I. Knimbus – mLibrary App

The **mLibrary app** (mLibrary–Your Mobile eLibrary) is a digital library platform developed by Knimbus. Through this we are providing to all our students and staff users seamless mobile access to the college subscribed e-resources, open-access academic content, and multimedia from anywhere.

Key Features

Vast Content Access: Read from millions of e-books and thousands of journals and other learning resources content for our specific college.

Personalization: Build a personal "My Library" with your favourite resources and save notes for future reference.

Unified Platform: All relevant content, including college repositories and subscribed content, is available in one place with a universal search feature.

Offline Access & Notes: The app allows you to save notes and potentially content for offline use, depending on our college specific setup.

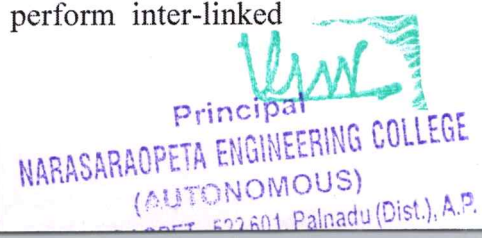

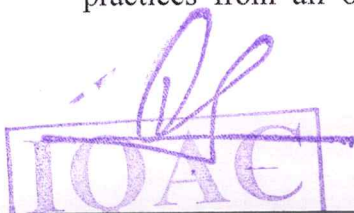

Integration: It can be integrated into platforms like Microsoft Teams for a blended learning environment.

Updates: Stay informed about the latest additions to your library's collection.

URL of the KNIMBUS mLibrary is: <https://nrtec.knimbus.com>

II. National Digital Library of India (NDLI) App

National Digital Library of India (NDLI) is a virtual repository of learning resources which is not just a repository with search/browse facilities but provides a host of services for the learner community. It is sponsored and mentored by Ministry of Education, Government of India, through its National Mission on Education through Information and Communication Technology (NMEICT). Filtered and federated searching is employed to facilitate focused searching so that learners can find the right resource with least effort and in minimum time. NDLI provides user group-specific services such as Examination Preparatory for College students and job aspirants. Services for Researchers and general learners are also provided. NDLI is designed to hold content of any language and provides interface support for 10 most widely used Indian languages. It is built to provide support for all academic levels including researchers and life-long learners, all disciplines, all popular forms of access devices and differently-abled learners. It is designed to enable people to learn and prepare from best practices from all over the world and to facilitate researchers to perform inter-linked

exploration from multiple sources. It is developed, operated and maintained from Indian Institute of Technology Kharagpur.

URL of the NDLI is <https://ndl.iitkgp.ac.in/>

III. National Programme on Technology Enhanced Learning

NPTEL courses are inherently designed for **remote access**, functioning as massive open online courses (MOOCs) that allow anyone to learn from the IITs/IISc regardless of location. All course materials, including video lectures, web content and assignments are available online.

Institutional NPTEL Server Web Address: <http://192.168.13.62>

DELNET has launched a new "COnCour Portal "(COnCour - Continue with Online Courses to Conquer Your Future Now) which provides details of more than 4800 Online Courses in various disciplines provided through various institutions (both National and International). The students can search through Subject, Certificate Granting Institutions, Title of the Course, Country, etc. It is hoped that the portal will be effectively used by the students and other users of member-libraries. The data will continuously be updated in the portal.

ViSiOn Portal (Video Lectures)

DELNET has launched a new portal "ViSiOn" (Video Sites Online), which contain a large number of enriching video lectures delivered by the Subject Matter Experts (SMEs) in varied fields of knowledge and hosted & accessible through various institutions. The single window interactive, innovative and engaging platform allows the faculty, students, researchers and scholars, etc. to access the video lectures through Title, Subject, Speaker's name, Host Institution, etc. More than 25,000 video lectures are available through the portal. It will enhance students learning experience and will inspire innovation and critical thinking besides providing an opportunity to them for self-directed learning through the explanatory and descriptive lectures. DELNET is devoted to strengthening the knowledge sharing activities among the Member-Institutions. As a large number of domain / subject matter experts are connected with the DELNET Member-Institutions as teaching faculty/visiting guest faculty, DELNET is keen to tap the vast intellectual tacit knowledge and to create a Knowledge Repository of Subject Matter Experts (SMEs). It will open up new vistas for knowledge collaborations among the member-institutions. It will also lead to establishing new connections between the faculty and students for enhancing academic & research activities. The accreditation bodies also desire the Institution to take part in initiatives for creation and transfer of knowledge.
