK Kakinada, Accredited 'A' Grade by NAAC, Accredited thrice by NBA and ISO 9001: 2008 certified. The college has three recognized R&D centers by JNTUK. NEC is conferred as 'AUTONOMOUS' in the year 2016. The college has launched Incubation Centre where the students can implement their ideas. The college has an MOU with Oracle University (USA). NEC has MOUs with various Foreign Universities. The college offers seven M.Tech Programmes, two PG courses of MCA, MBA and six courses at B.Tech level in the branches EEE,IT,CSE,IT,CSE(AI) ECE, ME and CIVIL. The college has well equipped laboratories including 1000 computers with a bandwidth of 100 MBPS internet. Microsoft Innovation Centre was established in the college through which more than 200 Mobile Apps, 50 Cloud Apps and 100 Windows Apps are uploaded every year.

The college has established venture development Centre (VDC),APSSDC. Also the college has Indo-European skilling Centre for mechatronics and industrial robotics in collaboration with APSSDC and ARC (Applied Robot Control), Germany.

ABOUT THE DEPARTMENT

What We Do

Our Civil Engineering department seeks to understand natural phenomena and their applications in the field, and utilize that knowledge to innovate and build sustainable engineering structures for Society. We educate our students in both natural and manmade systems, which enable them to get a true sense of the science of civil engineering.

Our faculty and staff are dedicated to teaching our students such that they are best equipped to serve the region and the nation as professionals, scholars, academic leaders, researchers, and entrepreneurs, and tackle complex engineering problems in the field.

What We Offer

Established in the year 2009, our Department of Civil Engineering offers undergraduate programme (B.Tech) with a flexible curriculum that adapts to the ever-increasing discoveries in the field.

Our civil engineering department employs an experienced faculty and cutting-edge learning avenues in the fields of Surveying, Fluid Mechanics, Strength of Materials, Engineering Geology and Environmental Engineering, Geotechnical Engineering, Highway Engineering, and Concrete Technology.

Our department also offers specialization in structural, geotechnical, hydraulics and water resources, environmental, construction, transportation, and more.

Our students attend workshops, conferences, seminars, and paper-presentation forums that focus on interdisciplinary topics, and receive exposure to guest lecturers of premium institutions.

We offer an education that will transform our students into leaders in the field of civil engineering.

ABOUT APSSDC:

Andhra Pradesh State Skill Development Corporation (APSSDC) is a unique organization formed as a Public-Private Partnership (PPP) corporation to promote skill-development & entrepreneurship in the state of Andhra Pradesh. The corporation is incorporated as a Section-8 company (not-for-profit) with a private equity component of 51% and 49% by Govt of AP. The Corporation now serves as the "Executive Agency" for the newly formed Department of Skill Development, Entrepreneurship and Innovation. APSSDC will also serve the important task of providing high quality skilled manpower as part of the "Knowledge and Skills Mission" of GoAP, which is one of the cross-cutting missions among the seven missions formed by the govt to facilitate double digit growth of the state.

OBJECTIVE OF COURSE

After completing this course you will able to:

- **Modeling:** How to create models in less time and interpret the results while working with the physical member based objects.
- **Concrete Frame Design & Detailing:** Applicable to line objects and the program determines the appropriate design procedure when the analysis is run.

Date: 30-12-2022

PROGRAMME REPORT

Name of the Programme : **A Two week workshop On "PRIMA VERA SOFTWARE"**
Dates : **19th - 29th dec, 2022.**

Details of the Resource Persons :
Name : **Mr. S. Magesh,**
Designation : **Sr Technical Manager**
Organization : **AGIIT, Chennai**

Objective of the Programme:

After completing this course you will able to:

- **Modeling:** How to create models in less time and interpret the results while working with the physical member based objects.

- **Concrete Frame Design & Detailing:** Applicable to line objects and the program determines the appropriate design procedure when the analysis is run.

- **Steel Frame Design & Detailing:** How to detail steel member selection, drift optimization and stress checking processes using various design code algorithms.

- **Steel Connection Design:** Design of steel connections is seamlessly integrated into the program.

- **Composite Beam:** To composite beams for determining their sizes for analysis, auto select-section property can be defined.

- **Dynamic Analysis:** Various options from response spectrum analysis to large deformation nonlinear time analysis.

Topics covered:

- Multi-story commercial, government and health care facilities
- Parking garages with circular and linear ramps
- Buildings with curved beams, walls and floor edges
- Buildings with steel, concrete, composite or joist floor framing
- Projects with multiple towers
- Complex shear walls and cores with arbitrary openings
- Performance based design utilizing nonlinear dynamic analyses
- Buildings based on multiple rectangular and/or cylindrical grid systems
- Flat and waffle slab concrete buildings
- Buildings subjected to any number of vertical and lateral load cases and combinations, including automated wind and seismic loads Multiple response sp

Outcome of the Programme:

After completion of this course students will be able to

- obtain comprehensive knowledge on the ETABS software and its applications
- Analyse & design of structures.
- Rapid and accurate design of different types of roads.

About NEC

Narasaraopeta Engineering College was established in the 1998 by Gayatri Educational Development Society, ısaraopet, under the leadership of Sri M.V.Koteswara Rao, has a vision of developing this college as an autonomous tution of higher learning & knowledge in the heart of adu region. The college is approved by AICTE, ıanently affiliated to JNTUK Kakinada, Accredited 'A' Grade IAAC and Accredited thrice by NBA. NEC is announced as TONOMOUS' in the year 2016. The college has launched bation Centre where the students can implement their s. The college has an MOU with Oracle University (USA). college has AP CM Excellence centre, AI&ML centre and IE centre. The college offers Seven M.Tech programmes, PG courses of MCA, MBA and Seven courses at B.Tech l in the branches EEE, CSE, CSE-AI, IT, ECE, ME and L. The college has well equipped laboratories and puters. Microsoft Innovation Centre was established in the ge. In order to build a vibrant entrepreneurship ecosystem ure Development Centre (VDC) is established in ıciation with i2E North Eastern University, USA and SDC. Also, the college has Indo-European skilling Centre Mechatronics and Industrial Robotics in collaboration with SDC and ARC (Applied Robot Control), Germany. AP CM's Excellence Center is also established to provide students ıss to the most advanced courses by industry giants. The ge has MOU with New Mexico State University, USA, which ples student and faculty exchange programs.

ısaraopet is known as the gateway of Palnadu. ısaraopet is a town in Guntur district and is on the railway of Guntur to Guntakal. Narasaraopet is 50 Km from Guntur 25 Km from Chilakaluripet (NH5) by road. Narasaraopet is Km away from Vijayawada Airport. Kotappakonda is the site ajor religious pilgrim place of Lord Siva which is located 5 from NEC.

ABOUT THE DEPARTMENT

Department of Civil Engineering was established in year 2009. The department has been successful in lucing excellent and well-trained graduates. Today we e more than 450 Students (UG & PG). Our Civil ineering department seeks to understand natural nomena and their applications in the field, and utilize knowledge to innovate and build sustainable ineering structures for Society. We educate our lents in both natural and manmade systems, which ble them to get a true sense of the science of civil ineering. The department has good infrastructural i ties and has full fledged laboratories equipped with quate state of the art equipment and latest software. faculty and staff are dedicated to teach our students n that they are best equipped to serve the region and nation as professionals, scholars, academic leaders, earchers, and entrepreneurs, and tackle complex ineering problems in the field.

NEC-ICETCE-2K22

06th & 07th August, 2022

Organized by Department of CIVIL ENGINEERING

About the Conference

The Department of Civil Engineering Narasaraopeta Engineering college(Autonomous) is glad to announce the "International Conference on Emerging Trends in Civil Engineering (NEC-ICETCE 2022)" on 06th and 07th August, 2022 at Narasaraopeta Engineering College(Autonomous) Andhra Pradesh, India. The NEC-ICETCE 2022 provides a two-day research extravagance which will be having a perfect blend of keynote addresses and oral presentations via online mode through which an ample networking opportunities for collaborations and partnerships that can drive wide recognition and adds value to the enlisted career profiles from the world's brightest minds in engineering and technology. This platform will eventually benefit the young research minds to bring forth the ideas and develop it into a solution for future world. Conduction of conference will be done offline mode.

Topics of the Conference

- CONSTRUCTION TECHNOLOGY AND MANAGEMENT
- CONSTRUCTION MATERIALS
- ENVIRONMENTAL ENGINEERING
- GEOTECHNICAL ENGINEERING
- STRUCTURAL ENGINEERING
- PRE-STRESSED AND PREFABRICATED STRUCTURES
- TRANSPORTATION ENGINEERING
- ADVANCES IN SURVEYING
- WATER RESOURCE ENGINEERING
- GEOLOGY AND GEO PHYSICS
- REMOTE SENSING & GIS

Submission Guidelines

Authors intending to present papers are requested to send two hard copies of full length paper in IEEE format not exceeding 5 pages send to necicetce2022@gmail.com. The selected papers will be notified for registration.

- No. of Authors per paper is limited to four only.
- Certificate will be provided to authors presentation and present during their paper presentation.
- Selected Papers will be published in conference Proceedings with ISBN Number. Authours interested published in UGC-CARE journals

PROGRAMME REPORT

Name of the Programme : A 2nd Virtual International Conference on **"Emerging Trends In Civil Engineering", NEC-ICETCE-2K22**

Dates : 6th & 7th August 2022

Details of the Resource Person

Name : Dr. Chitrini Mozumder

Designation : Affiliated Faculty & Research Specialist

Organization : Asian Institute of Technology, Thailand

Phone No. : +66-2-524 6391

Email : chitrini@ait.asia

Objectives of the Programme:

- Over view of Geo Spatial Technologies For Urban Sustainability
- New trends of constructions and technologies
- Analyzing of local area land usage through Remote sensing & GIS
- Performance of Flyash in soil stabilization
- Investigation on Soil structure and Ground water resources
- Experimenting on the properties of concrete when partially replacing cement with waste materials
- Structural stability of different framed structures on different seismic zones
- Usage of Primavera software for construction planning
- Utilizing plastic waste in flexible pavements
- Prediction of future water demands in local area and designing water tanks

Topics Covered:

- Geo spatial technologies
- Recent updates and technologies in civil engineering
- Remote sensing and Geographical Information system
- Soil stabilization techniques
- Concrete technology with different ingredients
- Structural and seismic analysis
- Construction planning and management using trending software
- Transportation Engineering with altered waste materials in road construction
- Infrastructural engineering with water demand

Outcomes of the Programme:

- Infrastructural Development of Urban areas
- Implementation of updated technologies with faster way of project completion
- Development local areas with help of survey data
- Stabilizing soil with low cost
- Better knowledge in soil structure
- Optimum usage and recharge of ground water
- Strength improved concrete with low cost alternative ingredients
- Earthquake resistant structures
- Time and cost saving in construction projects with reduced paper work
- Usage of plastic wastes to save environment and improved pavement design
- Solving future water demands with durable water tank construction

Subject: Request letter to be speaker for the Expert lecture Program-Regd

Respected Sir/ Madam,

With this letter, we would like to request you to kindly be our honourable speaker for the Expert lecture which is scheduled on 09.03.2023.

