

## REPORT ON CYBERCRIME AWARENESS

Date: 30th November 2024

Venue: Block 4, Seminar Hall

Time: 1:00 PM to 4:00 PM

On 30th November 2024, a seminar on Cybercrime Awareness was conducted by the Department of basic science and humanities for the first year students in Narasaraopeta Engineering College.

The Principal of Narasaraopet Engineering College Dr.S.Venkateswarlu said that This initiative reflects the college's commitment to fostering awareness among students on crucial societal issues and ensuring their holistic development. Head of the department of BSH Dr K Ponnari lakshmi said that the program was organized to educate students on the rising concerns of cybercrimes and measures to prevent them. The session took place in the Seminar Hall of Block 4 and witnessed active participation from students and faculty members.

The event was led by Mr. K Pradeep from Bangalore cybercrime office and G Venkateswara Rao ASI Narasaraopet rural Police Station, from the police department, who provided valuable insights into the various forms of cybercrime, including phishing, hacking, identity theft, and cyberbullying. They emphasized the importance of staying vigilant while using online platforms and shared practical tips to safeguard personal information.

During the interactive session, the speakers elaborated on the legal consequences of cybercrimes and highlighted how students could report suspicious activities. They also addressed queries from the audience, making the session highly engaging and informative.

The program concluded with a vote of thanks, acknowledging the police officials for their valuable time and guidance. The session proved to be an eye-opener for many, equipping the students with knowledge to navigate the digital world safely.