We are glad to share with you that this program is one of the most anticipated ones as each and every student of Civil engineering Department is expecting to hear from you. Our students and faculty are grateful as they enrich their knowledge through lectures on advances in civil engineering.

We will be waiting for your positive response, thus hoping you to make this program a trulysuccessful learning session for our students. Please let us know, in case you are unable to attend it.

Thank you very much,

With regards,

Dr.P.Naga Sowjanya

DEPARTMENT OF CIVIL ENGINEERING

Report on Expert Lecture

Date: 9th March 2023
Time: 2:00 – 4:00 pm
Venue: Seminar Hall, Block -3
Topic: 'Utilization of Industrial and Agricultural By-Products in the construction sector: A Waste to Wealth Approach'
Speaker: Dr.SK.Mahabub Subhani, Assistant Professor, NIT-AP.

The expert lecture on "Utilization of Industrial and Agricultural by-Products in the construction sector: A Waste to Wealth Approach" was organized by Department of Civil Engineering Narasaraopeta Engineering College (A). The talk was given by Dr.SK.Mahabub Subhani, Assistant Professor, NIT-AP.

It was organized with the focus to transfer the knowledge directly from the people who mastered the technologies to the grooming students of NEC. A total of around 280 students from Fourth, Sixth and Eighth semester students and staffs of Civil Engineering have attended the lecture and gained information from this lecture.

The lecture was well organized with the start from the Basics of various cement materials used in construction sector to the Industrial and Agricultural by-Products in the construction sector. The speaker covered the different aspects in his speech, presented the usage of replacing of various cementitious materials like SCBA, RHA and POFA as supplementary agents in current situation and its future aspects. At the end it was a fruitful session for the budding engineers of NEC.

To

Dr.SK.Mahabub Subhani,
Assistant Professor,
NIT-Andhra Pradesh,
Tadepalligudem.

Respected Sir,

Greeting from Narasaraopeta Engineering College!!

We are extremely grateful to you for accepting our invitation to be our resource person and enriching your session on the topic **"Utilization of Industrial and Agricultural by-Products in the construction sector: A waste to Wealth Approach"** an Expert Lecture organized by the Department of Civil Engineering on 09-03-2023. It was really an enlightening presentation that brought out insight knowledge.

The enthusiastic participants gave an outstanding feedback about your talk and helped in attaining the success of this programme. Also, it has helped a great deal in elevating the name of our institute and we feel really thankful to you for the same.

We are grateful that you shared your precious time and knowledge with us. We look forward to your valuable participation in future events.

We pray the lord almighty to bless you with great success and wish you good luck in all your future endeavours.

DEPARTMENT OF CIVIL ENGINEERING

Report on Expert Lecture

Date: 24th January 2023
Time: 10:00 – 12:00 Am
Venue: Seminar Hall, Block -3
Topic: Analysis of Wastewater for Utilization in Concrete
Speaker: Dr.M.Karthikeyan, Associate Prof, Vignan's University.

The expert lecture on "Analysis of Wastewater for Utilization in Concrete" was organized by Department of Civil Engineering Narasaraopeta Engineering College (A). The talk was given by Dr.M.Karthikeyan, Associate Prof, Vignan's University.

It was organized with the focus to transfer the knowledge directly from the people who mastered the technologies to the grooming students of NEC. A total of around 280 students from Fourth, Sixth and Eighth semester students and staffs of Civil Engineering have attended the lecture and gained information from this lecture.

The lecture was well organized with the start from the various Parameters of water focusing on the chemical properties like hardness, Total solids, Fluorides, chloride, etc. to its treatment and utilization in concrete. The speaker covered his lecture about his work to analysis of wastewater disposed from various textile industries to Kunderu canal, Chirala area, treatment and it's utilization in concrete. At the end it was a fruitful session for the budding engineers of NEC.

CIRCULAR

The Department of Computer Science and Engineering is organizing A 2-Days **International Conference on Artificial Intelligence and its Emerging Areas** (NEC-ICAIEA-2K22) during 03-06-2022 to 04 2022. All the faculty, Research Scholars and Final Year B. Tech. Students who have submitted their papers are informed to attend the program without fail. Others who wish to attend also can attend.

Program Chief Convenor	**: Dr. S.N. Tirumala Rao** Professor & Head, Dept. of CSE (9885271324)
Program Convenor	**: Dr. S.V. N. Sreenivasu** Professor in CSE Dept. (9849866902)
Program Co-Convenor	**: Dr. B. Jhansi Vazram Bolla** Professor in CSE Dept. (9908888519)
Resource Person-1	**: Dr Venakta Tulasiramu Ponnada,** Lead Staff Engineer, M/s Collins Aerospace, Melbourne, Florida, USA

About NEC

The Narasaraopeta Engineering College was established in the year 1998 by Gayatri Educational Development Society, Narasaraopet, under the leadership of Sri M.V.Koteswara Rao, who has a vision of developing this college as an autonomous institution of higher learning & knowledge in the heart of Palnadu region. The college is approved by AICTE, permanently affiliated to JNTUK,Kakinada, Accredited 'A' Grade by NAAC and Accredited quadruple (four times) by NBA. NEC is announced as 'AUTONOMOUS' in the year 2016. The college has launched Incubation Centre where the students can implement their ideas. The college has an MOU with Oracle University (USA). The college has AP CM Excellence Centre, AI&ML Centre and MSME Centre. The college offers Seven M. Tech programmes, Two PG courses of MCA, MBA and Seven courses at B.Tech level in the branches EEE, CSE, CSE-AI, IT, ECE, ME and CIVIL. The college has well equipped laboratories and computers. Microsoft Innovation Centre was established in the college. In order to build a vibrant entrepreneurship ecosystem Venture Development Centre (VDC) is established in association with i2E North Eastern University, USA and APSSDC. Also, the college has Indo-European skilling Centre for Mechatronics and Industrial Robotics in collaboration with APSSDC and ARC (Applied Robot Control), Germany. AP CM's Skill Excellence Center is also established to provide students access to the most advanced courses by industry giants. The college has MOU with New Mexico State University, USA, which enables student and faculty exchange programs.

Narasaraopet is known as the gateway of Palnadu. Narasaraopet is a town in Palnadu district and is on the railway line of Guntur to Guntakal. Narasaraopet is 50 Km from Guntur and 25 Km from Chilakaluripet (NH5) by road. Narasaraopet is 120 Km away from Vijayawada Airport. Kotappakonda is the site of major religious pilgrim place of Lord Shiva which is located 5 Km from NEC.

ABOUT THE DEPARTMENT

The Department of Electronics and Communication Engineering was started in the year 1998 with an intake of 40 students in B.Tech. programme. The intake was enhanced subsequently and the present intake is 240. The department also offers two PG programs, M.Tech (Digital Electronics and Communication Systems) which was started in the year 2004 and M.Tech (Digital Systems and Computer Electronics) which was started in the year 2006 with an intake of 18 each. The department has a team of highly qualified, experienced and dedicated teaching faculty. The department has good infrastructural facilities and has fullfledged laboratories equipped with adequate state of the art equipment and latest software. The UG programme of the department is accredited quadruple (four times) by NBA. The department has Embedded Systems and Robotics Lab which was established under IIT Bombay E-Yantra Project. The department got funding from AICTE to conduct FDP, two STTPs and two MODROBS.

ABOUT THE INTERNATIONAL CONFERENCE

In continuation of the previous International Conferences, this International Conference on Advances in Signal Processing and Communications (NEC-ICASPC-2K22) is being organized by the department of Electronics and Communication Engineering. NEC-ICASPC-2K22 provides an International forum for researchers, academicians, industry professionals and PG students to explore and contribute their research by presenting and discussing the various aspects of developments in the field of Signal Processing and Communications.

TOPICS OF THE CONFERENCE

SIGNAL PROCESSING

- Nonparametric methods in Signal Processing
- Adaptive and Array Signal Processing
- Biomedical Signal Processing
- Analog and Mixed Signal Processing
- Recent Intelligent Signal Processing Applications to Image Processing
- Signal Processing for data mining schemes
- Image and Video Signal Processing

COMMUNICATIONS

- Wireless Mobile Communication
- Satellite Communication
- Internet and Protocol
- VLSI and Signal Processing for Communication
- Mobile, Broadband and Wireless Communication
- Machine Learning
- Artificial Intelligence
- Deep Learning

SUBMISSION GUIDELINES

Authors intending to present papers are requested to send softcopy of full length paper in IEEE format not exceeding 5 pages to e-mail: icaspc2022@gmail.com. The selected papers will be notified for registration.

- Number of Authors per paper is limited to four only.
- E-certificate will be provided to authors who are present during their paper presentation.
- ISBN International conference proceedings will be provided with an additional charge of INR 350 (Cost of one book)
- International Conference will be conducted on Microsoft Teams.
- All submissions must include Title, Author(s) and Affiliation(s), Full Address for correspondence including phone number and e-mail id.

PARTICIPANTS

Abstract - Shopping is easy, but standing in line at the register makes it tedious and difficult. Long lines are caused by heavy traffic and the time it takes the cashier to prepare the bill using a barcode scanner. An automated billing system that may be installed inside the shopping cart is the centrepiece of this creative invention. The RFID reader used in this automated payment system is managed by Arduino. Hence, anytime a customer places a product in their cart, the RFID module detects it and displays the product's price along with it on the LCD. All of the products are identified by the module as the shopper continues to add them, therefore the price will rise in step. In the event that a customer changes their mind If a customer decides against adding a product to the cart, they can do so and the price added will be automatically subtracted. If the customer paid the bill, the mall's doors would automatically open after the sale was complete and the transaction information were given to him via the Wi-Fi module. So, using this methodology in locations like supermarkets is acceptable because it will reduce the need for staff while improving the shopping experience for customers.

Keywords – IoT, RFID READER, RFID TAG, Ardunio UNO, Buzzer, Wi-Fi module, Protues, Mobile Telent.

I. INTRODUCTION

RFID These days, radio frequency identification technology has advanced from niche uses to commonplace ones that speed up the handling of produced items and commodities. RFID readers can detect tags from a distance without a direct line of sight. RFID supports a large number of distinct IDs, which aids in the creation of distinctive tags for each object. It enables contactless item detection utilising radio frequency. As line of sight is not necessary for RFID tags, placement options are more flexible. Its read range is stronger and at its maximum. RFID provides read/write memory and can store a lot of data with a single unique identifier. Dust, chemicals, and physical damage are not highly harmful to RFID technology. A scanning antenna, a transceiver with a decoder to understand the data, and a transponder (RFID tag) with information pre-set are the three components of this technology.

Since they can read 40 RFID tags at once, RFID tags can be read more quickly. High levels of security are present in RFID; data can be encrypted, password-protected, or configured to include a mechanism that will permanently delete information. When the tag or transponder enters the range of the antenna, the reader or interrogator recognises it and sends the unique identifier to the computer or server.

II. EXISTING DESIGN

The barcode method is currently available in shopping malls. Each product in this method has barcode labels that can be read by specially designed barcode readers.

Fig.1: Waiting for billing

To be read, barcode scanners require a clear line of sight. The barcode scanner should be no more than 15 feet away. They do not include any additional information, such as an expiration date.

ABSTRACT

Handy electronics like mobile phones are among the most important devices everyone takes across the globe as global communication becomes one of the fundamental aspects of our lives. In rural India, there is a lack of readily accessible electricity, which is necessary for using such devices because they must be charged. Consequently, a solar-powered, wending machine-like system for charging cell phones has been suggested. The microcontroller is powered by the tracking solar panel device that charges the battery. The user-accessible charging capacity will be managed by the microprocessor

INTRODUCTION:

The mobile phone industry, which is presently worth billions of dollars and supports millions of phones, has emerged as a significant means of business and personal communication. It is crucial to offer a public recharge service. The coin-based mobile battery charger created as part of this project offers a special service to rural residents who do not have access to grid electricity during all or part of the daytime, and it generates income for site operators. The coin-operated mobile battery charger can be placed outside of any commercial building quickly and easily. Ordinary solar panels typically only face one direction.which means they may not receive enough sunlight to function. The solar panel charge controller and power optimization are suggested in this summary. Thus, it will function while maximizing power by using the entire sun's light. The primary goal of this effort is to automatically control the solar panel and keep its face facing the sun. This is accomplished by managing the solar panel's motorized movement. Sun typically emerges in the east and sets in the west. In a typical system, if it faces east, it cannot alter its direction in relation to the sun at sunset. The market for mobile phones has grown tremendously in recent years, necessitating constant, on-the-go battery charging. In many developing nations, there are daily periods of time when grid electricity is unavailable, particularly in semi-urban and rural regions where mobile phones are the primary form of communication. However, metropolitan dwellers use more.

LITERATURE SURVEY:

This paper serves as a resource for the IoT-based coin-based mobile charging project. Typical mobile charging devices have some drawbacks because of the energy issue. This project utilises solar electricity and an Arduino. The coin-based mobile recharge in The Proposed Methodology is powered by solar energy. Our cell phones can be charged. We charge at night with an extra battery's assistance. Charge our cell phones with coins like the one rupee, two rupee, and five rupee. It must be adaptable enough to show on a led whether it is charged or not.

Abstract: Nowadays human protection is the largest problem in many elements of the world. Also humans safety is the largest risk to India. There is still a fear in solitary areas for humans in addition to guys. There are some regions in which human can't move freely without any risk to one's safety and security. This should be changed as a great deal soon as possible. So here one can suggest a protection patrolling robotic using Esp32 that allows you to reduce the concern. Era modifications and improves day by day to trade the way human are done controlling. So this venture makes a speciality of updating technology framework to make more potent human protection mechanism. On this undertaking, one can introduce a new safety mechanism to shield women for the duration of strange activities. New protection mechanism has been proposed primarily based on the patrolling robot the usage of the ESP32. Here night time vision digicam may be used for securing any premises. To enhance the accuracy of the classifier, various system getting to know fashions are used.On this undertaking one can are designing the vehicle Which moves at unique route and is equipped with digicam. The machine makes use of IR based totally path following gadget for patrolling assigned place. It monitors each section to detect any trouble the usage of combination ofESP32 Cam. It has the ability to reveal sound inside the premises. Robothears any sound after area is quite and it startsoff evolved transferring toward the sound on its predefined path. It then scans the area usingits camera to come across any human faces detected. It captures and starts off evolved transmitting the images of the situation right now to the IOT internet site. For this reason one can have a tendency to advocate a totally autonomous security robotic that operates inexhaustibly and patrols massive regions on terribly own to comfortable the humans.

I INTRODUCTION

In these days global, human safety has turn out to be a primary trouble in our united states as human can't step out of their house at any time, in particular for the duration of night. The

Abstract: – In the area of VLSI, circuit complexity is rapidly multiplying together with reducing chip size and the IC 's produced today are highly sophisticated. It is the period of growing technology and scaling of devices nanometer experiment. This project describes the design and implementation of ALU using GDI with Clock gating technique. Low-power ALU design is made possible by the minimal digital cascaded design technique known as GDI, which reduces power consumption and propagation delay. Clock gating is a power saving technique used to reduce the power consumption of digital circuits by disabling the clock signal that are actively not in use at different parts of the circuit. When compared to CMOS transistors, the number of GDI transistors is reduced to half. As a result, when compared to CMOS, power and area are reduced. The power efficiency is 92%, area efficiency is 50.4% and delay efficiency is 11.3%. In comparison to previous CMOS, PTL, GDI approaches, the simulation demonstrates that the layout is more effective with less power usage, less area, and faster performance. Tanner's EDA tool uses 45nm technology for the design an d analysis.

Key Words: ALU (Arithmetic and logic unit), GDI technique, Clock gating, Full Adder, Power, Area, Delay, VLSI (Very Large-Scale Integration), Efficiency.

1. INTRODUCTION

As digital technology continues to advance, there is a swift rise in demand for high speed and low power consumption. With the reduction of contemporary CPUs are combined with a vast number of transistors on a single chip, regardless of transistor size. A higher level of integration results in larger circuits and more power usage. The semiconductor industry is very concerned with developing low power, high speed circuits for manufacture due to rapid integration. A functioning block of digital circuitry is formed by the ALU, [8]. These are complicated combinational circuits which conduct arithmetic and logical operations.

The Arithmetic and Logic Unit (ALU) is one of the most important logic building blocks in any processor design. The ALU's area suitability and functional efficacy will have an impact on the processor's overall performance. ALU block power consumption has an impact on the processor's overall power dissipation. In order to boost the ALU's speed while reducing power dissipation, a very well design is required.

Objective of the programme:

The International Conference Advances in Signal Processing and Communications (NEC-ICASPC-2K22) is focused to provide a platform to disclose and discuss the scientific and technological events aimed to ignite the young minds and to continue the kindled torch relay. Electronics and Communication Engineering is expanding beyond its conventional boundaries and is forming the core of many disciplines such as Signal Processing, Fiber Optic Mathematical methods in Signal Processing, Adaptive and Array Signal Processing, Biomedical Signal Processing, Analog and Mixed Signal Processing, Signal Processing for data recording channels, Image and Video Signal Processing, Integrated circuits for Wireless Communication, Space and Satellite Communication, VLSI and Signal Processing for Communication.

The sincere effort of the program committee members and organizing committee members coupled with indexing initiatives from conference advisory committee members have drawn a large number of high-quality submissions from students, research scholars, and faculty members all over India and abroad.

Topic Covered:

- Fiber Optics
- Mathematical methods in Signal Processing
- Adaptive Signal Processing.
- Array Signal Processing
- Bio Medical Signal Processing
- Analog and Mixed Signal Processing
- Signal Processing for data recording channels.
- Integrated circuits for Wireless Communication
- Space and Satellite Communication
- Micro-strip Antenna
- Signal Processing for Communication.
- Image and Video Processing.
- VLSI and Signal Processing for Communication.

Outcome of the programme:

PROGRAMME REPORT

NARASARAOPETA
NEC ENGINEERING COLLEGE
(AUTONOMOUS)

Department of Electronics and Communication Engineering

Date: 16-9-2022

PROGRAMME REPORT

Name of the Programme:	Webinar on "Build Self Confidence"
Date:	13/09/2022.
Details of Resource person:	Ms. Sita Ravinutala, Communication and Transition Coach, Doctorite , WINCIBL.

Objective of the program

The primary objective of the webinar on "Build Self Confidence" was to empower participants with the knowledge and tools necessary to enhance their self confidence. The goal was to provide practical insights, strategies, and inspiration to help individuals overcome self doubt and cultivate a positive mindset.

Topics Covered:

1. Understanding Self Confidence
2. Identifying and Overcoming Self Doubt
3. Building a Positive Mindset
4. Setting and Achieving Goals
5. Effective Communication
6. Mindfulness and Self Reflection

Outcome of the program:

The webinar proved to be a resounding success, with participants gaining valuable insights and practical tools to build and strengthen their self confidence. The outcomes of the event include:

1. Increased Awareness: Participants gained a deeper understanding of the components of self confidence and identified areas where they could make positive changes in their lives.

2. Practical Strategies: Attendees learned practical strategies to overcome self doubt, cultivate a positive mindset, and set and achieve meaningful goals.

3. Enhanced Communication Skills: The session on effective communication provided participants with tools to express themselves confidently and assertively in various personal and professional situations.

4. Positive Feedback: Feedback from participants indicated a high level of satisfaction with the content, delivery, and relevance of the webinar. Many expressed gratitude for the practical advice and inspiration provided.

5. Community Building: The webinar served as a platform for like minded individuals to come together, share experiences, and support each other in their journey to building self confidence.

In **conclusion**, the webinar on "Build Self Confidence" successfully achieved its objectives by equipping participants with the knowledge and tools to enhance their self confidence and foster positive personal development. The event contributed to building a community of individuals committed to continuous self improvement and empowerment.

Department of Electronics and Communication Engineering

Date: 18-9-2022

PROGRAMME REPORT

Name of the Programme: **Webinar on "The State of Women in Engineering"**

Date: 15/9/2022

Details of Resource person: Dr. Abha Dargar,
Member of IEEE WIE,
Asst. Professor,
Kalasalingam Academy of Research & Foundation, Tamilnadu.

Objective of the program

The primary objective of the webinar on "The State of Women in Engineering" was to shed light on the current status of women in the field of engineering, addressing challenges, celebrating achievements, and fostering a supportive environment for women pursuing or considering careers in engineering. The goal was to inspire, inform, and promote inclusivity within the engineering community.

Topics Covered

1. Overview of Women in Engineering
2. Challenges Faced by Women in Engineering
3. Success Stories and Role Models
4. Initiatives for Inclusivity
5. Career Opportunities and Growth

Outcome of the programme

The webinar on "The State of Women in Engineering" generated positive outcomes, contributing to increased awareness and dialogue surrounding gender diversity in the engineering field. The outcomes include

1. Increased Awareness and Understanding: Participants gained a deeper understanding of the challenges faced by women in engineering and the broader context of gender diversity within the industry.
2. Inspiration and Motivation: Success stories and insights from accomplished women engineers served as a source of inspiration for attendees, motivating them to pursue and persist in their engineering careers.
3. Networking and Community Building: The webinar provided a platform for networking among women in engineering and facilitated the building of a supportive community. Attendees had the opportunity to connect with like-minded professionals.
4. Call to Action: The event inspired a call to action, encouraging participants to actively contribute to the promotion of gender diversity in their workplaces and academic institutions.

In **conclusion**, the webinar on "The State of Women in Engineering" successfully achieved its objectives by fostering awareness, inspiring participants, and promoting a sense of community among women in engineering. The event contributed to ongoing discussions and efforts to create a more inclusive and equitable environment within the engineering field.

Date 25-9-2022

PROGRAMME REPORT

Name of the Programme	**Seminar on "Career Opportunities after B.Tech"**
Date	22-9-2022
Details of Resource person	Mr. M. Ramesh, Senior Faculty Member, ACE Engineering Academy.

Objective of the program

The primary objective of the seminar on "Career Opportunities after B.Tech" was to guide and inform graduating B.Tech students about the diverse career paths available to them in the professional world. The goal was to empower students with knowledge about industry trends, skill requirements, and potential opportunities across various sectors, aiding them in making informed decisions about their post-graduate plans.

Topics Covered

1. Overview of Industry Trends
2. Skills in Demand
3. Traditional and Niche Career Paths
4. Higher Education Options
5. Industry-specific Insights
6. Professional Development and Networking

Outcome of the programme

The seminar on "Career Opportunities after B.Tech" proved to be highly beneficial for the attendees, offering valuable insights and guidance for their post-graduation journey. The outcomes include

1. Informed Decision-Making: Students gained a comprehensive understanding of the diverse career opportunities available to B.Tech graduates, enabling them to make informed decisions about their future paths.

2. Skill Development Awareness: Attendees became aware of the specific skills and competencies that are in high demand, encouraging them to focus on skill development in preparation for their careers.

3. Confidence and Motivation: The seminar instilled confidence in students by providing them with a road map for their post-B.Tech careers and motivating them to pursue their chosen paths with enthusiasm.

4. Networking Opportunities: The event facilitated networking between students and industry professionals, creating valuable connections that could aid in future job searches or collaborative endeavors.

5. Clarification of Doubts: Participants had the opportunity to ask questions and seek clarification on specific career-related concerns, leading to a better understanding of the post-B.Tech landscape.

6. Positive Feedback: Feedback from attendees indicated a high level of satisfaction with the seminar, praising the relevance of the topics covered and the expertise of the speakers.

In **conclusion**, the seminar on "Career Opportunities after B.Tech" successfully met its objectives by providing students with essential information and guidance for their post-graduate journey, fostering a sense of confidence and preparedness as they transition from academia to the professional world.

PROGRAMME REPORT

NARASARAOPETA ENGINEERING COLLEGE
(AUTONOMOUS)

Department of Electronics and Communication Engineering

Date 28-9-2022

PROGRAMME REPORT

Name of the Programme	**Seminar on "Career Opportunities after B.Tech"**
Date	24-9-2022
Details of Resource person	Mr. M. Ramesh, Senior Faculty Member, ACE Engineering Academy.

Objective of the program

The primary objective of the seminar on "Career Opportunities after B.Tech" was to guide and inform graduating B.Tech students about the diverse career paths available to them in the professional world. The goal was to empower students with knowledge about industry trends, skill requirements, and potential opportunities across various sectors, aiding them in making informed decisions about their post-graduate plans.

Topics Covered

1. Overview of Industry Trends
2. Skills in Demand
3. Traditional and Niche Career Paths
4. Higher Education Options
5. Industry-specific Insights
6. Professional Development and Networking

Outcome of the programme

The seminar on "Career Opportunities after B.Tech" proved to be highly beneficial for the attendees, offering valuable insights and guidance for their post-graduation journey. The outcomes include

1. Informed Decision-Making: Students gained a comprehensive understanding of the diverse career opportunities available to B.Tech graduates, enabling them to make informed decisions about their future paths.

2. Skill Development Awareness: Attendees became aware of the specific skills and competencies that are in high demand, encouraging them to focus on skill development in preparation for their careers.

3. Confidence and Motivation: The seminar instilled confidence in students by providing them with a road map for their post-B.Tech careers and motivating them to pursue their chosen paths with enthusiasm.

4. Networking Opportunities: The event facilitated networking between students and industry professionals, creating valuable connections that could aid in future job searches or collaborative endeavors.

In **conclusion**, the seminar on "Career Opportunities after B.Tech" successfully met its objectives by providing students with essential information and guidance for their post-graduate journey, fostering a sense of confidence and preparedness as they transition from academia to the professional world.

Date: 1-10-2022

PROGRAMME REPORT

Name of the Programme	Two day's Workshop on" Developing IoT applications (Hands-on Training)"
Date	26/09/2022 to 27/09/2022
Details of Resource person	**1. Dr. Y.Mohammed Sirajuddin,** Assistant Professor, VIT-AP, Amaravathi, Guntur. 2. **Prajwal Y. Moredukonda,** Assistant Professor, Dept. of CSE, Vardhaman College of Engineering, Hyderabad.

Objective of the programme

The primary objective of the workshop on "Developing IoT Applications" was to provide participants with practical, hands-on experience in designing, implementing, and deploying Internet of Things (IoT) applications. The workshop aimed to bridge the gap between theoretical knowledge and practical skills, enabling participants to develop a deep understanding of IoT technologies and their real-world applications.

Topics Covered

1. Introduction to IoT
2. IoT Architecture
3. IoT Hardware and Software
4. Sensor Networks
5. Communication Protocols
6. Data Analytics for IoT
7. IoT Security
8. Cloud Integration
9. Hands-on Project

IQAC

Outcome of the Programme

1. Enhanced Practical Skills: Participants gained hands-on experience in designing and implementing IoT applications, enhancing their practical skills in IoT development.
2. Deepened Understanding: The workshop facilitated a deeper understanding of IoT concepts, architecture, and technologies, enabling participants to make informed decisions in real-world IoT projects.
3. Networking Opportunities: Participants had the chance to network with experts and peers in the field, fostering collaboration and knowledge exchange.
4. Increased Confidence: Participants left the workshop with increased confidence in their ability to develop and deploy IoT applications, contributing to their professional growth.

In **conclusion**, the "Developing IoT Applications (Hands-on Training)" workshop successfully met its objectives by providing participants with a comprehensive understanding of IoT, practical skills development, and the opportunity to work on a real-world project. The outcomes reflect a positive impact on the participants' knowledge and capabilities in the rapidly evolving field of IoT.

PROGRAMME REPORT

NARASARAOPETA ENGINEERING COLLEGE
(AUTONOMOUS)

Department of Electronics and Communication Engineering

Date: 24-10-22

PROGRAMME REPORT

Name of the Programme: seminar on "IoT Drone Applications"

Date: 21-10-22

Details of Resource person: Dr. A. V. Nageswara Rao,
Department of ECE,
Narasaraopeta Engineering College
Narasaraopet, AP

Objective of the program

The primary objective of the seminar on "IoT Drone Applications" was to explore and discuss the diverse and evolving applications of Internet of Things (IoT) in the field of drone technology. The seminar aimed to provide participants with insights into the intersection of IoT and drones, showcasing how this integration can revolutionize various industries and contribute to technological advancements.

Topics Covered

1. Introduction to IoT and Drones
2. IoT-enabled Drone Communication
3. Sensor Integration in Drones
4. Autonomous Navigation and AI
5. IoT for Drone Surveillance
6. Environmental Monitoring
7. Precision Agriculture with Drones
8. Disaster Response and Relief
9. Regulatory and Ethical Considerations

NARASARAOPET - 5
Guntur (Dist.)

Outcome of the Programme

1. Informed Participants: Participants gained a comprehensive understanding of the integration of IoT in drone technology and its wide-ranging applications.

2. Inspiration for Innovation: The seminar inspired participants to explore innovative solutions and applications at the intersection of IoT and drones, fostering creativity and ideation.

3. Networking Opportunities: Participants had the chance to network with experts in both IoT and drone technology, facilitating potential collaborations and knowledge exchange.

4. Industry Relevance: The seminar emphasized the current and future relevance of IoT-enabled drones in various industries, encouraging participants to stay updated on technological trends.

5. Awareness of Challenges: Participants were made aware of the regulatory, ethical, and technical challenges associated with IoT-enabled drones, fostering a balanced understanding of the technology.

In **conclusion**, the "IoT Drone Applications" seminar successfully met its objectives by providing participants with a rich exploration of the applications, challenges, and potential of integrating IoT with drone technology. The outcomes reflect a positive impact on participants' knowledge and awareness in this rapidly evolving and exciting field.

Name of the Programme	Webinar on "Autonomous Navigation Techniques and Applications"
Date	2-11-2022
Details of Resource person	Dr. Pitchaiah Telagathoti, Professor & HOD, Department of ECE, VFSTR,Vadlamudi, Guntur

Objective of the program

The primary objective of the webinar on "Autonomous Navigation Techniques and Applications" was to provide participants with a comprehensive understanding of the latest advancements in autonomous navigation technologies and their diverse applications. The webinar aimed to bridge the knowledge gap, offering insights into cutting-edge techniques and real-world use cases of autonomous navigation across various industries.

Topics Covered

1. Fundamentals of Autonomous Navigation
2. Sensor Technologies for Autonomous Systems
3. Simultaneous Localization and Mapping (SLAM)
4. Machine Learning in Autonomous Navigation
5. Robotics and Autonomous Vehicles
6. Autonomous Drones and UAVs
7. Navigation in Unstructured Environments
8. Ethical and Regulatory Considerations

Outcome of the Programme

1. Enriched Knowledge Base: Participants gained a deep understanding of autonomous navigation techniques, from fundamentals to advanced applications, enriching their knowledge base.

2. Awareness of Cutting-edge Technologies: The webinar exposed participants to the latest advancements in sensor technologies, machine learning, and robotics applied to autonomous navigation.

3. Inspiration for Application Development: Participants were inspired to explore and implement autonomous navigation techniques in their respective domains, fostering innovation and creativity.

4. Networking and Collaboration Opportunities: The webinar provided a platform for participants to connect with experts and peers in the field, fostering potential collaborations and knowledge-sharing.

5. Addressing Ethical and Regulatory Challenges: Participants gained insights into the ethical considerations and regulatory challenges associated with autonomous navigation, contributing to a more responsible deployment of these technologies.

In **conclusion**, the "Autonomous Navigation Techniques and Applications" webinar successfully met its objectives by providing participants with a comprehensive overview of autonomous navigation technologies and inspiring them to explore new possibilities in their respective fields. The outcomes highlight the positive impact on participants' knowledge and awareness of this rapidly evolving and transformative technology.

PROGRAMME REPORT

Name of the Programme: webinar on the theme "National Education Policy-2020"

Date: 2-11-2022

Details of Resource person: Dr. M. Sreenivasa Kumar garu,
Principal,
Narasaraopeta Engineering College,
Narasaraopet, AP.

Objective of the program

The primary objective of the webinar on the theme "National Education Policy-2020" was to disseminate knowledge and insights about the key aspects, goals, and implications of the National Education Policy (NEP) introduced in 2020. The webinar aimed to bring together educators, policymakers, and stakeholders to discuss and understand the transformative changes proposed by the NEP and their impact on the education landscape in the country.

Topics Covered

1. Overview of National Education Policy-2020
2. Structural Reforms in Education
3. Multidisciplinary Learning and Flexibility
4. Teacher Training and Professional Development
5. Technological Integration in Education
6. Assessment Reforms
7. Challenges and Implementation Strategies

Outcome of the Programme

1. Informed Participants: Participants gained a thorough understanding of the National Education Policy-2020, including its objectives, structural reforms, and key focus areas.
2. Awareness of Transformative Changes: The webinar provided insights into the transformative changes proposed by the NEP-2020, fostering awareness among educators and stakeholders.
3. Discussion and Collaboration: Participants engaged in discussions about the implications of the policy, creating a platform for collaboration and knowledge exchange among educators and policymakers.
4. Strategic Planning for Implementation: Educators and stakeholders left the webinar with a clearer understanding of the challenges and potential solutions for the effective implementation of the policy in their respective institutions.
5. Empowered Educators: The webinar empowered educators with knowledge about the latest trends in education, enabling them to adapt their teaching methods to align with the goals of the NEP-2020.

In **conclusion**, the "National Education Policy-2020" webinar successfully met its objectives by providing participants with a comprehensive understanding of the policy and its transformative implications for the education sector. The outcomes underscore the positive impact on participants' knowledge and preparedness for embracing the changes outlined in the NEP-2020.

Objective of the program

The primary objective of the programme seminar on "Awareness on Abroad Education" was to provide participants with comprehensive information and insights into pursuing education abroad. The seminar aimed to raise awareness about the opportunities, challenges, and key considerations associated with studying in foreign countries.

Topics Covered

1. Introduction to Abroad Education
2. Choosing the Right Destination
3. Types of Educational Institutions
4. Admission Processes and Requirements
5. Scholarships and Financial Planning
6. Cultural Adaptation
7. Work and Stay Options
8. Student Experiences and Testimonials

Outcome of the Programme

1. Informed Participants: Participants gained a comprehensive understanding of the various aspects involved in pursuing education abroad, empowering them with informed decision-making capabilities.

2. Clarity on Procedures: The seminar provided clarity on the admission processes, documentation requirements, and standardized tests, reducing ambiguity for prospective international students.

3. Exploration of Options: Participants were encouraged to explore diverse study destinations and institutions, expanding their horizons and considering a broader range of educational opportunities.

4. Financial Preparedness: Attendees were equipped with knowledge about available scholarships, financial aid options, and effective budgeting, enabling better financial preparedness for studying abroad.

5. Cultural Sensitivity and Adaptation: The seminar addressed the importance of cultural adaptation, helping participants understand the cultural nuances of studying in a foreign country.

6. Networking and Community Building: Participants had the opportunity to network with each other, fostering a sense of community among individuals with similar aspirations for studying abroad.

In **conclusion**, the "Awareness on Abroad Education" seminar successfully met its objectives by providing participants with valuable information, resources, and insights into the intricacies of pursuing education in foreign countries. The outcomes underscore the positive impact on participants' awareness and preparedness for the challenges and opportunities associated with studying abroad.

Objective of the program

The primary objective of the webinar on "Emerging Technologies and Advanced Data Science - 2023" was to provide participants with insights into the importance of integrating advanced data science techniques with emerging technologies. The webinar aimed to explore the synergy between data science and cutting-edge technologies and highlight the significance of this integration in addressing current and future challenges.

Topics Covered

1. Introduction to Emerging Technologies
2. Foundations of Advanced Data Science
3. Integration of Data Science with Emerging Technologies
4. Real-time Data Processing and Edge Analytics
5. AI and Machine Learning in Emerging Tech Applications
6. Block-chain and Data Security
7. Challenges and Solutions

Outcome of the Programme:

1. Enhanced Understanding: Participants gained a deeper understanding of the synergy between advanced data science and emerging technologies, recognizing the transformative potential of their integration.

Brochure

About NEC

Narasaraopeta Engineering College was established in the year 1998 by Gayatri Educational Development Society, Narasaraopet, under the leadership of Sri M.V.Koteswara Rao, who has a vision of developing this college as an autonomous institution of higher learning & knowledge in the heart of Palnadu region. The college is approved by AICTE, permanently affiliated to JNTUK Kakinada, NIRF Ranking (251-300 Band), Accredited 'A+' Grade by NAAC and Accredited quadruple (four times) by NBA. NEC is announced as 'AUTONOMOUS' in the year 2016. The college has launched Incubation Centre where the students can implement their ideas. The college has an MOU with Oracle University (USA). The college has AP CM Excellence Centre, AI&ML Centre and MSME Centre. The college offers Seven M.Tech programmes, Two PG courses of MCA, MBA and Ten courses at B.Tech level in the branches EEE, CSE, CSE-AI, IT, CSE-AI&ML, CSE-DS, CSE-CS, ECE, ME and CIVIL. The college has well equipped laboratories and computers, Microsoft Innovation Centre was established in the college. In order to build a vibrant entrepreneurship ecosystem Venture Development Centre (VDC) is established in association with i2E, North Eastern University, USA and APSSDC. Also, the college has Indo-European skilling Centre for Mechatronics and Industrial Robotics in collaboration with APSSDC and ARC (Applied Robot Control), Germany. AP CM's Skill Excellence Center is also established to provide students access to the most advanced courses by industry giants. The college has MOU with New Mexico State University, USA, which enables student and faculty exchange programs.

Narasaraopet is known as the gateway of Palnadu. Narasaraopet is a town in Palnadu district and is on the railway line of Guntur to Guntakal. Narasaraopet is 50 Km from Guntur and 25 Km from Chilakaluripet (NH5) by road. Narasaraopet is 120 Km away from Vijayawada Airport. Kotappakonda is the site of major religious pilgrim place of Lord Shiva which is located 5 Km from NEC.

ABOUT THE DEPARTMENT

The Department of Electronics and Communication Engineering was started in the year 1998 with an intake of 40 students in B.Tech. programme. The intake was enhanced subsequently and the present intake is 240. The department also offers two PG programs, M.Tech (Digital Electronics and Communication Systems) which was started in the year 2004 and M.Tech (Digital Systems and Computer Electronics) which was started in the year 2006 with an intake of 18 each. The department has a team of highly qualified, experienced and dedicated teaching faculty. The department has good infrastructural facilities and has fullfledged laboratories equipped with adequate state of the art equipment and latest software. The UG programme of the department is accredited quadruple (four times) by NBA. The department has Embedded Systems and Robotics Lab which was established under IIT Bombay E-Yantra Project. The department got funding from AICTE to conduct FDP, two STTPs and two MODROBS.

24th & 25th March, 2023

6th INTERNATIONAL CONFERENCE

ON ADVANCES IN SIGNAL PROCESSING AND COMMUNICATIONS

About the Conference

In continuation of the previous International Conferences, this International Conference on Advances in Signal Processing and Communications (NEC-ICASPC-2K23) is being organized by the department of Electronics and Communication Engineering. NEC-ICASPC-2K23 provides an international forum for researchers, academicians, Industry professionals and PG students to explore and contribute their research by presenting and discussing the various aspects of developments in the field of Signal Processing and Communications.

Topics of the Conference

SIGNAL PROCESSING

- Mathematical methods in Signal Processing
- Adaptive and Array Signal Processing
- Biomedical Signal Processing
- Analog and Mixed Signal Processing
- Hybrid Intelligent System Applications in Image Processing
- Signal Processing for data recording channels
- Image and Video Signal Processing

COMMUNICATIONS

- Integrated circuits for Wireless Communication
- Fiber Optic, Space and Satellite Communication
- Antenna and Propagation
- VLSI and Signal Processing for Communication
- Mobile, Broadband and Wireless Communication
- Machine Learning
- Artificial Intelligence
- Deep Learning
- IOT

Important Dates

Paper Submission opens from	: 17th Feb, 2023
Paper Submission closes on	: 18th March, 2023

Camera Ready Paper, Copy right form Submission & Author Registration	: 23rd March, 2023
Conference Dates	: 24th & 25th March, 2023

Submission Guidelines

Authors intending to present papers are requested to send two hard copies of full length paper in IEEE format not exceeding 5 pages send to icaspc2023@gmail.com. The selected papers will be notified for registration.

- No. of Authors per paper is limited to four only.
- Certificate will be provided to authors presentation and present during their paper presentation.
- Selected Papers will be published in conference Proceedings with ISBN Number. Authours interested published in UGC-CARE journals

Objective of the programme:

The NEC-ICASPC-2K23 is conceived as a forum for presenting and Exchanging Ideas with Results of high quality research work in cutting edge technologies and most happening areas of Signal processing, Biomedical Signal Processing, Image & Video processing, Communication, Micro-strip Antenna, Machine learning, Deep learning, Embedded system, IoTand VLSI. The International Conference on Advances in Signal Processing and Communications (NEC-ICASPC-2K23) is focused to provide a platform to disclose, discuss the scientific and technological events aimed to ignite the young minds and to continue the kindled torch relay. Electronics and Communication Engineering is expanding beyond its conventional boundaries and is forming the core of many disciplines such as Signal Processing, Mathematical methods in Signal Processing, Adaptive and Array Signal Processing, Biomedical Signal Processing, Analog and Mixed Signal Processing, Signal Processing for data recording channels, Image and Video Signal Processing, Integrated circuits for Wireless Communication, Fiber Optic, Space and Satellite Communication, VLSI and Signal Processing for Communication.

Topic Covered:

- Fiber Optics
- Signal Processing
- Analog and Mixed Signal Processing
- Integrated circuits for Wireless Communication
- Space and Satellite Communication
- Mobile Broad Band wireless Communications.
- Signal Processing for Communication.
- Mathematical methods in Signal Processing
- Bio Medical Signal Processing
- Image and Video Processing
- Deep Learning
- IoT
- Antenna and Propagation.
- Machine Learning
- Artificial Intelligence.

To
The Principal,

Dear Sir/Madam,

Sub: 2nd International Conference - Reg.

Greetings.....

NEC, Mechanical Engineering - 2nd International Conference on EMERGING TRENDS IN MECHANICAL ENGINEERING AND INDUSTRIAL AUTOMATION - 2K22 (NECICTMEIA-2K22) - Announcement and Call for Papers – Reg.

We are glad to inform you that our college is organizing an "EMERGING TRENDS IN MECHANICAL ENGINEERING AND INDUSTRIAL AUTOMATION - 2K22 (NECICTMEIA-2K22)" from 29th to 30th July, 2022.

We are enclosing a copy of the broucher with full details and request you to display it on your notice boards. This International Conference will bring together scientific research to cater the needs of both industry and society of Mechanical Engineering on to a common platform.

In this regard the faculty members, research scholars and P.G students of your organization are invited to present Research/Technical Papers in the field of Mechanical Engineering.

Hence we request you to encourage your faculty members and students to actively participate in this NECICTMEIA-2K22 and make it a grand success.

Thank You,

PRINCIPAL
Dr. M.Sreenivasa Kumar

ABOUT THE INTERNATIONAL CONFERENCE

The objective of NEC-ICETMEIA–2K22 is to create an international conglomeration of scientists, engineers, and industrial experts. This forum serves as a platform where people can share information about latest diverse technological advancements, innovations, and achievements in the areas of Mechanical engineering and allied fields of engineering. Further, it would also facilitate discussion on the developments and challenges in the fields of design, manufacturing, thermal, robotics, mechatronics fields of engineering.

The focus of this conference is to provide a technical platform that encourages scientific research and educational activities that would cater to the needs of both society and the industry. The conference NEC-ICETMEIA-2K22 provides technical platform that encourages scientific research to cater the needs of both industry and society. The conference includes a keynote address and guest lectures by eminent speakers around the globe who would deliberate the recent trends and challenges in the field of mechanical engineering & industrial automation.

TOPICS OF THE CONFERENCE

- Advanced Manufacturing Processes
- 3D Printing
- Green Manufacturing and Industry 4.0
- Conventional & Non-conventional machining processes
- Finite element analysis
- Product design & development
- Mechatronics & Robotics
- Non-Conventional Energy Resources
- Green energy & Energy harvesting
- Refrigeration & Air conditioning
- Tribology
- Combustion & Pollution
- Sensors & Actuators
- Flow measurements
- Advanced Composite Materials
- Dispersion and Dispersants
- Polymer composites
- Metal matrix composites
- Smart materials
- Biomaterials
- Solar Energy
- Surface Science & Engineering

SUBMISSION GUIDELINES

- Authors intending to present papers are requested to send Soft copies to necicetmeia2k22@nrtec.in
- The authors are requested to limit the number of pages to 6.
- The selected papers will be notified for registration.
- No. of Authors per paper is limited to four only.
- Certificate will be provided to authors who is presenting paper orally during the conference.
- All the presented Papers will be published in conference Proceedings with ISBN Number.
- The selected papers will be published in UGC-CARE Journals with prior consent of authors.

About NEC

The Narasaraopeta Engineering College was established in the year 1998 by Gayatri Educational Development Society, Narasaraopet, under the leadership of Sri M.V.Koteswara Rao, who has a vision of developing this college as an autonomous institution of higher learning & knowledge in the heart of Palnadu region. The college is approved by AICTE, permanently affiliated to JNTUK Kakinada, Accredited 'A' Grade by NAAC and Accredited thrice by NBA. NEC is announced as 'AUTONOMOUS' in the year 2016. The college has launched Incubation Centre where the students can implement their ideas. The college has an MOU with Oracle University (USA). The college has AP CM Excellence centre, AI&ML centre and MSME centre. The college offers Seven M.Tech programmes, Two PG courses of MCA, MBA and Seven courses at B.Tech level in the branches EEE, CSE, CSE-AI, IT, ECE, ME and CIVIL. The college has well equipped laboratories and computers. Microsoft Innovation Centre was established in the college. In order to build a vibrant entrepreneurship ecosystem Venture Devel-opment Centre (VDC) is established in association with i2E North Eastern University, USA and APSSDC. Also, the college has Indo-European skilling Centre for Mechatronics and Industrial Robotics in collaboration with APSSDC and ARC (Applied Robot Control), Germany. AP CM's Skill Excellence Center is also established to provide students access to the most advanced courses by industry giants. The college has MOU with New Mexico State University, USA, which enables student and faculty exchange programs.

Narasaraopet is known as the gateway of Palnadu. Narasaraopet is a town in Guntur district and is on the railway line of Guntur to Guntakal. Narasaraopet is 50 Km from Guntur and 25 Km from Chilakaluripet (NH5) by road. Narasaraopet is 120 Km away from Vijayawada Airport. Kotappakonda is the site of major religious pilgrim place of Lord Siva which is located 5 Km from NEC.

ABOUT THE DEPARTMENT

The Department of Mechanical Engineering was established in the year 2002 with an intake of 60 students and in course of time it has increased to 120. The department offers UG and PG programs. PG programs are being offered in specialization of Machine Design and Thermal Engineering. The UG program of the department is accredited twice by AICTE-NBA. The department is recognized as research and development center by JNTUK, Kakinada. The department has excellent infrastructure like E class rooms, AC seminar hall and is well equipped with modern laboratories like Dassault systems and ARC laboratory. Department has equipment beyond curriculum like stir casting machine, 3D printer, Fatigue testing machine, Five gas analyzer, Ultrasonicator, Tool makers microscope, magnetic particle tester etc., The department faculty encourages the students to implement innovative ideas in their project works and R&D. Many of the faculty members are upgrading their skills by attending the FDP, conferences, seminars and workshops in innovative and thrust area technologies regularly. The department has student chapters ISTE & IE(I).

International Conference on Emerging Trends in Mechanical Engineering and Industrial Automation NEC-ICETMEIA-2K22 was organized during July 29th to 30th 2022, by **Department of Mechanical Engineering, Narasaraopeta Engineering College**, Narasaraopet, Andhra Pradesh, India in association with Institute of Engineers (India), Kolkata. The NECICETMEIA-2K22 is conceived as a forum for presenting and Exchanging Ideas and Results of high quality research work in cutting edge technologies and most happening areas of Mechanical Engineering and allied areas of Mechanical Engineering

The NEC-ICETMEIA2K22 solicited latest research ideas on Mechanical Engineering and thus inviting researchers working in the domains of Manufacturing, Thermal Sciences, Mechanical Design, Robotics, Mechatronics and Industrial Automation.

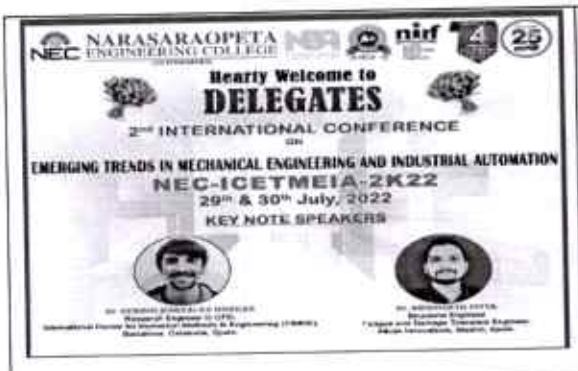

The sincere effort of the program committee members and organizing committee members coupled with indexing initiatives from conference advisory committee members have drawn a large number of high-quality submissions from students, research scholars, and faculty members all over India and abroad. The NEC-ICETMEIA2K22 team as a whole received around 100 submissions and peer review committee has accepted only 60 quality papers of them, which is around 60% of the submissions. All the accepted papers are published in "**Proceedings on Mechanical Engineering and Industrial Automation (ICETMEIA2K22) with ISBN:** . The Conference brings together over 200 delegates from around the world and from a range of institutions and organizations to exchange ideas and discuss the challenges in Mechanical Engineering and Allied Areas.

The Conference is structured with two keynote sessions by eminent Scientists followed by four technical sessions which were chaired by distinguished faculty of outstanding institutions of the country.

The **NEC-ICETMEIA2K22** was organized through online mode via the Microsoft Teams platform. The inaugural function was started by welcoming all the dignitaries, delegates, and participants to the Conference by **Dr.B.Venkata Siva** Professor & Head of Department of Mechanical Engineering & Convener of **NEC-ICETMEIA2K22** addressed the gathering by giving the welcome note on the conference followed by the opening remarks of **Dr. D. Suneel** Professor & Vice-Principal. The Principal and Conference Co-patron **Dr M.Sreenivasa Kumar** addressed the gathering. The Keynote speaker of 1st Day was Dr.**Sergio Gonzalez Horcas**, Research Engineer at the International Centre for Numerical Methods in Engineering (CIMNE). He is part of the aeronautics group, and leads a research line around industrial flows. He is part of an international project with Airbus, and collaborates in the development of in-house simulation codes. **Sergio Gonzalez Horcas** has given the inaugural message. The inaugural function of conference was concluded with Vote of thanks by Dr.P.Suresh Babu, Co-Convenor.

Address by Keynote Speaker

Delegates present in conference

During the two days, the Conference was addressed with renowned eminent speakers from abroad. On the first day, keynote speech was presented by Dr.Sergio Gonzalez Horcas, and Second day presentation was delivered by Dr. Siddharth Pitta Fatigue and Damage Tolerance Engineer at Altran Innovations, Madrid, Spain.

Keynote Speaker-I

Dr.Sergio Gonzalez Horcas, PhD
International Centre for Numerical Methods in Engineering (CIMNE)
Parque Tecnológico del Mediterráneo, office 204
08860, Castelldefels, Barcelona, España

Sergio González Horcas holds a bachelor degree in aeronautical engineering from the Polytechnic University of Catalonia UPC BarcelonaTech (Spain). He collaborated with the Physics Department as a research assistant, working in wind tunnel design and exploitation. His initial education was complemented by a series of international experiences, all of them revolving around the field of aerodynamics. First, Sergio completed a Master of Science in Aerospace Mechanics and Avionics from

Guntur (Dist.), A.P.

ISAE-SUPAERO (France), specialized in advanced fluid engineering. During his master's thesis, he extended his knowledge on CFD by creating and validating a numerical model of the thrust vectoring nozzle of a fight plane. Then, Sergio enrolled a PhD program in the University of Mons (Belgium), that he completed in 2016. His PhD thesis revolved around the development of numerical methods for the study of wind turbines aeroelasticity. In particular, a Fluid Structure Interaction (FSI) approach was set up, coupling a CFD code with a structural model of the wind turbine blades. From 2017 to 2022 , Sergio worked as a researcher for DTU Wind Energy (Denmark). He implemented a coupling code for the study of Vortex Induced Vibrations (VIV) and collaborated in the development of the CFD code Ellipsys3D. Currently, Sergio is a research engineer at the International Centre for Numerical Methods in Engineering (CIMNE). He is part of the aeronautics group, and leads a research line around industrial flows. He is part of an international project with Airbus, and collaborates in the development of in-house simulation codes. Sergio has authored 17 top journal articles and 20 conference articles and monographs. He has also supervised 2 Ph.D. thesis and 8 M.Sc. thesis concerning the development and application of numerical methods.

He delivered lecture on Modern horizontal axis wind turbines are among the most challenging engineering applications. They represent a tightly coupled problem between several physics: structures, aerodynamics, hydrodynamics and servo actuation. Therefore, the improvement of current technologies needs the contribution of a rather large amount of scientific and technical disciplines, such as system engineering, electrical engineering or meteorology. In this lecture, we will be interested in approaching the problem through the eyes of a mechanical engineer. We will see some of the main challenges and drivers of the field of wind energy, and what are the tools that we have to overcome the obstacles and to propose innovative solutions. More in particular, the focus will be put on the different

available aerodynamic models, and how they can help us to study complex problems such as aeroelastic instabilities

Keynote Speaker-I

Second Day keynote speech was presented by Dr. Siddharth Pitta

Dr.Siddharth completed Master of Science in Aerospace engineering from Brunel University, UK. Obtained Ph. D in Aerospace Science and Technology from Universit at Politecnica de Catalunya. He worked as a Research Engineer at International center for numerical Methods in engineering up to 2021. He is presently working as Fatigue and Damage tolerance engineer at Altran Innovations, Madrid, Spain.

Keynote speech delivered by **Dr. Siddharth Pitta** on latest developments in Aircraft structural Management and Use of FEM Software to provide benchmark Results in Analysis. He mentioned software like Abacus, Ansys to capture structural regimes for both static and dynamic analysis.

In Day -1 soon after completion of keynote presentation the Sessions started

Valedictory Session

The Conference concluded with Valedictory session. Dr.B.Venkata Siva, Convener of ICETMEIA2K22 gave closing remarks. Dr M.Sreenivasa Kumar Principal, Narasaraopeta Engineering College appreciated the whole conference team for organizing the event in big-way through online mode. Few enthusiastic participants have shared their feedback about the Conference.

The conference concluded with Vote of thanks by Dr. D. Jagadish and Gratitude was expressed to the Management, Principal, Conveners, Program chairs, Technical and Organizing chairs, Keynote Speakers, Session chairs, Authors, and participants.

2nd INTERNATIONAL CONFERENCE ON

EMERGING TRENDS IN MECHANICAL ENGINEERING AND INDUSTRIAL AUTOMATION

(ONLINE/ OFFLINE)

NEC-ICETMEIA-2K22

29th & 30th July, 2022

Organized by Department of **Mechanical Engineering**

In Association with The Institution of Engineers (India) & Indian Society for Technical Education (ISTE)

About the Conference

The objective of NEC-ICETMEIA–2K22 is to create an international conglomeration of scientists, engineers, and industrial experts. This forum serves as a platform where people can share information about latest diverse technological advancements, innovations, and achievements in the areas of Mechanical engineering and allied fields of engineering. Further, it would also facilitate discussion on the developments and challenges in the fields of design, manufacturing, thermal, robotics, mechatronics fields of engineering.
The focus of this conference is to provide a technical platform that encourages scientific research and educational activities that would cater to the needs of both society and the industry. The conference NEC-ICETMEIA-2K22 provides technical platform that encourages scientific research to cater the needs of both industry and society. The conference includes a keynote address and guest lectures by eminent speakers around the globe who would deliberate the recent trends and challenges in the field of mechanical engineering & industrial automation.

Topics of the Conference

- Advanced Manufacturing Processes
- 3D Printing
- Green Manufacturing and Industry 4.0
- Conventional & Non-conventional machining processes
- Finite element analysis
- Product design & development
- Mechatronics & Robotics
- Non-Conventional Energy Resources
- Green energy & Energy harvesting

Conference Brochure

About NEC

The Narasaraopeta Engineering College was established in the year 1996 by Dayanidhi Educational Development Society, Narasaraopet, under the leadership of Sri M.V.Koteswara Rao, who has a vision of developing this college as an autonomous institution of higher learning & knowledge in the heart of Palnadu region. The college is approved by AICTE, permanently affiliated to JNTUK Kakinada, Accredited 'A' Grade by NAAC and Accredited thrice by NBA. NEC is introduced as AUTONOMOUS in the year 2016. The college has established Incubation Centre where the students can shortlisted their ideas. The college has an MOU with Oracle University (USA). The college has AB CIM Excellence centre, AI&ML centre and MSME centre. The college offers Seven B.Tech programmes. Two PG courses of MCA, MBA and Seven courses at B.Tech level in the branches EEE, CSE, CSE-AI, IT, ECE, ME and CIVIL. The college has well equipped laboratories and computers. Microsoft Innovation Centre was established in the college. In order to build a vibrant entrepreneurship ecosystem Venture Development Centre (VDC) is established in association with JIE North Eastern University, USA and APSSDC. Also, the college has Indo-European Training Centre for Mechatronics and Industrial Robotics in collaboration with APSSDC and ARC (Applied Robot Comm), Germany. AP CIM's Skill Excellence Center is also established to provide students access to the most advanced courses by industry giants. The college has MOU with New Mexico State University, USA, which enables student and faculty exchange programs.

Narasaraopet is known as the gateway of Palnadu. Narasaraopet is a town in Guntur district and is on the railway line of Guntur to Gurtukul. Narasaraopet is 50 Km from Guntur and 25 Km from Chilakaluripet (NH5) by road. Narasaraopet is 120 Km away from Vijayawada Airport. Kotappakonda is the site of major religious pilgrim place of Lord Siva which is located 5 Km from NEC.

ABOUT THE DEPARTMENT

The Department of Mechanical Engineering was established in the year 2003 with an intake of 60 students and in course of time it has increased to 120. The department offers UG and PG programs. PhD programs are being offered in specialization of Machine Design and Thermal Engineering. The UG program of the department is accredited twice by AICTE, NBA. The department is recognized as research and development center by JNTUK, Kakinada. The department has excellent infrastructure like 6 class rooms, AC seminar hall and is well equipped with modern laboratories like Dynamic systems and ARC laboratory. Department has equipment beyond curriculum like cnc cooling machine, 3D printer, Fatigue testing machine, Free gas analyzer, Ultrasonicator, Tool makers microscope, magnetic particle tester etc. The department faculty encourages the students to implement innovative ideas in their project works and R&D. Many of the faculty members are upgrading their skills by attending the FDP, conferences, seminars and workshops in innovative and thrust area technologies regularly. The departments has student chapters ISTE & IEI(I).

Program Report

Program Name: Autodesk Design Now Workshop on FUSION 360 Session-1

Date/Duration: 12-09-2022

Name of the Resource person: ICT ACADEMY

Number of participants: 80

Program objective: The objective of this course is to Fusion 360 is a cloud-based CAD/CAM tool for collaborative product development. Fusion 360 enables exploration and iteration on product ideas and collaboration within distributed product development team. Fusion 360 combines organic shapes modelling, mechanical design and manufacturing in one comprehensive package

Topics Covered:

- Draw commands
- Modify commands
- 2D drawings
- Isomeric drawings
- 3Dcommands
- 3D modelling

Program Outcome:

- Students able to know the difference between draw and modify commands
- Students able to draw 2d drawings and isometric drawings
- Students able to know the 3d commands like extrude, revolve sweep, loft etc
- Students able to draw the 3d modelling objects

Program Report

Program Name: Research Opportunities for Students of Mechanical Engineering

Date/Duration: 10-03-2023

Name of the Resource person: Dr. G. Suresh, Associate Professor, Department of Mechanical Engineering, VFSTR University

Number of participants: 100

Program objective: "Seeking a job as a mechanical engineering where I can use my extensive experience to help your organization achieve its goal of excellence in the mechanical engineering industry." "Engineer focused on quality who seeks to provide skills in systems evaluation to a mechanical engineering role.

Topics Covered:

- Biomedical and Engineering
- Fluid Mechanics.
- Combustion and the Environment.
- Ground Vehicle Systems.
- Heat Transfer,
- Thermodynamics and Energy Systems

Program Outcome:

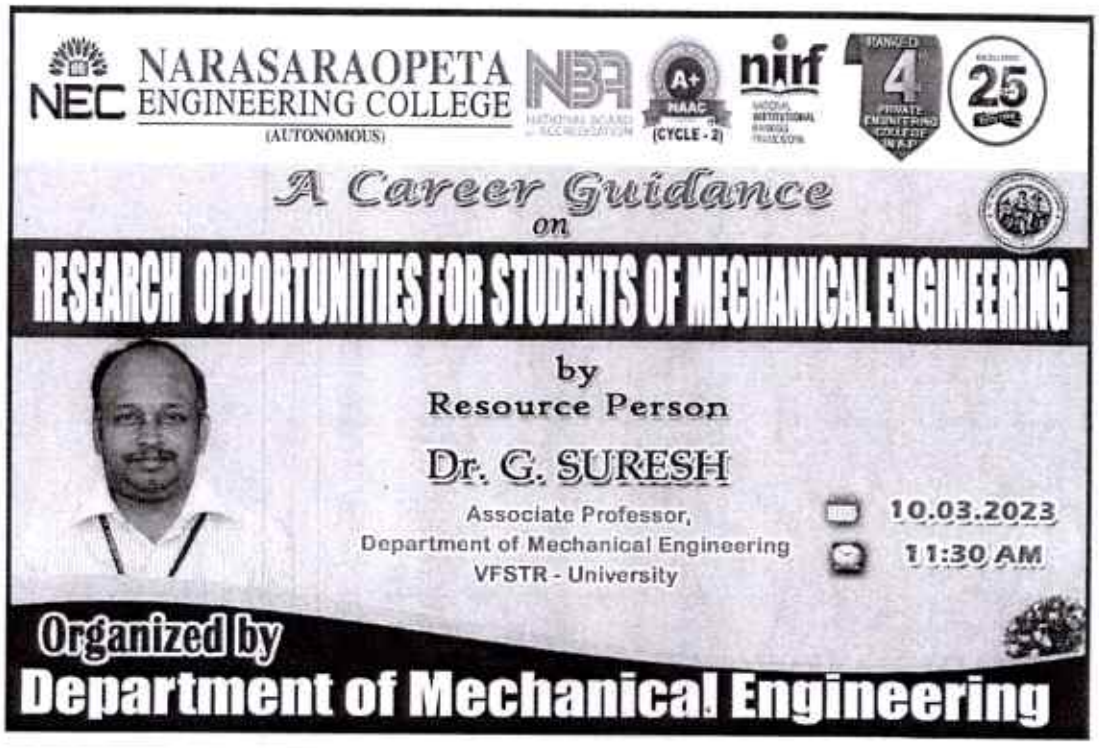

Current research activities in the Department of Mechanical Engineering are in the areas of controls and robotics, energy and micro power generation, fluid mechanics, heat/mass transfer, mechanics of materials, manufacturing, material processing, MEMS, nanotechnology, and orthopaedic biomechanics

Program Report

Program Name: Role of Additive Manufacuring in Medical Engineering

Date/Duration: 10-03-2023

Name of the Resource person: Dr. P.S.Rama Sreekanth, Professor, School of Mechanical Engineering, Director-Ranking & Accreditation, VIT-AP

Number of participants: 102

Program objective: The additively manufactured biomedical items are typically used in tissue/organ repair, drug delivery, clinical medicine, tissue engineering, and prosthetic implants that are specifically designed for the patient

Topics Covered:

The additive manufacturing technology has been applied in various sectors: the manufacturing of industrial components, toys, medicine, medical-surgical instruments, and tissue engineering sectors. In the tissue engineering field, it has been intensively applied to make biomaterials, organs, and drugs

Program Outcome:

- Additive manufacturing is considered an effective and accepted implant design and development method.
- Implants can replace defective or missing tissues and bones in the human body. Implants must be designed in patient-specific manner with a high degree of quality

PROGRAMME REPORT

Name of the Programme : A one week workshop on "DESIGNING SOLAR PV SYSTEMS "

Dates : **26th September - 30th September - 2022**

Details of the Resource Persons :

1. Name : Mr.Purusotham Chary
   Designation : Manager
   Organization : GVET, Hyd
   Phone No : 8985066616
   Mail.Id : greenvionenergytechnologies@gmail.com

Objective of the programme:

This training programme is specially designed for Engineering College students and it mainly deals with various aspects Designing Solar PV Systems. The workshop aims to achieve the following objectives:

- Components of a Solar Photo Voltaic System
- Solar Modules.
- Mounting Structures and Balance of Systems
- Installation, Maintenance and Trouble Shooting
- System Design
- Inverter and Charge Controller.
- Assembly of designed solution.
- Inverter and Charge Controller

IQAC

PRINCIPAL

NARASARAOPET - 522 601
Guntur (Dist.), A.P.

Topic Covered:

- provide basic knowledge on the technical aspects of the Solar PV Energy
- provide practical and real time experience on various applications of Solar Energy
- Design of Solar Photo Voltaic System along with Installation and Maintenance
- Design, install and maintain your own solar Photo Voltaic projects
- System Design for a given load and site conditions – Calculation of total load – Calculation of Module Capacity – Determining the number of series and parallel connection of Modules
- Connecting the batteries as per the design – Checking for the required Voltage and Charge rate
- Tool Kit – Need for maintenance – Battery Maintenance – Solar Module cleaning – Identifying the trouble – Testing every component – Problem solving
- Assembly of designed solution – Battery Parallel and series connection – Assembling Grid tie system with string inverters and micro inverters – Shading Effect on Modules – Lightning Arrestor – Grounding Demonstration

Outcome of the programme:

- The workshop concluded with the hands on practice on Grid Software tools.
- Introduction to PV System, Preliminary Design, Project Design, Tools, System design of Grid Connected Project, Orientation, Horizon, Near Shadings, System, Module Layout and Simulation.
- Finally, certificates were distributed to all the students who attended the workshop.
- On the whole, a one week workshop was very innovative and useful and it gave an opportunity for the students to get updated with the recent trends in Solar PV modules & applications. The workshop was a grand success.

PROGRAMME REPORT

Name of the Programme : A one week workshop on "DESIGN AND DEVELOPMENT OF GOKART VEHICLE "

Dates : **10th October - 15th October - 2022**

Details of the Resource Persons :

1. Name : Mr. Venkatesh Sankaramanchi
   Designation : Engineer in Technical
   Organization : Sieger Robotek Pvt.Ltd
   Phone No : 9676396222
   Mail.Id : Venkatesh @gmail.com

2. Name : Mr. Mytreya yechuri
   Designation : Engineer in Technical
   Organization : Sieger Robotek Pvt.Ltd
   Phone No : 7661814769
   Mail.Id : Mytreya@gmail.com

Objective of the programme:

This training programme is specially designed for Engineering College students and it mainly deals with various aspects Design and development of go-kart vehicle. The workshop aims to achieve the following objectives:

- Selection of a suitable material for designing
- Designing of Go-Kart on software.
- Analysis of Vehicle on an analysis software

- ❖ Design the chassis
- ❖ Transmission and Braking systems.
- ❖ Design a safe and reliable vehicle for racing.
- ❖ Design the go-kart in such a way that the driver's center of gravity is aligned with the vehicle.
- ❖ General introduction to EV

Topic Covered:

- **Introduction:** General Student projects, Importance of involvement in student projects, Go-karts, Classification and Nomenclature of Go-karts, Components of go-karts, Rules and regulations of SMAE Students Kart Design Challenge, Formation of team, Development of Action plans.
- **Design and steering:** Constraints for designs, Assumptions to be made, Space optimizations, Design & development procedure, Development of Technical drafts using ASME Y14.5, Introduction to steering, Classification of steering mechanisms. Components in steering assembly and its mounting procedure. Introduction to vehicle dynamics.
- **Transmission and Braking:** Types of transmissions and Braking's, Components involved in their assemblies, General mounting procedures.
- **Reports:** Reports and its developments as per industrial standards (reports includes Gantt chart, DFMEA, PFMEA, DVP & Project report).
- **General introduction to EV:** Introduction to EV, Recent Trends and Opportunities waiting for future Engineers. Skills which should be up skilled to sustain in competitive Industry.

Outcome of the programme:

- This workshop aimed to build a go-kart based on a conceptual design that was optimized to improve the vehicle's stability. The Go-design kart's and fabrication focuses on creating a simple, lightweight, and easy to-operate vehicle.
- The design specifications included ergonomics, safety, and reliability considerations.
- All major components were analyzed to improve vehicle performance, improve strength and rigidity, and reduce complexity and manufacturing costs.
- The Go-kart design has been as per usual calculations of go-kart, but to reduce the weight of the vehicle.

Program Report

Program Name: Product Desesign & Drafting by CATIA

Date/Duration: 17-10-2022 to 22-10-2022

Name of the Resource person: Mr. N.Srikanth , APSSDC Trainer

Number of participants: 101

Program objective: CATIA is specifically used for product designing. It supports the engineer and the designer in every product development stage. Starting from product concept designing to product tooling, its simultaneous engineering and design-in-context capabilities, make it a great asset to every company that use it

Topics Covered:

- Basic considerations
- Types of materials
- Defects, Moulding process
- CATIA modelling methodology

Program Outcome:

- The course helps the students to understand the CATIA software from the basics of sketcher workbench to advanced surface design which helps you to understand how to design plastic components based on industry-standard prerequisites.
- In this course, the students will learn about core and cavity creation for plastic components design. Design of engineering features like a dog house, ribs, and heat stakes, design of automotive plastic components based on injection moulding requirements and design of engineering features along with a few plastic component design project

PROGRAMME REPORT

Name of the Programme : A One week workshop on "**MECHATRONICS & INDUSTRIAL AUTOMATION**"

Dates : 19th December to 23rd December 2022

Details of the Resource Persons :

1. Name : Mr.M Madhan Kumar, Mr. V.Ramniwas
   Designation : Technical Trainer
   Organization : PIS, Trichy
   Phone No : 8248885959
   Mail.Id : madhankumar@Gmail.com

Objective of the programme:

This training programme is specially designed for Engineering College Students and it mainly deals with various aspects of programme logic controls. The course aims to achieve the following objectives:

- Evolution of automation Creating the First Feature with Quick Shapes
- Basic ladder programming Additional Sketching Tools
- evolution and applications Design and Display Manipulation
- Interfacing PLC and HMI, communication protocols, Hardware session

A programmable Logic Controller (PLC) is a digital computer used for automation of typically industrial electromechanically processes, such as control of machinery, factory assembly lines, light fixtures are used in many machines in my industries.

Topic Covered:

- STUDY OF MOTOR CONTROLLER ,CONTROL & CONTROL SYSTEM
- AUTOMATION & ITS TYPE,VARIOUS LEVELS OF AUTOMATION
- HARD WIRED LOGIC USING RELAY,PLC FUNDAMENTALS
- ARCHITECTURE OF PLC,ROLE OF PLC IN AUTOMATION
- VARIOUS TYPES OF PLC,CHOOSING CRITERIA OF PLC
- TYPES OF I/OS ,CONCEPTS OF FLAG
- SCAN CYCLE EXECUTION ,WORKING OF PLC & ITS LOOP HOLES
- SOFTWARE INTRODUCTION ,LADDER PROGRAMMING & ITS ADVANTAGES
- BASIC PROGRAMMING RULE,PLC VARIOUS INSTRUCTION SET
- COUNTERS,COMPARE & INTERRUPT
- SUBROUTINE ETC. & SENSOR & ACTUATOR
- STUDY OF BATTERY MANAGEMENT SYSTEMS.
- STUDY OF SPEED INDICATOR WITH MICROCONTROLLERS.
- BLUETOOTH-BASED ROBO CONTROL, IOT WITH MOTOR CONTROL.
- MOTOR WITH FAULT PROTECTION CONTROL.
- IOT-BASED HOME AUTOMATION.

Outcome of the programme:

- A PROGRAMMABLE LOGIC CONTROLLER (PLC) is an industrial computer control system that continuously monitors the state of input devices and makes decisions based upon a custom program to control the state of output devices.
- These controllers can automate a specific process, machine function, or even an entire production line
- Flexible in Nature: One model of PLC can be used for different operations as per requirement.
- Easy to install and troubleshooting: In hard wired relay based systems, installation time is more as compared to the PLC based control panels.

PROGRAMME REPORT

Name of the Programme : A One week workshop on **"DESIGN & ASSEMBLY OF 4-WHEELER EV GOLF CART "**

Dates : 2nd January to 7th January 2023

Details of the Resource Persons :

1. Name : Mr. Siddhant pattnaik,Mr. Jyoti Ranjan Singh,Mr. Alok Kumar jena
   Designation : Engineer in Technical trainer
   Organization : SKYY RIDER ELECTRIC PRIVATE LIMITED
   Phone No : 8984013591,8249000594
   Mail.Id : office@skyyrider.com

Objective of the programme:

Design an electric golf cart with six people seating capacity which runs on batteries as well as solar panels. The need for a golf cart isn't just using it in the golf course and is nowadays being used in large universities spread over vast acres of land and in expensive hotels and latest complexes for comfort traveling Hospitality industry and providing low cost of charging with increasing mileage as technology advances. In this project the aim has been to put forth an industry standard design for an electric golf cart that can run exceedingly well on grassy / muddy terrains as well as wet conditions and concrete roads. During designing all the constraints and cost considerations and all technical aspects were set according to the current advancements in the industry in a thoroughly researched manner. A battery electric vehicle (BEV) has far fewer moving parts than a conventional gasoline-powered vehicle. There's no need for a liquid fuels or oil changes. There's no transmission or timing belt to fail you. And most of the maintenance cost associated with ic engine are eliminated.

Topic Covered:

- Chassis
- Transmission
- Brake
- Steering
- Suspension
- Battery
- Solar pane

Outcome of the programme:

- This would enhance better EV battery Technologies and production.
- This would help in better presence and social responsibility on increased levels of requirements
- This would improve its presence and production capability of new generation batteries golf carts

Program Report

Program Name: Autodesk Design Now Workshop on FUSION 360 Session-1I

Date/Duration: 05-01-2023

Name of the Resource person: ICT ACADEMY

Number of participants: 80

Program objective: The objective of this course is to Fusion 360 is a cloud-based CAD/CAM tool for collaborative product development. Fusion 360 enables exploration and iteration on product ideas and collaboration within distributed product development team. Fusion 360 combines organic shapes modelling, mechanical design and manufacturing in one comprehensive package

Topics Covered:

- Draw commands
- Modify commands
- 2D drawings
- Isomeric drawings
- 3Dcommands
- 3D modelling

Program Outcome:

- Students able to know the difference between draw and modify commands
- Students able to draw 2d drawings and isometric drawings
- Students able to know the 3d commands like extrude, revolve sweep, loft etc
- Students able to draw the 3d modelling objects
